Course Objectives:

1. Analyzes the impact of selected historical, political, ethical, legal and professional issues on the health care delivery.  
2. Analyzes multidimensional influences on health and health care  
3. Accepts responsibility for own learning and professional growth.  
4. Completes assignments is assigned time frame  
5. Utilizes group dynamics and communication skills in collaboration with individuals and groups.

Teaching Methods

This is a seminar course which requires the student to actively participate in discussions in class. Due to the size of the class there will be individual or group assignments, independent reading and study for the student to demonstrate learning. Each student will have the opportunity to be a class expert for one class session. These methods will be utilized to develop an understanding of the current issues in nursing today. The faculty member will be available to assist the student in researching the issues being discussed.

The course schedule may change if there is a new worthy event that takes place during the semester. A revised schedule will be posted and the class will be notified.
COURSE REQUIREMENTS

1. Discussion participation is required each week in class, or assignments and participating as the class expert.
2. In class activities are to include only the name of the group members present. Any dishonest behavior will result in all of the group getting a zero for that assignment.
3. Evidence of preparation for discussion is determined by participation and scholarly comments in assignments and WebCt discussion. Students must site references during discussion and with each assignment.
4. All assignments must be submitted by the due date unless the faculty member posts a change in the due date. There will be no exceptions.
5. There will be no food permitted in class. You should eat lunch either before class or after class.
6. Students who are carrying on a side conversation may be asked to leave the class.
7. Due to the size of the class it is critical that all class members conduct themselves in a professional manner.
8. This course will be dealing with relevant information for the new graduate when beginning their professional career.

**Plagiarism**

The highest standards of academic honesty are expected from the student. Faculty adheres to the University policy regarding academic honesty as published in the University Catalog.

Plagiarism means to steal and pass off the work of another as one’s own work. It usually results from bad paraphrasing or improper referencing. The substitution of a few changes from those of the original author and forgetting to use quotation marks, and reference citation are technically considered plagiarism. The only safe way to paraphrase is to read the original over several times and then write your conception of what you have read without looking at the original. In other words, when paraphrasing, keep the source book closed! Wilson, p. 523)

**CODE OF ACADEMIC INTEGRITY**

Ethical behavior is essential in nursing since nurses have enormous responsibility. All students are expected to adhere to the rules of this educational institution. Details regarding the code of conduct and sanctions for violations of the code of conduct can be found in the University’s student handbook as well as the CONHS student handbook. For this course, a student found guilty of academic misconduct including, but not limited to, cheating and plagiarism will be given a zero on the exam or/assignment for the first offense and a failing grade for the course for a second offense.
Students with Disabilities
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Disability Services Office at 361.825.5816 or visit the office in Driftwood 101.

Academic Advising: The College of Nursing and Health Sciences require that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. The College’s Academic Advising Center is located in Faculty Center rooms 163 & 165, and advisors are Johanna DuBose 825-3748 and Angelica Santillan 825-2461.

Grade Appeal Process
As stated in the College of Nursing and Health Sciences (CONHS) Handbook under section VII Policies and Procedures, a student that believes they have an academic grade appeal is encouraged to go through the CONHS academic review process prior to pursuing University Grade Appeal. See the handbook for the process.

As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs.

Disciplinary Action Paper and Discussion
You are to select a final disciplinary action and report the major issues of the action. You are to write up your case and attach it in assignments. Do not forget to reference the BON. You will then discuss your case in a small group discussion on line. You are then required to respond to two other reports with the on line discussion.
www.bne.state.tx.us – then go under disciplinary action – You can select from the recent disciplinary action on the disciplinary action pages. In the disciplinary action pages do not select from any before 1/2009.

Choose only RN actions – there are many who have both RN and LVN license and you can use those.

Your paper is to include the cause of the disciplinary action, the stipulations of the action, and the outcome. Did the nurse comply with the action or was the license revoked. What are your thoughts about the case?

Assignments

1. The resume is to be submitted in assignments with your two letters – the assignment criteria are posted in units.

2. Evaluation of your small group is to be completed and submitted in assignments once you have been class expert. The form is posted in Units.

3. Disciplinary Action paper. www.bon.state.tx.us – see directions above

4. Class discussion assignments will be submitted to the faculty member at the end of the class.
