Texas A&M University-Corpus Christi  
College of Business  
Course Syllabus – Spring 2013

Course Number: ECON 2301  Section 8 : T, R  12:30 - 1:45 PM / CI-113

Course Name: Macroeconomics Principles

Instructor: Patrick M. Crowley

Office: OCNR 373

Phone & Fax: Phone: (361) 825-6011  Fax: (361) 825-5609

Office Hours: T, R:  2:00PM – 4:00PM  
W:  12:00PM – 2:00PM  
and by appointment

Internet: Economics website http://economics.cob.tamucc.edu  
Course Homepage: http://www.patrickmcrowley.com  
E-mail address  patrick.crowley@tamucc.edu  
Twitter: https://www.twitter.com/ProfPCrowley

(bundled package with Aplia courseware), ISBN: 9781133615651. The custom text can be purchased from either the bookstore or the ebook can be purchased from Aplia direct.

Prerequisites: None. However, students taking remedial courses in Basic English (ENGL 0399) and/or Mathematics (MATH 0398 & 0399) are not recommended to take this course concurrently.

Instructional Methodology: Lecture, screencasts, class discussions, assignments, video presentations.

What is macroeconomics?  
Macroeconomics is an approach in economics which looks at the economy as a whole, rather than the behavior of the individual actors in the economy (- this is microeconomics). Macroeconomics therefore studies the performance of the entire economy (whether national or global), in terms of measurements such as the rate of growth of the economy, how fast prices are increasing and the number of people who are out of work.
COURSE DESCRIPTION

An overview of how the economy of the United States is organized and functions in a market system. Market processes are used to show how resources and incomes are allocated by households and businesses. Determination of national income, employment, prices, interest rates, and growth are the focus of simple analytical techniques. Monetary and fiscal policies are also examined.

Learning Objectives:
By the end of this course, the student will be able to:

1. comprehend the subject matter of economics and appreciate its relevance to the contemporary world,
2. apply core economic principles and reasoning to real-world economic issues,
3. discuss and analyze government policy measures and their impacts on economic welfare, and
4. assess the performance of the U.S. and other economies.
5. effectively review and prepare for the Major Field Test for business majors.

Relationship to the University Core Curriculum Program:
As an integral part of TAMU-CC’s Core Curriculum Program within the framework of the various curriculum perspectives outlined in the Texas A&M University-Corpus Christi 2012-2013 Undergraduate Catalog, through its extensive coverage of related topics and other course requirements, Economics 2301 seeks to enhance students’ intellectual skills in the areas of written and oral communications, mathematical competency and critical thinking.

How Economics 2301 addresses the curriculum perspectives of the Core Program:
The analysis of contrasting views of the impact of economic policies, such as fiscal, monetary and international trade policies and of regulations such as those related to prices, banking, labor practices, social assistance program and so on, will provide Economics 2301 students with an appreciation of how individuals relate to the larger society and to the entire world.

The understanding of the operation of our free enterprise system, the economic roles of the government, consumers, businesses and other economic participants and the study of the “ethics of the marketplace” within the context of supply and demand analysis will equip Economics 2301 students with an appreciation of the principles and ethics and human interaction in the production, distribution and consumption of goods and services in our society.

Another perspective of the Core Curriculum, which deals with the relationships among abstract quantities, is addressed in Economics 2301 through the study of economic theories, which as simplifications of reality and often presented in abstract form through the use of graphs (supply and demand graphs, for example) to explain economic events or to forecast them. Additionally, related to this perspective, students in this class will learn how expectations about the future affect economic variables. Specifically, students in this class will understand how, for example, investors’ and bankers’ expectations about future inflation or about the future direction of monetary policy will affect current and future levels of prices, wages, interest rates, currency values, etc.

How Economics 2301 enhances the six Core Curriculum skills:
Throughout the course, students in Economics 2301 will have ample opportunities to enhance their proficiency in the six intellectual skills specified in the TAMU-CC Undergraduate Catalog.
This detailed course syllabus constitutes the first reading assignment for Economics 2301 students. Additionally, the last page of this document contains the topical contents and reading assignments from the textbook. Moreover, the media article projects compel students to do significant reading from outside sources, including the Financial Times, Economist, Wall Street Journal, other periodicals and reports on economic indicators published by government agencies such as the Department of Labor, the Department of Commerce, the Federal Reserve Board and others. These reports are widely accessible through the internet. Exposure to economic and business terminology in these materials certainly provides students with an opportunity to further develop their reading and writing skills.

Although Economics 2301 is primarily a lecture oriented course, students do have opportunities to participate in class discussions, ask and answer questions in class and communicate with the instructor outside the classroom. Homework assignments offer another opportunity for students to exchange ideas verbally and to enhance their listening and speaking skills.

The study of economics could not be possible without critical thinking and quantitative analysis. The fundamental economic concepts of “opportunity cost”, “thinking at the margin” and demand and supply and other applications in decision-making processes provide Economics 2301 students with a valuable critical thinking tool. Similarly, numerical problem-solving on topics such as converting nominal into real Gross Domestic Product, estimating the rate of inflation and the rate of economic growth, the lending capacity of a bank and many other quantitative topics covered in Economics 2301 constitute effective ways through which students can improve their mathematical competency and their critical thinking skills.

**Relationship to Other Coursework:**
An understanding of why and how the U.S. and other economies work is necessary for one to appreciate or participate in the current policy debates. Economic considerations are pervasive in public policy debates, analysis and decisions. Consequently, a basic knowledge of the macroeconomy and the use of economic reasoning are beneficial to every field of study, more especially business related studies.

**PERFORMANCE EVALUATION AND GRADING**

Student performance will be evaluated on the basis of three tests and writing assignments. The material covered on examinations may include scheduled material from the text, class lecture and activities, including assignments and class presentations.

The following is the weight distribution of coursework for determining the overall course average:

<table>
<thead>
<tr>
<th>Coursework</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 Midterm Tests (@ 15% each)</td>
<td>45%</td>
</tr>
<tr>
<td>Aplia Assignments</td>
<td>25%</td>
</tr>
<tr>
<td>Media article assignments (2@ 10% each)</td>
<td>20%</td>
</tr>
<tr>
<td>Attendance</td>
<td>10%</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>
The three tests are compulsory for all students. **There will be no final exam in this course.**

The Official Course Grade is determined by a letter grade using the following scale: A: >90%; B: 80-89.99%; C: 70-79.99%; D: 60-69.99%; F: below 60%. **No additional work ("make-ups") will be given after the last test to supplement a course grade. Grades are given based solely on student performance, not needs or any personal reasons.**

**Written Assignments:**
Students are required to use magazines or the Internet to gain access to information for two written assignments. The assignments aim at providing students with hands-on applications to economic concepts. The assignments should be word-processed, double-spaced with a size 12 pitch in a readable font (such as Times Roman or Arial). See Guidelines handout for further details. Assignments missed due to absences cannot be made up except for illness or other emergencies, in which case a doctor’s note or other official University documentation is required to accompany the assignment.

**Aplia Assignments:**
For each chapter included in the course outline, students are required to complete an online assignment using the Aplia online interactive courseware, available at [www.aplia.com](http://www.aplia.com). Students who do not have online access from home should ensure that they complete the assignments using University computing facilities before the due date. Students are permitted to miss one online assignment without any grade penalty. See separate handout for more details.

**Attendance Policy:**
Students are held responsible for class attendance. Class attendance is a necessary but not sufficient condition for active class participation and will contribute towards good course performance. In this course the attendance part of a student’s grade is determined by their completion of the (random) spot quizzes. Spot quizzes cannot be made up for any reason, as these quizzes are regularly given and are a measure of regular physical classroom presence and comprehension of the material presented in class. Students absent from classes, for whatever reason, are responsible for making arrangements to inform themselves about material discussed, announcements made in class or submittal of assignments due in class. Any absences for reasons of sports participation should be brought to the attention of the instructor at the beginning of semester, and these students should inform the instructor of any further excusable absences as soon as the student is aware of them.

**Academic Honesty:**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism, which is the presentation of the work of another as one’s own. Students caught engaging in such activities should expect a zero grade on the exam/assignment for the first violation and a letter of reprimand placed in their academic file. A second violation will result in an automatic grade of F for the course. Students in the class are subject to the CoB Student Code of Ethics.
Classroom Etiquette:
Examples of classroom misconduct that may affect student evaluation include: habitually entering or leaving the classroom during class time without the consent of the instructor, talking or chit-chatting with other students, listening to a MP3 player while in class and any activities that are disruptive to the learning environment. Students caught repeatedly engaging in such activities will be asked to leave the class for the remainder of the lecture time. Two other points: i) No laptop computers will be allowed to be operated during the class and ii) please mute or turn off your cellphone when in class!

Student Code of Ethics: http://www.cob.tamucc.edu/faculty-staff/ethics.php
This course, and all other courses offered by the College of Business (CoB), requires all of its students to abide by the CoB Student Code of Ethics (available online at www.cob.tamucc.edu). Provisions and stipulations in the code are applicable to all students taking College of Business courses regardless of whether or not they are pursuing a degree awarded by the CoB.

Dropping a Class: I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class.

STUDENT-PROFESSOR COMMUNICATION

Office Hours:
During office hours students are able to visit with the course instructor to ask questions, go over course material, or discuss other issues relating to the course. If office hours are cancelled or the times changed, this will be announced in class. Students who are not available to meet the instructor during regular office hours can make an appointment with the instructor outside of the published times. Office hours start 8/29 and will run until the last day of class.

Email Communication:
Assignments cannot be submitted by email. In addition, University email server filters regularly channel emails originating from unrecognized email addresses to junk email folders, so unless email originates from an islander email address, it WILL NOT be read or answered. Put something related to the course in the email header, otherwise the email still might not get read. Also please be aware that although I will answer most email communications within 24hrs, I cannot guarantee this from Friday through Sunday night.

OTHER ASPECTS OF THE COURSE

International Perspectives:
Global economic trends, the economic performance and trade policy impact economic analysis and policy decisions. As a result, global and intergenerational perspectives are critical to the study of economics.
Americans with Disabilities Act Compliance:
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you are believe you have a disability requiring an accommodation, please contact the Disability Services Office at (361) 825-5816 or visit the office in Corpus Christi Hall 116. If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

Grade Appeals:
As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs.

Hybridization:
Because of the forthcoming online implementation of this course, this version of the course will operate as a partly hybridized version of the course, with some of the lecture content delivered online. The specific chapters which are delivered as “screencasts” are denoted with an S in the far right column (labeled “H”) in the tentative course outline given below. On the dates when screencasts are indicated there will not be a physical class meeting (or only a partial physical class meeting).

Twitter:
This semester I am also initiating a twitter service for the course, which will focus on economic news relevant for the course. If you want to follow me on twitter please follow me on ProfPCrowley, but do be aware that I will not (generally) respond to tweets, so in effect this will be a uni-directional service.

Piazza:
This semester I will also be using a web-based question and answer software for students to pose general questions about the course or for clarification on questions that have arisen from the class material. The Piazza course website can be accessed at http://www.piazza.com and is free of charge.

How to access your Aplia course

ECON 2301 Section 8 (T,R: 12.30PM - 1.45PM)

Instructor: Patrick M Crowley
Start Date: 01/24/2013
Course Key: 9F8W-NT5E-LQBL

Registration

Aplia is part of CengageBrain, which allows you to sign in to a single site to access your Cengage materials and courses.

2. If you already have an account, sign in. From your Dashboard, enter your course key (9F8W-NT5E-LQBL) in the box provided, and click the Register button.
   
   If you don't have an account, click the Create an Account button, and enter your course key when prompted: 9F8W-NT5E-LQBL. Continue to follow the on-screen instructions.

Payment

Online: Purchase access to your course (including the digital textbook) from the CengageBrain website.
Bookstore: Purchase access to Aplia from your bookstore. Check with the bookstore to find out what they offer for your course.

After paying, you will have the option to purchase a physical book at a discounted price. If you choose to pay later, you can use Aplia without paying until 11:59 PM on 02/13/2013.
