Texas A&M University-Corpus Christi
College of Business
Course Syllabus – Spring 2013

Course Number: ECON 4325.001

Course Name & Room: Economics of European Integration
T, R: 5.30-6.45pm
OCNR 117

Instructor: Dr. Patrick M. Crowley

Office: O’Connor (OCNR) Room 373

Phone and Fax: Phone: (361) 825-6011
Fax: (361) 825-5609

Internet: Economics website http://economics.cob.tamucc.edu
Homepage http://www.patrickmcrowley.com
E-mail address patrick.crowley@tamucc.edu

Office Hours: T, W, R: 2PM – 4PM
and by appointment

Required Materials: Richard Baldwin and Charles Wyplosz – “The Economics of
Education, Maidenhead, Berks, UK. (2013)

Course pre-requisites:
The official course pre-requisite is either ECON2301 (Principles of Macroeconomics) or
ECON2302 (Principles of Microeconomics). You will be using the knowledge that you
 gained in these courses in ECON4325.

Instructional Methodology:
Lecture, class discussion, debate.
COURSE DESCRIPTION

Course description:
An introduction to the economics of Western Europe, and by implication, the economic functions of the institutions of the European Union (EU). Students are introduced to economic policy issues which are currently of concern in the European Union, and the analysis of economic problems which are of particular relevance to European Union member states. These include (but are not limited to) the theory of customs unions, optimal currency area theory, the single market, competition policy, and the external trade and development policies of the EU.

Objectives:
To introduce students to the major economies of Western Europe, and by implication the structure and institutions of the European Union. To familiarize students with the policy issues which are currently of concern in the European Union, and to analyze economic problems which are of particular relevance to European Union Member States.

Learning Objectives:
By the end of this course, students should:
1. Understand the theoretical approach in economics to economic integration.
2. Appreciate the reasons why the European Union came into being and what drove its desire for greater economic integration from a historical perspective.
3. Appreciate the main areas where economic integration has had a decisive impact on the economic lives of the citizens of the Europe Union.
4. Analyze the winners and losers from economic integration and the implications for not only the citizens of Europe but also citizens of countries in other parts of the world.
5. Be aware of the international implications of economic integration in Europe and elsewhere on the policies undertaken in other parts of the world.

Relationship to Other Coursework:
This course is designed specifically for those students who have completed a basic principles of economics course and are interested in learning more about the economies of Europe and the economics of regional integration. The main themes of this course include the effects of international trade, European institutions and the impact of fiscal and monetary policies in Europe on the environment in which consumers and business firms operate there and in the rest of the world. This is a required course for a minor in European Union Studies and as such is a “senior seminar” course along with an equivalent course in political science.

Readings:
The course will require a substantial amount of reading. The textbook to be used in the course is only available as an ebook through the McGraw-Hill website, but I believe that copies of the textbook will also be provided by the University bookstore. The textbook to
be used also has a website with valuable information for students and is located at http://www.mcgraw-hill.co.uk/textbooks/baldwin

Other readings will be assigned at the discretion of the instructor. Some of the reading will come from textbooks on the EU, while other reading will consist of academic papers. You MUST do the assigned readings for class, otherwise you will quickly get lost in the course, as the readings tend to be cumulative.

PERFORMANCE EVALUATION AND GRADING

Student performance evaluation breakdown:
Student performance will be evaluated on the basis of tests, assignments, a scrapbook and a country presentation. The relative weights of each of these components are as follows:

- Attendance and participation (debates) 10%
- Country report 20%
- Thought piece on future of the EU 10%
- Mid-term exam 15%
- Final exam 45%

Total 100%

A separate handout will be provided for the country report, the debates, and the thought piece on the future of the EU. The letter grade will be determined based on the percentage earned of total points possible, as follows: A: 85-100%; B: 75-84.9%; C: 65-74.9%; D: 55-64.9%; F: 0-54.9%. In some instances, a curve may be applied in determining letter grades.

Course evaluation description:

a. Attendance and Participation: 10%
I expect you to attend the classes (unless you clear your absence with me beforehand), and an attendance list will be passed out every time we meet. You are expected to contribute and participate in the discussion, particularly during the debates.

b. Country report: 20%
As part of this seminar relates to understanding and appreciating the economic circumstances of the European economies, each student will be assigned a Member State (or prospective Member State) to profile. A report should be prepared discussing the economic situation of the Member State that you choose and the prospects in your chosen country. A separate handout will be provided giving more details.
c. **Thought piece on future of EU: 10%**
   Towards the end of the course I want each student to reflect on what they have learned this semester and write a short “thought piece” which addresses the opinion of the student on the future of the EU in terms of its direction and sustainability.

d. **Mid-term exam: 15%**
   This exam will consist of short and long answer questions relating to the course content.

e. **Final exam: 45%**
   This exam will follow the same format as the mid-term exam and will be given during the official exam period. The exam will cover all the material in the course.

**Attendance:**
Students are held responsible for class attendance and are advised that excessive absences may adversely affect their understanding of the course content and, consequently, their grades. Students absent from class are responsible for assignments due/materials discussed/announcements made.

**Code of Ethics:**
This course, and all other courses offered by the College of Business (COB), requires all of its students to abide by the COB Student Code of Ethics (available online at [www.cob.tamucc.edu](http://www.cob.tamucc.edu)). Provisions and stipulations in the code are applicable to all students taking College of Business courses regardless of whether or not they are pursuing a degree awarded by the COB.

**Academic Honesty:**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism, which is the presentation of the work of another as one’s own. This course, and all other courses offered by the College of Business (COB), requires all of its students to abide by the COB Student Code of Ethics (available online at [www.cob.tamucc.edu](http://www.cob.tamucc.edu)). Provisions and stipulations in the code are applicable to all students taking College of Business courses regardless of whether or not they are pursuing a degree awarded by the COB. Students caught engaging in such activities should expect a zero for that part of the grade for the first infraction followed by an F for the course for a second infraction with a letter of reprimand placed in their academic files.
STUDENT-PROFESSOR COMMUNICATION

Office Hours:
During office hours students are able to visit with the course instructor to ask questions, go over course material, or discuss other issues relating to the course. If office hours are cancelled or the times changed, this will be announced in class. Students who are not available to meet the instructor during regular office hours can make an appointment with the instructor outside of the published times. Office hours start 1/28 and will run to the last day of class.

Email Communication:
Assignments cannot be submitted by email. In addition, University email server filters regularly channel emails originating from unrecognized email addresses to junk email folders, so unless email originates from an islander email address, it is unlikely to be read or answered. Put something related to the course in the email header, otherwise the email still might not get read.

STUDENT COURSE ACCESS AND MANAGEMENT

Dropping a Class:
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. The deadline to withdraw from this class is April 12, 2013.

Americans with Disabilities Act Compliance:
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in CCH 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816 in CCH 116.
