State & Local Government

Course Description

“We, the people, are empowered by our Constitution to establish and maintain a representative form of democratic government. This requires involved citizens with some degree of faith in the legitimacy of the system and their own political ideology. Without a clear understanding of our federal system and how state policies are integrated with those on the national level, the creation of an educated, thoughtful political ideology is impossible. As citizens and recipients of the “good, bad & ugly” that our government offers, we must not lose sight of our responsibility to form more than opinions, but hopefully “a more perfect Union”. It is the primary objective of this course that you will gain an understanding of how our state and national policies are intertwined and often co-dependent, how the state’s political institutions work and who (and what) oils their machines, and how you, the educated and empowered citizen, can impact your government on a variety of levels.

Learning Objectives

1. To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
2. To comprehend the origins and evolution of the Texas political system, with a focus on the growth of political institutions, the Texas constitution, political parties and interest groups.
3. To analyze, critically assess, and develop creative solutions to public policy problems.
4. To understand the functions of county and city government.
5. To recognize and assure ones responsibility as a citizen in a democratic society by learning to think for oneself, by engaging in public discourse and by obtaining information through the news media and other appropriate information sources about politics and public policy.

On completion of this course students will be able to:

1. Recall basic facts related to the foundations of the Texas state government.
2. Describe key political concepts related to US institutions such as the legislature, the governor, and the judiciary.
3. Demonstrate their understanding of key concepts relating to the political behavior in the state of Texas such as voting, elections and political parties.

**Course Policies**

“When in the course of human events”, it becomes “necessary and proper” to take POLS 2306, students should realize they have certain responsibilities and requirements in order to be successful.

1. **Attend Class!** Students who make class attendance a priority are rewarded with increased knowledge, better comprehension and higher grades. If you are absent, you will miss interesting class discussion, informative speakers and exciting lectures. Students are required to not only attend, but actively involve themselves in class discussions as well. We learn from each other and your input in the academic process may be significant for your classmates. Quizzes missed due to absence may not be made up. The lowest quiz grade will be dropped.

2. Read all assignments and take thorough notes in and out of class! Students who fall behind will be greatly challenged to catch up. Form or join a study group to review assignments and maintain accountability. Take advantage of test review sessions if they are available. Exams will include material not discussed in class, so your reading is a significant factor in your success.

3. Be an active participant in a positive learning environment! In other words, be on time, prepared and not part of distracting others from learning. Talking to one’s neighbor during class lectures or general discussions, cell phone usage, chronic lateness, leaving class before it has been dismissed is disruptive and interferes with the academic rights of others to learn. Laptops are allowed only if they are used to take notes. Inappropriate use of your laptop is
NOT allowed in my class. Appropriate behavior and respect for your instructor and fellow students is not only expected, but required. Students who are unable to respect the rights of others to learn will be asked to leave.

4. Exams and assignments are due on time. University policy on plagiarism will be enforced. This policy makes it fair for all students. However, if a student misses an exam, a makeup exam may be scheduled at the convenience and discretion of the instructor. Students, in such dire circumstances, should inform the instructor in advance of a missed exam. If the student doesn’t request a make-up exam prior to the test date, the grade will be recorded as a zero. Papers/assignments that are turned in after the due date will be penalized 10 pts./day.

Academic Integrity/Plagiarism.

University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in failure for that assignment or test and potential failure for this course.

Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. **Withdrawing from Class**

It is this instructor’s desire that no student stop attending this class. If you feel you must drop the course for whatever reason, speak with the instructor first, then if no other recourse is available, take the appropriate steps to drop the course. Do not assume that the instructor will drop you from the course if you simply stop attending class. If you fail to follow proper procedure, you will appear on class rolls at the conclusion of the semester and will receive a failing grade.

It is my hope that this semester will better prepare you to be an active citizen in this community, in this state, and in this nation. The future will be impacted by knowledgeable, concerned constituents who realize their potential in our government. Let me know how I can assist you in this process.

**See you in class!**
