Course grades will be based on a total of 450 points.
(A) There will be 4 examinations worth 100 points each. Tests will be given on the date announced unless you are instructed to the contrary. There will be no make-up examinations. At the discretion of the instructor, make-up tests may be allowed for a personal emergency involving a student. If you are a student that is an athlete, inform me immediately and provide a schedule of anticipated absences.
(B) Attendance and Class Participation. Class attendance is expected and if you miss a class you are responsible for all material covered during your absence, including changes in schedule, reading assignments, or quizzes. If you miss a class, you should gather information from your peers in the course rather than from the instructor. Grades for attendance will be awarded on a percentage basis that will be measured by taking roll or completing short assignments in class. A total of 50 possible points will be awarded for attendance measured at random intervals and participation that may involve brief assignments.
DETERMINATION OF GRADES
The final course grade will be based on your performance on the four exams, assignments, and your attendance/participation for a total of 450 points. The following point system can be used to calculate your final grade in the course: 90% or 405+ pts=A; 80% or 360-404 pts=B; 70% or 315-359 pts=C; 60% or 270-314 pts=D; 269 pts or below = non-passing grade.

The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures.
