EDUC 3311.WO1 is an Online Course:
EDUC 3311 uses Blackboard 9.1 (Bb9) as its only teaching and learning environment. All EDUC 3311 students must have access to Bb9 to be successful in this course. Bb9 is available through the TAMU-CC homepage and requires students to have their normal NET ID to log in.

Since EDUC 3311.WO1 is a fully online course, the instructor and TAMU-CC assume that students who enroll in the course have, or will quickly obtain, the technical expertise, hardware, and software required to be successful in this course.

There is a student tutorial available on the Island Online website (http://iol.tamucc.edu). If you have any problems logging in, the Blackboard helpdesk phone number is 361-825-2825.

Checking for dates and times of Bb9 updates will save you some frustration and anxiety throughout the semester. The Bb9 homepage (the page where you log in to Bb9) provides a wealth of information about what is happening in Bb9.

You are required to check your Blackboard account every day for announcements, Blackboard mail messages, assignment due dates, and/or assignment directions.

This course utilizes PDF files. In order to access these files, please make sure that you have downloaded Adobe Reader to your computer. Adobe Reader is free.

Begin this course by reading the syllabus very carefully. You can access the assignments, discussions, and assessments in this course by using the Course Content Tab, Assignment Tab, Discussion Forum Tab, Assessment Tab, or other tabs on the tool bar on the left side of the course homepage.

Technical Difficulties:
See “5 Steps to Preparing Your Computer for Using Blackboard” on the course homepage to make sure your computer is ready to go with Blackboard. If, after checking your computer for compatibility with Blackboard, you still have a technical difficulty, contact TAMU-CC Information Technology or Distance Education for assistance. Links to IT and Bb9 can be found on the course homepage.

Neither TAMU-CC nor the course instructor assumes or accepts responsibility for any student’s inability to use the technology requires for successful completion of this course.

Statement of Academic Continuity
In the event of an unforeseen adverse event, and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University
facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

Virtual Office Hours:
The instructor’s virtual office hours are through Blackboard messages, Islander email (rodney.mcconnell@tamucc.edu), WebEx (by appointment) and/or telephone (361-244-7486). If you have difficulty accessing any of the Course Content, please let me know as quickly as possible.

Contacting the Instructor:
Use Islander email to contact the instructor. You can access Islander Email through Blackboard when you are in the course, through Webmail, or through Outlook.

It is much easier and less frustrating for me if you contact me through the Islander email in Bb9. Here’s why: if you contact me through the Islander email on the course homepage, the message includes information in the subject line that helps me identify you and the class about which you have a question or concern. Should you have a question or concern about the class, I can respond much faster if I know who you are and the class in question.

If you contact me by email (rodney.mcconnell@tamucc.edu), make certain that you:
1. clearly identify yourself by name; and,
2. clearly identify the course number.

If you contact me by phone (361-244-7486), make certain that you:
1. clearly identify yourself by name;
2. clearly identify the course number; and,
3. provide a phone number if you expect a return phone call.

Normally, I do not respond to email before 8:00 AM or after 5:00 PM Monday through Thursday. I normally respond within 24 hours, and if I am going to be out of the online classroom for more than 48 hours (excluding weekends), I will post an announcement letting students know when I will return to the classroom.

If you contact me through regular Islander email (meaning that you did not use the Islander email on the course homepage), make sure that you include the course number and section in the subject line, and you must clearly identify yourself in the email. If I cannot identify you, I will not respond.

   (Seventeen (17) initial responses at twenty (20) points each)

   This activity requires you to read the reading assignments and post an initial response to the reading on the discussion board.

   **Initial Responses to the Reading must add value and substance** to the online conversation about the readings. If you expect to receive any credit for your response to the reading, you must explain to the class why you responded to the reading as you did. It is your explanation of your response to the reading that adds value and substance to the discussion. We all want to know what drives your thinking about the reading.

   In each Initial Response to the Reading, do one or more of the following:

   - **Agree with the author and explain why you agree.** Share your thinking and the source of your thinking. Does it come from your life experiences, your experiences as a student, your personal philosophy, the influence of culture, family, or friends?    - **Provide a different perspective of the ideas in the reading.** If you have a view of the issues addressed by the reading that does not seem to match the author’s view of the issues, circumstances, and/or consequences, share that different view with the rest of us. Explain how you came to have that view. What experiences have you had that brought you to this view of the issue?

   - **Provide a different example for the application of the ideas in the reading.**

   - **Apply the ideas in the reading to a different set of circumstances.**
Tell a story about how the topic relates to your life.

Explain how you will apply the ideas in the reading to your future classroom or students.

Explain how the ideas in the reading might have unintended consequences in the future.

Remember that the written reflections you share with us are not summaries of the readings, but are your personal responses to the reading.

The thinking you share with the class about the readings does not have to have a clear beginning, middle, and end, but it must demonstrate that you have reflected on what you have read.

Your Initial Responses will receive full credit if they demonstrate serious thinking. Responses that do not demonstrate serious thinking will receive no credit.

You may work ahead, but you cannot work backward in this course. No late work will be accepted without a university excused absence.

10. **Response to Peers** (340 points total)

(Thirty-four (34) responses at ten (10) points each)

You are required to post a written response to at least two (2) of your peer’s “Initial Responses to Assigned Readings” for each discussion.

This activity requires you to read your classmate’s Initial Responses to the assigned reading and post responses to at least two (2) of your classmates for each assigned reading.

Responses to Peers must add value and substance to the online conversation about the readings. If you expect to receive any credit for your response to a peer, you must explain to your peer (and the rest of the class) why you responded as you did. It is your explanation of your response to your peer that adds value and substance to the discussion. We all want to know what drives your thinking about your peers’ responses.

In each Response to a Peer, do one or more of the following:

- Agree with your peer and explain why you agree. Share your thinking and the source of your thinking. Does it come from your life experiences, your experiences as a student, your personal philosophy, the influence of culture, family, or friends? What has happened in your life that influences you to agree with your colleague’s initial response to the reading?

- Disagree with your peer and explain why you disagree. Share your thinking and the source of your thinking. Does it come from your life experiences, your experiences as a student, your personal philosophy, the influence of culture, family, or friends? What has happened in your life that influences you to agree with your colleague’s initial response to the reading?

- Put your spin on your peer’s response to the reading and explain to the rest of us why your spin is the right way to consider your colleague’s response to the reading.
• Provide a different perspective on your classmate’s response to the reading. If you have a view of the reading that does not match your peer’s response to the same reading, share that different view with the rest of us, and explain how you to came to have your view. What experiences have you had that brought you to this perspective?

• Apply your classmate’s ideas to a different set of circumstances.

• Tell a story that relates your peer’s experiences to your life.

• Explain how you will apply your colleague’s ideas to your future classroom or students.

• Explain how your classmate’s ideas might have unintended consequences in the future.

Remember that the written reflections you share with us are not summaries of your colleague’s initial response, but are your personal responses to your classmate’s postings to the class discussions.

The thinking you share with the class about your peers’ initial responses does not have to have a clear beginning, middle, and end, but it must demonstrate that you have reflected on what your classmates posted to the class discussion.

Your Response to a Peer will receive full credit if it demonstrate serious thinking. Responses that do not demonstrate serious thinking will receive no credit.

You may work ahead, but you cannot work backward in this course. No late work will be accepted without a university excused absence.

Special Note Regarding Your Grades for Initial Responses to the Reading and Responses to Peers:
Since students are required to post an initial response, which is valued at 20 points, and two (2) responses to peers, which are valued at 10 points each (total 20 points), I will combine the response points for each assigned reading into one grade in the Blackboard grade book.

For Example:
If student A posts an initial response to the Chapter 4 reading assignment, and posts two (2) responses to two (2) different peers, student A will receive a maximum of forty (40, [20+10+10]) points under the Chapter 4 tab in the Blackboard grade book.

If student B posts an initial response to the Chapter 4 reading assignment, and posts only one (1) response to one (1) peer, student B will receive a maximum of thirty (30, [20+10+0]) points under the Chapter 4 tab in the Blackboard grade book.

If student C posts an initial response to the Chapter 4 reading assignment, and does not post a response to any peer, student C will receive a maximum of twenty (20, [20+0+0]) points under the Chapter 4 tab in the Blackboard grade book.

You may work ahead, but you cannot work backward in this course. No late work will be accepted without a university excused absence.
Groups will be assigned after the Add/Drop date. The purpose of this project is to help EDUC 3311 students put into perspective some of the economic factors that influence national decisions about public education.

The amount of work for this project is considerable and groups ought to plan their time accordingly. Groups can use any and all of the collaboration tools available in Blackboard to communicate, including the course wiki, blog, journal, and/or discussion board.

All group members must contribute to the group effort. Failure to contribute to the group effort will result in a zero for the group member who did not contribute. Group leaders will report the degree to which the group is collaborative to the instructor on a regular basis.

Group leaders will be selected by the group and will be responsible for submitting the final document to the assignment drop box. Group leaders will receive 40 extra-credit points for taking a leadership role.

The final written project must be:
1. Submitted in the Group Research Project Template;
2. Posted to the Group Research Project Assignment drop box by the due date in the Course Schedule Overview.

The group’s task is to:

Choose a country from the following list: 1) United States; 2) Germany; 3) Switzerland; 4) Canada; 5) Japan; 6) Mexico; 7) China; 8) Taiwan; 9) Russia; 10) France; 11) Spain; or, 12) A country of the group’s choosing and approved by the instructor.

3. Research and report the current teacher/student ratios for public schools in the country under investigation.
4. Research and report the current aggregate average compensation provided teachers in public schools in the country under investigation.
5. Research and report a breakdown of the compensation into salary and any fringe benefits (i.e. health insurance, child care, taxes, etc.).
6. Determine the cost of public education to each tax payer in the country under investigation. To do this, you will have to discover the system by which the nation under investigation collects and redistributes money to pay for public education. Use the correct name for the unit of money (i.e. yen, pound, dollar, etc.) and provide a conversion into US dollars (i.e. 2.3/1; .8/1; .1.2/1).
7. Research and report the international standing of the country under investigation regarding student achievement in math, science, and reading (i.e. 12/ 100, 3/50, etc.). Provide the source of this information.
8. Provide a detailed narrative in which your group draws conclusions and implications about the relationships between national budgets, teacher/student ratios, teacher compensation,
student achievement, and international standing. Be specific and detailed. Use the data from your research to support your conclusions. Use the accepted conventions of written English.

**Groups may work ahead, but cannot work backward in this course. No late work will be accepted.**

The Mid-Term exam is entirely online. Once you open the exam online, you will have only once chance to complete it, so do not open it unless you are ready to complete it.

I will not reopen the exam if there is a technology problem on the student end of the connection. If there is a problem with technology on the TAMU-CC end of the connection, I will reopen the exam if necessary and appropriate. I will not reopen the exam if there is a technology problem on the student end of the connection. If there is a problem with technology on the TAMU-CC end of the connection, I will reopen the exam if necessary and appropriate. I will not reopen the exam if a student opened the exam unless TAMU-CC’s technology has somehow failed while the student was taking the exam. Each case of reopening the exam will be determined on an individual basis.

**Class Policies**

- **Written Work in EDUC 3311**
  All written work in EDUC 3311 must be in 10 point font, double spaced, with absolute minimum surface errors (spelling, punctuation, grammar, etc.) and must follow accepted styles and rules of standard written English. If you want/need help with your writing, please contact the TAMCC writing center.
It is suggested that you create all of your “discussion” documents as a separate document in Word and use the “copy and paste” feature in Word to post your initial responses to the readings and your responses to peers’.

- **Submission of Late Work**
  No late work will be accepted in this class without an approved University Excuse.

- **Class Participation**
  The degree to which you participate in all of the learning activities in EDUC 3311 is a direct indicator of your commitment to the teaching profession and as such is noted by the instructor. The Texas A&M University – Corpus Christi Student Handbook and Code of Conduct 2010-2011 includes the following policy regarding class attendance:

  > Students are held accountable for class attendance and are advised that excessive absences may adversely affect their grades. Every instructor should clearly explain the policy on class attendance at the beginning of each course. If students are absent from class on approved university business (e.g., intercollegiate athletics competition/travel, field trips, student research conferences, Board of Regents meetings), faculty members should count [the absence] as an excused absence and should not penalize the student for it. Students [absent from a scheduled class meeting because of approved university business] should be allowed to make up any required course work in advance or after return to campus. Students are responsible for informing instructors about the [approved university absence] in advance, so instructors can plan accordingly. If [students] have any doubt as to whether the activity in question is considered official university business, [students] should contact the Provost’s Office [for clarification].

- **Academic Honesty**
  University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to a penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.)

- **Classroom Conduct**
  Students and faculty each have responsibility for maintaining an appropriate learning environment. Faculty has the professional responsibility to treat students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which students express opinions. Disruptive students in the academic setting hinder the educational process. Disruption, as applied to the academic setting, means behavior that a reasonable faculty member would view as interfering with normal academic functions. Examples include, but are not limited to, persistently speaking without being recognized or interrupting other speakers, behavior which distracts the class from the subject matter or discussion, or in extreme cases, physical threats, harassing behavior or personal insults, or refusal to comply with faculty direction. Students are expected to refrain from disruptive behavior at all times. Students who fail to adhere to behavioral standards may be subject to disciplinary action.

- **Disabilities**
  “The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for
reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Disability Services Office at (361) 825-5816 or visit the office in Driftwood 101.”  http://disabilityservices.tamucc.edu

The Texas A & M University – Corpus Christi’s College of Education does not discriminate on the basis of disability in the recruitment and admission of students, the recruitment and employment of faculty and staff, and the operation of any of its programs and activities, as specified by federal laws and regulations. The student has the responsibility of informing the course instructor of any disabling condition that will require modifications to avoid discrimination.

If you are a returning veteran and experience cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

• Grade Appeals
  As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures.
