COURSE SYLLABUS
Capstone
PADM 5365-001
Spring 2014
Wednesday 7:00 – 9:30 pm
Room: BH 128

Dr. Daniel J. Jorgensen
Office: BH 348
Office Phone: 825-3269
E-mail: dan.jorgensen@tamucc.edu
Office Hours: Tuesday, Wednesday & Thursday 1:00 p.m. – 3:00 p.m. and Wednesday 6:00 – 7:00 p.m., by appointment as necessary.

COURSE GOAL
In this course students will integrate the skills, knowledge and values discussed and acquired throughout the core courses in the MPA program; reflect on the meaning of this knowledge to one’s individual values, experience, knowledge and career goals; and demonstrate the integration of one’s learning in the MPA curriculum with professional practices encountered in public and nonprofit organizations.

COURSE DESCRIPTION
The Capstone Course offers each student the opportunity to demonstrate mastery of the theory and practice of public administration by applying the skills and knowledge gained in the MPA program. This course is designed to allow students to apply the concepts in public administration literature to actual management and/or policy problems. Students accomplish this by reading and reflecting on theoretical readings in public administration, and completing a Capstone Project. The Capstone Project can be a research study, a case study, an organizational assessment, a policy analysis or service-learning project that demonstrates a student’s knowledge and skills. All projects must be about public service, which is defined broadly to include efforts of governments, community-based organizations, and non-profit organizations.

To enroll in this course, students must have successfully completed at least 30 hours of coursework in the MPA program including all core courses and be in his/her last long semester prior to planned graduation.

STUDENT LEARNING OUTCOMES
Students will assess their readiness, strengths and weaknesses in assuming a public management position through self-assessment and create a plan for career long professional development.

Students will demonstrate their ability to apply their conceptual knowledge and utilize their working and analytical knowledge of policy making, data analysis, public budgeting and finance, human resource, public organizations to solve case studies.
Students will demonstrate their ability to formulate a researchable issue, gather appropriate and adequate data, analyze criteria and suggest policy or administrative recommendations to an actual public administration issue in either a group or individual effort.

Demonstrate the ability present reports, orally and in writing, that are clear, concise and address various constituencies.

REQUIRED TEXTS

STUDENT PERFORMANCE EVALUATION

Grade Proportion

1. Case Study Portfolio 40%
2. Capstone Project 40%
3. Self-Assessments 5%
4. Professional Development Essay 15%
3. Final Oral Presentation 10%

COURSE CALENDAR -- Specific Learning Modules, Content, Class Reading, Topic Summaries, Assignment Due Dates are list in the Blackboard Course Calendar. It is your responsibility to monitor your Blackboard account regularly to keep up with the course calendar.

January 22: Course Introduction and 1st Class meeting, read Chapters 1 – 3: Toolkit. Discuss project options.
February 19: Project Workshop
February 26: Case 1 Due
March 5: Project Workshop
March 15: SPRING BREAK
March 19: Case 2 Due
March 26: Project Workshop
April 2: Case 3 Due.
April 9: Read Chapters 9-12: Toolkit. Discuss as they apply to project and presentation of data.
April 16: Case 4 Due
April 23: PowerPoints and Final Draft of Project Due
April 30: Self-Assessment Essay Due
May 7: Capstone Presentations
May 14: Papers/Projects must be completed and turned in

STUDENT PERFORMANCE REQUIREMENTS

1. **Case Study Portfolio** As part of the Capstone Course, students will create a case study portfolio that serves to demonstrate and highlight student learning during the MPA program. The portfolio will be a collection of case studies that demonstrate the skills and competencies to demonstrate you are a well-prepared professional public administrator with the ability to provide leadership for the next generation of public servants in South Texas.

2. **Service Learning Project or Research Paper.** To complete the requirements of the Capstone course for the MPA degree, students must write a major research paper of relevance to the public or nonprofit sectors or participate in a significant service-learning project. Students can choose to complete this project individually or in a group. The content of the project will be assigned by the course instructor. Students will receive a grade of Incomplete if any part of the research paper is graded as unacceptable by the MPA Faculty.

The final project paper due date is noted in Blackboard and must be formatted as a Word document using Times New Roman 12 point font, double-spaced using APA formatting. Only one paper need to be turned in per project. Papers should not exceed 50 pages or be less than 20 pages long (without bibliography and appendices). The paper must include a bibliography and be a final product of the student’s work. Late papers will not be accepted.

1. Demonstrate their conceptual knowledge of Public Administration by defining the specific issues in each case.

2. Demonstrate their working knowledge of Public Administration by utilizing skills acquired in the program to solve each case.

This will be done through preparation and discussion of these cases either in an on-line forum or in the classroom setting. Student will keep all of their work, calculations and problem solving notes in a either an electronic file or physical binder and turn into the instructor at the end of the course.

3. **Self-Assessments.** As part of the Capstone Course, students will create a portfolio that serves to self-assess competencies necessary for project management. The assessments will be discussed during designated class meetings. Findings from these assessments along with findings from the case studies should be included in the essay below.
4. **Essay.** The final day of the course students will turn in a professional development essay of three to five pages which discusses what the student learned during the MPA program, areas in which the series of self-assessments in this course suggest there are strengths and weakness and present a plan for continuing to development of competencies in their career. Specific due dates and case assignments will be posted on the Blackboard calendar.

5. **Final Oral Presentation.** Students will present their findings of their service learning or research project to the MPA faculty, students and public at the end of the semester. The presentation will be a professional summary of the objectives and finding of the project at hand.

A rubric for each of the above areas will be posted with the BlackBoard system.

**ACADEMIC HONESTY:**

All responses and worked turned in to the instructor are to be your own personal work product. You are expected to understand and uphold the Academic Honor Code published in the Student Handbook. In addition to information listed in these sources, you are advised that:

1. If, **on a rare occasion**, you take material that is not yours, from any source whatsoever, and copy it into assignments for this class, you must provide a footnote, endnote, or parenthetical reference to the source of the material. I specifically expect you to use the styleguide of the American Psychological Association.

2. Any material which quotes verbatim from other sources must be enclosed in quotation marks and its source attributed as noted in rule #1 above.

3. Material not taken verbatim from a text but paraphrased must also be attributed as in rule #1.

4. Violations of these rules in any assignment may be subject to a minimum penalty of a grade of zero (0) for the assignment and may result in a grade of "F" for the course.

5. Violations of these rules can also result in administrative removal from the MPA program and the University depending on the instance.

**STUDENTS WITH DISABILITIES:**

The Americans with Disabilities Act (ADA) requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Disability Services Office at (361) 825-5816 or visit the office in 116 Corpus Christi Hall.

**ACADEMIC ADVISING OFFICE**
If you are majoring, or planning to major, in a field taught in the College of Liberal Arts, and if you have not yet obtained a signed degree plan, you should see your Academic Advisor immediately. Degree plans are important and useful to successful progress toward graduation.

GRADE APPEAL PROCESS

Students who feel that they have not been held to appropriate academic standards as outlined in this class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details on the process of submitting a formal grade appeal, please visit the College of Liberal Arts website, cla.tamucc.edu/students/studentinfo.html

For assistance and/or guidance in the grade appeal process, students may contact the Associate Dean, Dr. Mark Hartlaub.

OTHER NOTES

1. Syllabus Disclaimer and Changes. The instructor reserves the right to make changes in the syllabus. Such changes will be announced in class.

2. Attendance Policy. No points are deducted for student absences but, the lack of class attendance will affect student learning and, hence, performance.

3. Late Hand-in. Acceptance of late hand-ins or postings is at the discretion of the instructor. Points will be deducted for late hand-ins.

4. Distance Learning. This class is a hybrid course; electronic, on-line learning is substituted for in-class lectures on approximately a 50% basis. Students are responsible for on-line access and activity on a regular basis and participating in on-line activities and assignments.

5. Computer and Software Access. The hands-on, computer-based laboratory assignments are an important part of homework and this course. You will need to have access to SPSS, at least the graduate base version. I suggest that you install it on your own computer. If you do not have easy access to a computer there are student computer labs on campus which have the full version of SPSS.

6. Rules and Tips for Success. Statistics is a challenging course for most students, and most students will experience one or more episodes of moderate to severe confusion. Though these are normal occurrences in the completion of a graduate course, the sources of confusion must be identified and addressed. To reduce such episodic discomfort and promote learning efficiency, students are required to adhere to the following rules: (i) Students must come to each class prepared, that is, having fully familiarized themselves with the reading material and any assignments, specifically, identifying passages that are unclear and hence require extra attention during the classroom period. Students who fail to identify unclear passages prior to class typically experience a deceptive sense of ease during the class, only to be followed by intensified confusion at some point in subsequent weeks. Remember: Preparing for class means that you
know what you don’t know. (ii) Students should always study with other students before and after each class. You can make a study group, or simply call each other a day or two before and after each class. The nature of such interaction can vary from joint reading, to verifying each other’s understanding of the material, and addressing points of uncertainty. (iii) Students who are unclear about material should generally first consult other students before contacting the instructor. Questions that remain unclear after consultation with other students should be brought to the attention of the instructor, who generally will discuss the matter at the beginning of the next classroom period. The preferred way of contacting the instructor is through e-mail. (iv) As the saying goes, technology fails you when you need it most. Files become unreadable or simply disappear. Software programs fail to open, and computers go on the blink. Successful students plan ahead and allow for unexpected failures and crises to occur. Specifically, you should plan to complete your homework several days before the deadline!

7. Contacting the Instructor. The preferred way of contacting the instructor is through e-mail or during office hours. I check my e-mail almost daily (except when on travel), and will respond. If you send an e-mail, I may ask you for a phone number to contact you for follow-up, if necessary.

8. Student Conduct. Students should conduct themselves in ways that are consistent with promoting an efficient learning environment for themselves and everyone else. Students should be conscientious, helpful, properly motivated to learn, honest, and respectful of others and their opinions at all times. Such conduct is consistent with generally regarded norms of professionalism, including those found in graduate, professional degree programs. Points may be deducted for inappropriate conduct, and students referred to the University for further investigation of the matter.

Students should also familiarize themselves with the university Code of Student Conduct. Academic misconduct includes, but is not limited to, cheating, plagiarism, collusion, falsifying academic records, and any act designed to give an unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructors, providing false or misleading information in an effort to receive a postponement or an extension on a test, quiz, or other assignment), or the attempt to commit such an act. Other acts of misconduct are stated in the Code of Student Conduct. Please note that plagiarism is a serious academic offense that may result in a student being expelled from an academic program or institution.
