I. **Course Description:** This course is a study of the financial operations of public schools of Texas. The superintendent is held accountable for the management of a significant amount of resources provided by the public. This course seeks to prepare the prospective superintendent with the knowledge and skills necessary to understand and apply the myriad finance functions of a school district.

II. **Rationale:** This course is designed to prepare a successful school superintendent to provide leadership and management for the fiscal issues of today’s modern educational organization. Theories, principles, and practice will be presented, particularly as they relate to the business administration functions of a modern school district and the campuses comprising the district.

III. **State Adopted Proficiency Domains:**
- Leadership of the Educational Community
- Instructional Leadership
- Administrative Leadership

IV. **TExES Competencies covered in this course:**

1. **Competency 001** – The superintendent knows how to act with integrity, fairness, and in an ethical manner in order to promote the success of all students.
2. **Competency 002** – The superintendent knows how to shape district culture by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the education community.
3. **Competency 004** – The superintendent knows how to respond to and influence the larger political, social, economic, legal and cultural context, including working with the board of trustees, to achieve the district’s educational vision.
4. **Competency 008** – The superintendent knows how to apply principles of effective leadership and management in relation to district budgeting, personnel, resource utilization, financial management, and technology use.
