TEXAS A&M UNIVERSITY – CORPUS CHRISTI
COLLEGE OF NURSING AND HEALTH SCIENCES

NURS 4318 – Nurse As Research Consumer
SYLLABUS – FALL 2014

Instructor: Theresa J. Garcia, PhD, RN - Assistant Professor
Office: Island Hall, 336G
Telephone: (361) 825-3957
E-mail: Theresa.garcia@tamucc.edu
Office Hours: By appointment – please use Bb mail to schedule in-person or telephone appointments. Please feel free to e-mail me through Bb at any time.

IT Help Desk: (361) 825-2692; computer.helpline@tamucc.edu

Prerequisites: Completion of MATH 1342, MATH 1442, or MATH 2342 and NURS 3614 - Fundamentals of Nursing Care

Credit Hours: 3

Course Description: A study of theory and research as a base for nursing practice. Critically analyzes published research studies with regard to implications for clinical practice. The course is planned for collaborative peer examination of the research process through critique of nursing studies.

For the purposes of this course, nursing research is defined as scientific inquiry applied to the phenomena of concern to the profession of nursing. It encompasses the validation of knowledge, the generation of new knowledge and refining existing knowledge. The International Council of Nursing further defines “nursing research is a systematic inquiry that seeks to add new nursing knowledge to benefit patients, families and communities. It encompasses all aspects of health that are of interest to nursing, including promotion of health, prevention of illness, care of people of all ages during illness and recovery or towards a peaceful and dignified death” (ICN 2009).

Online presentation: This course is delivered exclusively through online technology and may be accessed at http://Bb9.tamucc.edu Students will need to provide PowerPoint, word processing, and other software as needed to complete some requirements of this course. Students may need to download collaborative tools such as the WebEx application.
Required Textbook:

Required Reference:

Course Objectives: Upon completion of the course, the student will be able to:

1) Understand the need to base nursing practice on theory and creditable research finds.
   a) Describe the scientific basis of a practice discipline.
   b) Explain the relationship between nursing theory development and nursing research.
   c) Identify clinical nursing problems that need scientific investigation.
   d) State usual barriers to the use of theory and research findings to improve clinical practice.
   e) Analyze the ethical, legal, political and economic dimensions of research studies and various ways of knowing.

2) Analyze the steps of the research process.
   a) In selected research reports, identify the steps of the research process.
   b) Identify the decision points and options considered by the investigator as the research process is implemented.
   c) Distinguish among different research designs and identify the purposes, strengths and weaknesses of each.
   d) Utilize electronic communication to search databases and disseminate findings.
   e) Analyze basic characteristics of data collection methods.
   f) Evaluate data quality in quantitative and qualitative reports.

3) Judge the value of selected nursing research studies by use of criteria.
   a) Describe selected research studies.
   b) Systematically critique the research process in each study.
   c) Utilize critical thinking to summarize the strengths and weaknesses of selected study.
   d) Relate each study to its theoretical base and to clinical practice.
   e) Following a systematic critique, state and defend a decision regarding utilization of the findings in clinical practice.
   f) Communicate research findings clearly, concisely and in a cogent manner via written and verbal communication.

4) Integrate selected adult principles and processes into the learning experience.
   a) Accept responsibility for prior class preparation and active participation in each class meeting.
b) Evaluate own progress toward achievement of long-term goals within the nursing profession.

c) Participate in the creation of a positive learning environment.

d) Incorporate selected elements of own practice throughout the learning experience.

Learning Experiences:
Students can meet course objectives through successful completion of all assignments and quizzes, thoughtful study of the textbook and other resources provided by the instructor, and earnest participation in discussions with peers throughout the course. While the instructor will provide guidance and consultation, the student is responsible for identification of individual learning needs, self-direction and motivation, seeking help when needed, and successful completion of the course requirements.

Course Communication Outside of Class:
The Blackboard (Bb) Mail tool is required for e-mail communication within the course. When contacting your instructor or co-learners in this course via e-mail, always use the Bb Mail tool rather than another e-mail account. This tool is accessed in the Bb Mail section of the Course Menu within the Bb course platform. Messages sent within Bb are archived within the course, thus eliminating lost correspondence.

Course Time Expectations:
All assignments are due by midnight on the specified due date in the course schedule unless prior arrangements are made with the instructor. Please note and remember that a 3 credit hour course requires a weekly time commitment of a 3-hour presence associated with 9 hours of preparation time. That expectation remains the same in an on-line course. The time spent in the course is set by each student’s personal learning schedule. Students should review Bb mail and announcements within the course at least every 48 hours.

Course Requirements:
1. Students are expected to have access to a computer that can support Bb applications and all related course materials. A backup plan should be in place if normal computer access becomes unavailable, i.e. arrange use of a computer elsewhere.
2. Any problems with technology, computer, internet, Bb or other applications should be dealt with through the IT (information technology) helpline at (361) 825-2692 or computer.helpline@tamucc.edu
3. Any problems understanding the assignments or due dates should be brought to the attention of the instructor, preferably within the first week of class.
4. Students are expected to complete the course orientation and Academic Honesty Statement prior to beginning work on course content.
5. All e-mail communication with the instructor should occur through Bb, unless otherwise noted. Students should review Bb mail and announcements at least every 48 hours.
6. All assignments are due by midnight on the scheduled date unless other arrangements have been made with the instructor before the due date. Late work will be penalized...
with a 10% grade deduction/day for up to 3 days. However exceptions will be considered for extreme emergencies where pre-planning was not possible.

7. Respectful and timely participation in discussion forums is required. Since students are assumed to be prepared for the discussions, everyone’s contributions will be considered knowledgeable contributions. Disrespect in any form will NOT be tolerated.

8. All information disclosed through course chats or discussions is confidential and should not be shared with others outside the context of this course.

9. Students should notify the faculty if they withdraw from the course and should not attempt to access course materials once they have withdrawn.

10. Students are expected to complete a course evaluation at the end of the course.

11. Instructor is expected to respond to e-mail messages within 48 hours.

12. Instructor is expected to grade assignments within 2 weeks of submission.

Guidelines for Form and Style of Written Assignments and Presentations:
Students are expected to follow instructions associated with the assignments for this course. Instructions for all graded activities are posted in Bb within the Unit to which they correspond. Students who are confused about an assignment should contact the instructor in a timely manner to ensure satisfactory completion of the assignment by the due date. Unless otherwise instructed, students must adhere to the *APA Publication Manual, 6th or 7th Edition* guidelines for formatting and organizing written assignments and presentations.

The campus Center for Academic Student Achievement (CASA) provides writing support both in person and in an online format. The contact at the Center is Noel Ballmer at 361-825-2254 and the web link is [http://casa.tamucc.edu/wc.php](http://casa.tamucc.edu/wc.php). Another writing resource is [http://www.grammarly.com/edu](http://www.grammarly.com/edu). The College of Nursing & Health Sciences has purchased a license for students to use this website. Attached to an Item in the Resources section of your Blackboard course menu is a PDF instruction guide providing access information. Please do not hesitate to contact the instructor to discuss your writing needs.

**Academic Integrity:**
The highest standards of academic honesty and conduct are expected from all students. Academic misconduct for which a student is subject to a penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) Please review the Code of Conduct at [http://judicialaffairs.tamucc.edu/assets/Article%20III%202013](http://judicialaffairs.tamucc.edu/assets/Article%20III%202013). There is a zero tolerance policy for academic dishonesty in this class. If you violate the rules of academic integrity you will receive a grade of F in the course and you may be dismissed from the nursing program.

Some of the materials provided within this course are copyright protected by the publisher of the textbook and should not be used outside of the confines of the course.

*Plagiarism* is a specific form of cheating. Plagiarism means to steal and pass off the work [words or ideas] of another as one’s own work. It usually results from bad paraphrasing.
or improper referencing. The substitution of a few changes from those of the original author and forgetting to use quotation marks, and reference citation are technically considered plagiarism. The only safe way to paraphrase is to read the original over several times and then write your understanding of what you read without looking at the original. Keep the source book closed! (Wilson, H. (1985). Research in Nursing. Menlo Park, Ca., Addison Wesley)

PASS/FAIL REQUIRED ASSIGNMENTS:

Blackboard Skill Demonstration:
Often, students struggle to comply with course requirements because they cannot navigate the Bb courseware. The purpose of this exercise is to familiarize students with Bb and its various tools. **Everyone is required to complete this assignment.** It is located in the Assignments Section of the Course Menu. If you are already familiar with Bb, use this as an opportunity to review and if you are new to the environment, explore the various tools and sections of the environment to ensure your familiarity.
Student Introduction:
The students enrolled in this course will become potential collaborators in professional ventures. The student introduction provides students an opportunity to share their backgrounds, professional interests, and contact information to generate a peer network. This assignment is required but no grade will be earned for the activity. The introduction must be completed the first week of class. The directions for the introduction are in the Bb Skill Demonstration in the Assignments section of the Course Menu.

Academic Honesty Statement:
Within Unit 1 you will find the Academic Honesty Assignment. You are required to read the four sections of the document and complete the fifth section submitting a personal statement through the assignment area in Bb, certifying your compliance with the Academic Honesty policy.

GRADED ASSIGNMENTS and QUIZZES

Quizzes:
It is important that students comprehend the content in the assigned book chapters, articles, PowerPoints, and activities in each unit in order to be able to understand and correctly complete the assigned projects. To evaluate comprehension, three 25-question quizzes, in multiple choice formats will be given. They will cover selected material presented in the required reading, PowerPoints, discussions and activities.
*Each quiz is open book, open notes and can be accessed through the Bb Unit with which it is associated. You will be given 1 hour to complete each quiz and each will be worth 5 points. The total will count toward 15% of the final grade.

Research Ethics Modules (CITI Training):
Students are required to successfully complete online modules concerning the ethical and responsible conduct of research on human subjects provided by CITI training, specifically: SOCIAL & BEHAVIORAL RESEARCH – BASIC/REFRESHER, BASIC COURSE consisting of 16 sub-modules. Specific instructions for accessing and completing these modules are provided within Unit 1 in Bb. A completion report will be generated by this website when all 16 sub-modules have been successfully completed. Each student should save this report (in pdf format) and submit it under this Assignment (within Unit 1 in Bb).
*This assignment is time-consuming (at least 4 hours for most students). It is recommended that students split these modules up and complete them in shorter intervals. This assignment is worth 10 points and counts toward 10% of the final grade.

Group Discussion/Journal Participation:
Group discussion participation is integral to learning the concepts within this course. Students will be assigned to groups by the instructor. Discussions will address specific questions posed by the instructor concerning the following:

- Research problem and question: Students will discuss different research problems of interest to them and decide as a group which problem they will focus their final
presentation on; then they will formulate a problem statement and research question and the group leader will post these as a final post in the discussion once all have agreed. *Active participation in this discussion will be worth 5 points or 5% of the final grade;*

- **Two group research critiques**: Each student will be responsible for printing and critiquing a **quantitative** research article and a **qualitative** research article chosen by the instructor. Students will use the discussion board to collaborate on how the critique forms (supplied by the instructor) should be filled out; the group leader will post the critique form with the group’s final answers as an attachment to the final discussion post. *Each critique is worth 5 points for a total of 10 points or 10% of the final grade.*

- **Two film discussions**: Discussion posts on Bb will address specific questions posed by the instructor concerning films assigned in the Ethics Unit and the Quantitative Research Unit. Follow the directions in the Discussion Board on Bb. Each student is also required to respond to at least 2 classmate’s posts. Each discussion can be accessed from the specific Unit in which the film is presented. *Each film discussion will be worth 5 points for a total of 10 points or 10% of the final grade.*

**Final Group Presentation:**
The purpose of this final assignment is to provide students an opportunity to systematically locate, identify, analyze, and determine the usefulness of a research article to answer or inform a specific nursing practice question. This assignment helps students to identify the design, method, results and implications of a given study; to evaluate its worth to nursing practice; and to present their findings to their peers in a dynamic and engaging fashion.

*The requirements and rubric for this assignment can be found within Unit 4 in Bb. *This final assignment is worth 30 points and will count toward 30% of the final grade.*

**Final Exam (HESI):**
The final exam will be a HESI formatted, proctored exam consisting of 55 multiple choice questions covering the major concepts in this course. A general blueprint for the concepts covered in the exam will be provided. Students will be required to take the exam in person at TAMU-CC on the scheduled date or to make arrangements for the exam to be taken at a testing center. *(Notify instructor during the first week of class if you are unable to take the exam at TAMU-CC.)* *The exam will count toward 20% of the final grade.*

**Other Important Information:**

**Academic Advising:**
The College of Nursing and Health Sciences requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. The College’s Academic Advising Center is located in Island Hall on the 3rd floor and advisors are Rachel Verhayden 825-3748 and Angelica Santillan 825-2461.
**Students with Disabilities:**
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Disability Services Office at 361.825.5816 or visit the office in Driftwood 101.

**Grade Appeal Process:**
As stated in the College of Nursing and Health Sciences (CONHS) Handbook under section VII Policies and Procedures, a student that believes they have an academic grade appeal is encouraged to go through the CONHS academic review process prior to pursuing University Grade Appeal. See the handbook for the process.

As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at [http://academicaffairs.tamucc.edu/Rules_Procedures/index.html](http://academicaffairs.tamucc.edu/Rules_Procedures/index.html). For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs.

**Syllabus Disclaimer:** While the provisions of this syllabus are as accurate and complete as possible, the faculty reserves the right to change non-critical aspects of the course to accommodate emergencies, unexpected technical problems, or any unforeseen circumstances. Such changes will be announced as soon as feasible and will be communicated by course email or announcements via Blackboard. It is the STUDENT'S responsibility to keep abreast of course announcements. Questions regarding course requirements should be addressed when the syllabus is received, within the first week of the course. (TG 08/2014)
