Course Description:

This course is a rigorous and comprehensive study of theoretical and applied ethics with an emphasis on the application of ethical theory to clarify, explain, and resolve real-world ethical dilemmas. Although theoretical and applied ethics are also studied in the Core's Capstone Professional Ethics course, Honors Professional Ethics differs substantially in the breadth and depth of study in theoretical ethics, the addition of topics in meta-ethics, the addition of contemporary readings, the emphasis on the development of a broad range of philosophical skills, and unique opportunities for students to explore topics in applied ethics.

Ethics Bowl Presentations

Policies:

The professor assumes that students enrolled in this course are sincere student-scholars. That is, the professor shall treat them with the respect due scholars, and, as scholars, they shall do their best to live up to the standards of scholars. To wit,

Preparation:

Scholars carefully read assignments in advance of class, take notes on their reading, explore specific issues in discussion with fellow scholars, and follow-up class by re-reading portions of the required readings and exploring suggested readings.
Participation:

Scholars are eager to respectfully, openly, and critically discuss arguments and issues raised by the readings. Scholars are adept at following a line of reasoning wherever it may lead. Most importantly, scholars welcome the insights and criticisms of their peers: A scholar understands that it is possible to entertain a proposition without believing it, just as it is possible to present an argument without personally endorsing the argument. Scholars enjoy vigorous deliberations and are always careful to treat fellow scholars with patience and good humor.

Assignments:

Scholars fully immerse themselves in assignments and never assume that an assignment is only legitimate if it will be covered on a test. Scholars are naturally curious and see every assignment as an opportunity to explore new issues, see old issues in new light, and hone their growing skills.

Cheating:

Scholars are very careful to give proper credit and maintain the highest standards of scholarly conduct. Thus, subject to university guidelines, any instance of cheating (including plagiarism) will be vigorously prosecuted.

Attendance:

Scholars always attend class barring serious injury, illness, or disaster. Scholars view class-time as rare and valuable for the thought it evokes and the opportunities it presents. Scholars arrive early for class and never leave class early without obtaining prior approval from the professor.

Grading Formula:

There are 1000 points possible as follows:

- Three Case Studies: 200 points each
- Two Ethics Bowl Presentations: 100 points each
- Final Examination: 200 points

Total Points = Case Studies Total + Ethics Bowl Presentations Total + Final Examination

Course Grade is determined by the following scale:

- A: 900-1000
- B: 800-899
- C: 700-799
- D: 600-699
- F: 000-599

Additional Notes:
Any change in the above will be announced in class. No change will be made which would be detrimental to the student's grade.
