SOCI 1301.W01
Human Societies
Texas A&M University – Corpus Christi
Summer 2015

Instructor: Dr. Michael Ramirez
Associate Professor of Sociology
Office: 344 Bay Hall
Phone: 361-825-2388
E-mail: Michael.Ramirez@tamucc.edu
Office Hours: Mondays 12:00 – 2:00

Course Description:
Sociology is the study of social behavior and human groups. It is much more than simply a discipline—it is a way of engaging with and examining your world. This course is designed to introduce you to sociological perspectives and its major theories, as well as the research methods employed by sociologists to understand how society works. We will discuss the core concepts and theories that sociologists use, but will also review classic and contemporary studies on particular aspects of social life. We will focus primarily on the influence of social relationships on people’s attitudes, behaviors, identities, and life outcomes. Topics we will discuss include culture, socialization, the media, race, gender, social class, education, deviance, family, work, health, and social change.

This fully online course is taught via the Web at a distance and is available at http://Bb9.tamucc.edu The learners will have to provide PowerPoint, spreadsheets, word processing, and other software as needed to complete some requirements of this course.

There are no prerequisites for this course and the course may be taken as an elective.

Learning Outcomes:
This course has five distinct yet compatible goals:

- To define and understand basic concepts in sociology
- To differentiate among competing theoretical perspectives in sociology.
- To explore complementary social research methods and understand their strengths and limitations.
- To appreciate the contributions of sociology to our understanding of social phenomena.
- To recognize the reciprocal relations between individuals and society.

Instructional Methods and Activities:
The following instructional methods and activities will be used: online lecture notes/videos, discussion board, data analysis assignments, and exams.
**Course Requirements**

**Text:**

**Exams:**
We will have five exams throughout this course, each of which is worth 7% of your final grade (for a total of 35% of your final average). Each exam will be comprised of 50 multiple-choice questions. Exams will be taken via BlackBoard, and you will have a 90-minute time limit to complete it. Each exam will focus only on those materials read or studied since the last exam, although we will be building concepts and theoretical understandings that will be drawn upon throughout the course. It is only in this sense that they will be cumulative.

**Data Workshop Assignments:**
To encourage your thinking on the issues we will cover over the semester, I will give you short data analysis assignments and activities to complete for each unit covered. There will be one assignment for each of the five units of the course. Each assignment will be worth 8% of your final grade (for a total of 40% of your final average).

**Participation:**
Regular participation is crucial for this class. I will post a series of questions for you to respond to on the discussion board. You will be required to contribute to every topic covered in class (organized by chapter). Posts will be gauged on your thoughts, level of detail, synthesis of class material, and thoroughness of ideas presented. Participation will be worth 25% of your final grade. See the rubric for additional criteria.

**Grading:**
Your final grade will be calculated as follows:

<table>
<thead>
<tr>
<th>Element</th>
<th>Formula</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exam 1</td>
<td>___ X .07 = ______</td>
</tr>
<tr>
<td>Exam 2</td>
<td>___ X .07 = ______</td>
</tr>
<tr>
<td>Exam 3</td>
<td>___ X .07 = ______</td>
</tr>
<tr>
<td>Exam 4</td>
<td>___ X .07 = ______</td>
</tr>
<tr>
<td>Exam 5</td>
<td>___ X .07 = ______</td>

<td>___ X .08 = ______</td>
</tr>
<tr>
<td>Data Workshop 3</td>
<td>___ X .08 = ______</td>
</tr>
<tr>
<td>Data Workshop 4</td>
<td>___ X .08 = ______</td>
</tr>
<tr>
<td>Data Workshop 5</td>
<td>___ X .08 = ______</td>
</tr>
<tr>
<td>Participation</td>
<td>___ X .25 = ______</td>
</tr>
<tr>
<td>Final Grade</td>
<td>sum of these totals</td>
</tr>
</tbody>
</table>
Final Letter Grades:
A = 90.00% to 100.00%
B = 80.00% to 89.99%
C = 70.00% to 79.99%
D = 60.00% to 69.99%
F = below 60.00%

Course Schedule:
*All assignments (with the exception of exams) must be completed by **10:00 pm** on the day on which they are due.

Course Policies

Grading Criteria:
Evaluation criteria for all assignments will be available in the form of grading rubrics. Rubrics will be posted along with the assignment descriptions to ensure your awareness of grading criteria prior to completing and submitting assignments.

Turning in Assignments:
To turn in assignments electronically, name any file with your name and the assignment. Example: When Stacy Smith turns in her second paper, she would call it SmithStacyPaper2. Include your name and the project on the subject line when you submit your work. In addition, include your name in the heading of any documents that you turn in.

Time Requirements:
Regular 3-credit undergraduate courses require approximately 3 hours of class time per week plus 9 hours of study time. Therefore, expect to spend a minimum of 12 hours each week on this class. Because this is an online course, you may have to spend even more time than 12 hours some weeks.

Late Work:
Assignments are due on the dates indicated in the syllabus and schedule. Late work will be accepted (for all assignments except for exams), but will be penalized. I will deduct 10 points for every 24 hours your assignment is late.

Missed Exams:
Under only extreme circumstances will you have the opportunity to make-up missed exams, and only after I have received proper documentation. Such instances include family emergencies, auto wrecks, or major health emergencies.

**Academic Integrity/Plagiarism:**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a zero on the assignment and further disciplinary action at the University level.

**Dropping a Class:**
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Friday, June 19th is the last day to drop a class with an automatic grade of “W” this term.

**Classroom/professional behavior:**
Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

**Statement of Civility:**
Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

**Grade Appeals:**
Students who feel that they have not been held to appropriate academic standards as outlined in this class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details on the process of submitting a formal
grade appeal, please visit the College of Liberal Arts website, http://cla.tamucc.edu/students/studentinfo.html. For assistance and/or guidance in the grade appeal process, students may contact the Associate Dean’s Office.

**Disabilities Accommodations:**
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

**Statement of Academic Continuity:**
In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

**Academic Dishonesty:**
It is your responsibility to familiarize yourself with the University’s codes on academic dishonesty. In general, any form of academic dishonesty (including but not limited to cheating and plagiarism) will not be tolerated. Such instances will be reported to the Department Chair, as well as to Student Affairs. Sanctions can include: receiving a zero on the assignment/exam, receiving an F for the final course grade, and/or recommendation for dismissal from the University. For more information, refer to: http://studentaffairs.tamucc.edu/JAffairs/index.htm.

**Academic Advising:**
The College of Liberal Arts requires that students meet with an Academic Advisor as soon as they are ready to declare a major. Degree plans are prepared in the CLA Academic Advising Center. The University uses an online Degree Audit system. Any amendment must be approved by the Department Chair and the Office of the Dean. All courses and requirements specified in the final degree plan audit must be completed before a degree will be granted. The CLA Academic Advising Office is located in Driftwood #203. For more information please call 361-825-3466.

**Copyright / Plagiarism:**
The handouts used in this course are copyrighted. By “handouts,” I mean all materials generated for this class, which include but are not limited to self-assessments, exams, lab problems, Course
Content materials, review sheets, and additional problem sets. Because these materials are copyrighted, you do not have the right to copy them, unless I expressly grant permission.

As commonly defined, plagiarism consists of passing off as one’s own the ideas, words, writings, etc., that belong to another. In accordance with this definition, you are committing plagiarism if you copy the work of another person and turn it in as your own, even if you have the permission of that person. Plagiarism is one of the worst academic sins, for the plagiarist destroys the trust among colleagues without which ideas and research cannot be safely communicated. If you have any questions regarding plagiarism, please consult the university rules at the above website.

**Academic Integrity with Course Products and Evaluations:**
The guiding principle of academic integrity is that a student’s submitted work must be his/her own. Since the course objectives focus on the processes of developing course related materials, as well as the materials themselves, it is expected that all course products will consist of work done specifically for this course. Products completed for previous or concurrent course credit cannot be used for assignments for this course. If you wish to continue a theme or content area used in another course, inform the instructor and supply any requested existing materials at the start of this course. Any intended projects relating to other courses should be approved at the start by all instructors and should reflect unique elements and sufficient development effort for all courses involved.

Shared work is intended to allow students to learn from each other in projects. Any problems in working together should be brought to the attention of the instructor immediately so that solutions may be enacted to ensure that all members benefit from the experience.

**Related Issues:**
Online courses require time management and planning on your part. You cannot afford to get behind since many topics and assignments are based on the skills and products of previous assignments; there is no meaningful way to “cram.” Contact me if you are having any problems with assignments.

There is a reliance on technologies in this course that impacts the need to have assignments done on time. Having ample time to complete an assignment will be the responsibility of the student. It is also the student’s responsibility to find solutions to technical problems with sufficient time to complete the required tasks. Do not wait until a due date is near to discover/report lack of access to software, inability to connect to a network, etc. While the instructor will help wherever possible, it is the students’ responsibility to maintain his or her network. However, technical problems can originate on the TAMU-CC campus, in which case you will not be responsible to complete work that you can not complete due to TAMU-CC network or software problems. You are responsible for contacting me as soon as you detect a problem so that we can arrange a way for you to meet the course objectives.

**Syllabus Disclaimer:**
This syllabus has been created as a guide to the class and is as accurate as possible. However, all information is subject to change. Any changes will be posted on the Blackboard Learning System’s Announcements.
Technical Support and Requirements

Blackboard Learning System Help:
http://iol.tamucc.edu
“Help” At the bottom of the Blackboard Course Management Control Panel in the course menu on the left hand column of the course interface. Phone: Help Desk (361) 825-2825

Island Online Student Resources Webpage:
https://distance-education.tamucc.edu/student_resources.html

Getting Technical Help
If you are having difficulties accessing course materials from your home computer, first let your instructor know, then contact the IOL Helpdesk at (361) 825-2692 or submit a request via email to iol.support@tamucc.edu

Technology Requirements
To prepare your computer for using Blackboard 9.1, go to https://iol.tamucc.edu/techreq.php for computer requirements.
- To view .pdf files you will need the Adobe Reader. Download it at: http://get.adobe.com/reader/
- To view flash (.flv) files from sites such as You Tube, download the Flash player at http://get.adobe.com/flashplayer/

Navigating Blackboard 9.1
Once you are in the course, read the “Announcements” on the home page. Check this each time you enter your course. You will see a Course Menu on the left of the page. The menu is a list of links that connect to materials and tools associated with the course. Blackboard has several features and tools for communicating content delivery that you should use almost daily. Links to information about how to use these tools include: Bb Help, which contains a complete guide to learning how to use the many tools and features in Blackboard, and Bb Video Tutorials, which links to a page with videos to show you how to do tasks such as submitting an assignment.

Library resources (including print, electronic, and human) can be accessed through the Mary and Jeff Bell Library website that supports electronic searches of articles, books, journals, course reserves, and databases. It includes information such as Ask a Librarian, research tools, remote access information and tutorials, information about plagiarism and copyright, and interlibrary loan (http://rattler.tamucc.edu/distlearn/). The library is a member of TexShare which provides you with a card that allows you to checkout materials from libraries across Texas. Librarians’ contact information is also on the website and you are encouraged to contact librarians for assistance.

In the event of a campus evacuation I will make every effort to continue teaching your course. Should such an event occur, I will continue to interact with you by using the Blackboard Announcement, Messages, Collaboration, Discussions, Blogs, Journals, and/or Wikis tools. If you have access to the Internet, you will be able to continue your coursework by posting
assignments and interacting with me as well as each other online. You will also be able see your grades on assignments, quizzes, and tests using the **My Grades** tool.

**Online Course Guidelines:**
Students will practice respect and responsibility as a part of this learning community. Here are some things you can do to exhibit an attitude of respect and responsibility:

- Post assignments on time. Early is even better.
- Work extra hard to get to know other classmates.
- Reach out through email Blackboard Messages, Discussions, and Wikis to support each other. If you have good info/tips on what is working for you/resource ideas, please share with the group so we can help each other out.
- Respect other classmates by watching what you say.
- Add your opinions to/participate in the discussions.
- Check the assignments every week. Don’t wait until the last minute.
- Be helpful to other students
- Don’t get behind. If you get behind in an online course it is harder to get back on track than it is in a traditional course.
- Stay focused and stay connected.
- Keep up with your assignments and your grades. It is not the teacher’s responsibility to tell you what you have or haven’t turned in. Your grades will be available in Blackboard so all you have to do is regularly check to make sure you have grades posted for all work.
- In general terms, students are expected to “demonstrate a high level of maturity, self-direction and ability to manage their own affairs” and to “conduct themselves in accordance with the highest standards of academic honesty.” Instances of plagiarism will be handled in accordance with Texas A&M University-Corpus Christi General Academic Policies and Regulations as listed in the current catalog.

**Delivery of instructor feedback:**
During the week (excluding weekends) – Instructor response to online requests usually occurs within a 24-hour period, but you can expect a response within 3 days.

**Student login expectations:**
Students are required to login often – once every other day at a minimum. It is recommended that students check daily for announcements and updates.

**Faculty availability to support students:**
I maintain a consistent web presence and am available to meet online in the Blackboard asynchronous or synchronous environment or via phone.
