Spring 2016
Class Hours and Times
ARTS-2346.001 Ceramics I

Semester Information:

- Name of Instructor: Emily Howard
- Office phone number: 361 825-5987 (Louis' Office)
- E-mail address: ehoward3@islander.tamucc.edu
- Office number and building: CA112B
- This syllabus is subject to change.
- Classroom: CA 112B

Ceramics Classes

- Ceramics 1 Arts 2346 MW 12:30-03:20PM Final Exam: Mon. May 9, 11:00-1:30

Howard office hours: TR 2:00-3:00 PM

Studio Schedule

- January 20, Wednesday Classes begin
- January 27, Wednesday Last day to register or add a class
- March 11, Friday Last Day of classes for 1st 7-Week Session and Final Exams
- March 14-18, Monday-Friday Spring Break
- March 21, Monday First Day of Classes 2nd 7-week session
- March 23, Wednesday Grades Due for 1st 7-Week Session
- April 8, Friday Last day to drop a class
- April 24 Last day to set work outside for bisquing
- May 2, Monday Last day to withdraw from the University, High Noon, Last day to set out work for glaze kilns
- May 3, Tuesday Last day of classes Final Exams 2nd 7-Week Session Last day to apply for Spring 2016 graduation
- May 4, Wednesday Reading Day May 5-6, Thursday-Friday; Final examinations
- May 9, 11am –1:30 Ceramics 1 Final
- May 10, 1:45-4:15 Advanced Final (This is the time for 2pm classes it gives us 4 more days of wetwork and will not conflict with any other classes)
- 11 May 1:00 PM Final Studio Cleanup

Events

- Feb 6 2016 Bountiful Bowls Rockport
Stable Information and Teacher Information:

- Students will be expected to have a notebook every day in class with a
  implement. The notebook will hold all class handouts and the students notes.
  Students arriving without a notebook may be recorded as absent. We will not
  wait as students go to get notebooks or pencils that are outside the classroom.
  Taking careful notes during demonstrations and using them will greatly improve
  a student's success.

- completion of all projects assigned. See grading sheet.

- participation in preparation of clay and glazes for class use; students will be assigned
  or allowed to choose a mixing partner and will mix clay or glazes as necessary several
  times each semester. Do not waste work, avoid putting usable clay in scrap barrels.

- participation in loading and unloading of class kilns

- having a pair of rubber gloves available for gloves and safety glasses for glazing.

- Tests: students that fail a test on the safety materials (if it is given) must demonstrate
  knowledge of all the items on the safety agreement before returning to class.

- all project work and outside work to be graded must be available for review at the end
  of the semester. Due to space limitations fired finished work may not be stored in the
  ceramics studios. If work will not fit in lockers, students must make other
  arrangements for safe storage- i.e., take work home, etc. Again, all work must be
  available for review at semester's end. If work must be sent somewhere else discuss
  what to do with your instructor first.

- Studio Safety and Hygiene: we will read, sign, and hand in the student agreement,
  attached. All students are required to clean up their work areas before leaving the
  studio and do other studio cleaning as necessary.

- all work, tools and other belongings, must be removed from the studio the last day of
  finals week by noon. (in the summer session by the end of the day of finals). The
  studio will be cleaned and remaining personal belongings and clay-work may be
  thrown out.

- BREAKAGE, LOSS, FIRING ACCIDENTS Ceramics is fragile, firing is difficult and
  full of unknowns, especially in a group situation. It is inevitable that some pieces will
  be lost, broken, or misfired. While losses are regrettable they will happen. The faculty
  and TAMU-CC cannot be held liable for such accidents. Students should handle work
  carefully and as little as possible. All work must be marked with a student's initials or
  stamp.

- LOCKERS: See the Art Office (CA105) to reserve a locker in the hallway. You will
  need one. The sooner you get one the closer it will be to the studio. If you wait there
  might not be one available.

- STUDIO HOURS:
• You may use the Ceramics Lab any time when the building is open except during class time for the other sections of Ceramics or during floor cleaning.
• The class will involve work in the studio outside of class time.
• The building is open many nights and weekends. Check on the front door, or with the building supervisor for details. It may be closed Thanksgiving weekend and Labor Day weekend and MLK day.
• CALENDAR: Ceramics is a time sensitive medium. Allowing projects to dry slow and even makes work less prone to cracking and easier to manipulate. Consequently work completed late in the semester will have a greater chance of cracking in the drying process. It is often possible to finish a piece in a small fraction of the time it would take to do it in one week if you spread the work out.

Approximately two weeks before final exams will be the end of the time when wet clay can be used. (this date is different in the summer). This date is not fixed until a month before the end of the semester. If most of the work in the studio is already bisqued (the first firing of the two needed) a few more days of wet work can be added. If little has been bisqued a few more days for firing will be needed and there will be less time for wet work. Even with this two week lead, objects made the last few days for wet work will need to be small if they are to survive the fast drying necessary. Roughly one week before finals will be the last time pots can be glazed. This will occur during dead day. The exact date for the last day for wet work is determined by the amount of work in the studio still needing to fired at the end of the semester.

Occasionally there is too much work to fire in the last week. If the work was glazed before the last day to glaze and it was on the racks to be fired before the last day for them to be placed there it will be graded as if it was glaze fired. Work still needing firing may be brought back into ceramics at the beginning of the next long semester for firing. It may not be left in the studio between semesters. Work left in the studio between semesters will be thrown away.

Required statements:

ACADEMIC ADVISING
The College of Liberal Arts requires that students meet with an Academic Advisor as soon as they are ready to declare a major. Degree plans are prepared in the CLA Academic Advising Center. The University uses an online Degree Audit system. Any amendment must be approved by the Department Chair and the Office of the Dean. All courses and requirements specified in the final degree plan audit must be completed before a degree will be granted. The CLA Academic Advising Office is located in Driftwood #203. For more information please call 361-825-3466.

DISABILITY SERVICES
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe
you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall, Room #116. If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

GRADE APPEALS PROCESS
Students who feel that they have not been held to appropriate academic standards as outlined in this class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details on the process of submitting a formal grade appeal, please visit the College of Liberal Arts website, http://registrar.tamucc.edu/grades/change_grade.html. For assistance and/or guidance in the grade appeal process, students may contact the Associate Dean’s Office.

Attendance
Attendance is mandatory for your success, will be recorded during each class session and is considered as part of the professionalism element of your final grade.

- You will lose a single letter grade on your fourth (4) absence.
- Five (5) absences will result in the drop of another letter grade.
- Six (6) absences will result in the failure of the course.
- Three (3) late arrivals or early departures will result in the recording of one (1) full absence.
- Students are required to attend class for the duration of the scheduled time or until the Professor dismisses the class.
- Attending critiques are mandatory.

Course description: This course is an introduction to fine arts ceramics. Handbuilding processes: pinching, slab construction, coil building, etc., will predominate. There will be approximately six major projects, some of which may require the student to make more than one object. An introductory wheel thrown project will be assigned. Various clays and slips will be used. Most work will be fired in high-fire reduction or high fire soda kilns. bonfire, pit, and Raku firing processes may also be included. Each student will mix clay at least once and probably twice during the semester. Students will learn to unload and load bisque and glaze kilns, & maintain kiln shelves. Students will learn how to apply even coats of glaze in appropriate thicknesses. Significant out class time will be required. Students are required to be familiar with material on the safety agreement and may be tested on it at any time. A test on the syllabus and the handout "The Material" may be given during third class period.

- Student Learning Outcomes:
1. Student will use a variety of clay, slips, glazes and experience simple firing techniques.
2. Student will become competent in basic handbuilding and glazing techniques.
3. Student will begin to learn about using the potter's wheel.
4. Student will successfully work with form, proportion and surface in three-dimensional ceramic objects.
5. Student will become aware of the scope historical and contemporary ceramic art.
6. Student will begin to learn about loading and firing kilns.
7. Student will gain the sensitivity to be able to gauge the appropriate wetness of the material for a particular process.
8. Student will begin to gain a broader understanding of the scope of the medium and an introduction into philosophical issues surrounding the field.

Graded activity:

Beginning students will make a bisque stamp to identify their work. All assignments should have your initials incised into the clay or have your stamp. The relief on the stamp should be high and have clean sides so it pulls away easily.

- Pinched Vessels and sculpture
- Slab container Plates and slip
- Coil Assignment
- Slab Assignment
- Thrown Cylinders
- Handled Cups
- Inspired by project (Coil or Slab built)
- If time permits, an assignment where students get to choose to do one the previous clay assignment over and expand on the assignment.
- Typical Assignment Descriptions
- Pinched Project, 5 Vessels, 5 Forms. Vessels and forms for use to test and see how class glazes look.
- Slab Plates and slip, 10 plates, 5 to be graded. Plates with slips, incised lines, or scrafito.
- Coil Assignment, create a pot or sculpture that between 10-15 inches in height. Student should look to create a vertically oriented pot or sculpture.
- Slab Assembly. Use slump or hump molded slabs to create volumetric objects that can be attached together to form a closed volume. Turn that volume into a stylized container with at least a slightly unexpected form. The basic form can be vase-like, teapot-like, box-like, suitcase-like, building-like, watertower-like)
- Thrown Cylinders, 10 prints of cylinders that are taller than they are wide, and keep the best cylinder
- Handled Cups, 10 handled cups, 5 to be graded.
- If time permits, an assignment where students get to choose to do one the previous clay assignment over and expand on the assignment.

GRADE BEFORE ATTENDANCE ______________
GRADE AFTER ATTENDANCE ______________
Grade lowered one letter for missed final.

For a grade of A student must:

- Complete all studio practices.
- Finish all objects satisfactorily. At least three must be excellent.
- Demonstrate all skills satisfactorily. At least three skills must be excellent.

For a grade of B Student must:

- Complete all studio practices.
- Finish all objects satisfactorily
- Demonstrate each skill except integration satisfactorily.
- Excellence in any one part of a group offsets an unsatisfactory in that group

For a grade of C Student must:

- Complete 2 of three studio practices
- Finish all but two objects satisfactorily. Student must complete all but one of the objects.
- Demonstrate all but two skills satisfactorily. One of these must be the ability to construct and finish. Most work must be glazed.

- Projects that are finished by the end of the semester but do not meet wet finished or glaze deadlines will be marked unsatisfactory
- All student grades after computing by this method will be adjusted per the attendance policy.
- All work must be available for review during the final exam period.
- Policies
  - late work:
    - Any work not available for the final exam period will not be graded unless a missing work agreement is brought to the final exam.
    - Work not available for the assignment critiques may be marked as not on time.
- Plagiarism: Work made by other students will be marked as not turned in; skills associated with the work will be marked as unsatisfactory. Students caught turning in the work of other students may be subject to the rules and procedures set out in the student handbook.
Class Attendance
Students are held responsible for class attendance and are advised that excessive absences may adversely affect their grades. Every instructor should make clear the policy on class attendance at the beginning of each course.

If students are absent from class on approved University business (e.g., intercollegiate athletics competition/travel, field trips, student research conferences, Board of Regents meetings), faculty members should count this as an excused absence and should not penalize the student for it. Students should be allowed to make up any required course work in advance or after their return to campus. Students are responsible for informing their instructors about the trip in advance so that the faculty members can make plans accordingly. If any doubt exists as to whether the activity in question is considered official University business, contact the Provost’s Office.

Student Absences on Religious Holy Days
In accordance with Texas Education Code 51.911, Texas A&M University-Corpus Christi will excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student whose absence is excused for observance of a religious holy day may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

Texas Education Code, Section 51.911 defines a religious holy day as a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. If a student and an instructor disagree that the absence is for the observance of a religious holy day, or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the Provost. The student and instructor shall abide by the decision of the Provost.

If a student’s academic course work includes patient care, the University may exclude from these policies and procedures any student absence for religious holy days that may interfere with patient care.

It is the student’s responsibility to find out what materials were missed because of absence or tardiness. Just as in lecture classes the absent students will want to ask fellow students for notes. It is not the instructor’s responsibility to provide makeup demonstrations.

Students missing the final exam will be marked down a full letter grade. The instructor must still be shown the student work before he turns in grades or lack of information may result in an F. Conflicts with the exam time must be worked out the first week of school.

Incompletes will be given to those called to active US military duty in accordance with university policy. Other incompletes are at the instructor's discretion. They will not be given unless 3/4 of the work is finished before the reason for the incomplete takes place. The reason
must be out of the student’s control. Attendance must be good before the reason for the incomplete takes place.

Supplies Texts/readings:

- rubber gloves for glazing. Safety glasses for glazing.
- Safety Glasses for glazing.
- Kemper potter's tool kit
- a dull Xacto® knife, or a dull drywall knife, or a dull pairing knife, Best is a potters long bladed fettling knife. A long thin straight blade is best, sometimes these can be picked up cheap at discount stores such as the Dollar Store® or thrift stores.
- Serrated rib.
- thin plastic drop cloths (.3-.8 mm) for covering work. Paint and hardware, lumber stores sell these for about $1.00
- notebook. You should have your notebook in class at all times and use it to record processes, hints, etc. during demonstrations. All handouts should be stored in your notebook. They are almost all available online at http://www.tamucc.edu/~lkatz if you lose one.
- work clothes: You might want to keep a change of clothes that you can get very dirty in your locker, also closed top, and closed back shoes that you can work in. You cannot be in the studio with sandals, open or high heeled shoes. Loose skirts and aprons, hanging jewelry and other loose ware are not safe for mixing clay. See student agreement.
- hair control devices: long hair must be tied back when using potter's wheel, mixing clay, using the grinder, or firing kilns.
- one gallon or so plastic bucket with a wide top.
- Cap: to cover your hair when mixing clay or glaze, sweeping, or other dusty jobs (optional).

SUGGESTED TEXT

- Ceramics A Potter's Handbook by Glenn C. Nelson, Richard Burkett any edition. It is quick reading and may be able to be checked out of local libraries. My general advice to students is to read the hand building sections first, then about clay, history and save the glazing section to midterm. Students that read the book do better.

Other SUGGESTED TEXTS

- HANDS IN CLAY- Charlotte Speight, Has the most information about contemporary and historical ceramics, along with technical and technique oriented information. I have considered changing to this text. It is very good. I am not impressed by their safety information
• Ceramics Monthly Magazine Anyone serious about clay should be subscribed to this magazine. Others should look at it in the library. Other magazines in the library worth looking at are American Ceramics, Studio Potter, and Ceramics Technical.

Provisional Calendar

Day 1 Syllabus and Safety

Deadlines for assignment critiques are given with the assignment, but final grading on assignments is not done until the final exam

Daily demos, lectures or critiques as humidity and firing dictate

Provisionally all work has to be ready for bisquing 9 days before the final.

The last glaze kiln gets loaded 4 days before the final.

The last day of finals is the last day to remove work from the studio before it is subject to being thrown out.
