Texas A&M University-Corpus Christi  
College of Business  
Course Syllabus  
Fall 2014  
8/26-12/01

Course Number: ECON 2301  
Triad A: TR 9:30-10:45 a.m. / OCNR-145  
- Triad Group 21A: ECON-2301.130  
- Triad Group 22A: ECON-2301.131  
- Triad Group 23A: ECON-2301.132  
- Triad Group 24A: ECON-2301.133

Course Name: Macroeconomics Principles

Instructor: Jim Lee

Office: O’Connor Business Building (OCNR) 345

Phone: (361) 825-5831

Office Hours: TR 11:00-12:00; 2:00-4:00 p.m., or by appointment

Internet:  
Homepage URL: http://faculty.tamucc.edu/jlee/2301  
E-mail: jlee@.tamucc.edu

Three scantrons (form No. 882-E) and a pencil for taking exams.

Optional Materials: None

Prerequisites: None. However, students taking remedial courses in Basic English (ENGL 0399) and/or Mathematics (MATH 0398 & 0399) are not recommended to take this course concurrently.

Instructional Methodology: Lecture, class discussions and activities, online assignments and video presentations.

COURSE DESCRIPTION

An overview of how the economy of the United States is organized and functions in a market system. Market processes are used to show how resources and incomes are allocated by households and businesses. Determination of national income, employment, prices, interest rates, and growth are the focus of simple analytical techniques. Monetary and fiscal policies are examined, including their international dimensions. Satisfies the economics component of the University core curriculum.

TRIAD A – Real World Economics

This is the true story of one hundred strangers, gathered on an island, elected to study in a learning community, work together, and have their minds changed. We will learn about how economics helps us explore such issues as rich vs. poor, pollution and global warming, educational needs and even marriage. Macroeconomic topics include national income, employment, inflation, and government policies. Students will also do a service-learning project to benefit both the community and themselves.
Learning Objectives:
By the end of this course, the students will be able to:
1. understand the subject matter of economics and its relevance to the contemporary world,
2. apply core economic principles and reasoning to real-world economic issues,
3. discuss and analyze government policy measures and their impacts on economic welfare,
4. assess the performance of the U.S. and other economies, and
5. effectively review and prepare for the Major Field Test for business majors.

Major Field Test:
The Major Field Test (MFT) is required for all students pursuing the Bachelor of Business Administration degree and will be administered in the MGMT 4388, Administrative Policy and Strategy course. To prepare for this test, business majors are advised to retain their class notes, textbooks and other relevant materials from this class and the other business core courses and to fine-tune their readiness for the MFT by completing the online MFT review available through the COB website at cob.tamucc.edu.

Relationship to the University Core Curriculum Program:
As an integral part of TAMU-CC’s Core Curriculum Program within the framework of the various curriculum perspectives outlined in the Texas A&M University-Corpus Christi Undergraduate Catalog, through its extensive coverage of related topics and other course requirements, Economics 2301 seeks to enhance students’ intellectual skills in the areas of written and oral communications, mathematical competency and critical thinking.

How Economics 2301 addresses the curriculum perspectives of the Core Program:
The analysis of contrasting views of the impact of economic policies, such as fiscal, monetary and international trade policies and of regulations such as those related to prices, banking, labor practices, social assistance program and so on, will provide Economics 2301 students with an appreciation of how individuals relate to the larger society and to the entire world.

The understanding of the operation of our free enterprise system, the economic roles of the government, consumers, businesses and other economic participants and the study of the “ethics of the marketplace” within the context of supply and demand analysis will equip Economics 2301 students with an appreciation of the principles and ethics and human interaction in the production, distribution and consumption of goods and services in our society.

Another perspective of the Core Curriculum, which deals with the relationships among abstract quantities, is addressed in Economics 2301 through the study of economic theories, which as simplifications of reality are often presented in abstract form through the use of graphs (supply and demand graphs, for example) to explain economic events or to forecast them. Additionally, related to this perspective, students in this class will learn how expectations about the future affect economic variables. Specifically, students in this class will understand how, for example, investors’ and bankers’ expectations about future inflation or about the future direction of monetary policy will affect current and future levels of prices, wages, interest rates, currency values, etc.

How Economics 2301 enhances the six Core Curriculum skills:
Throughout the course, students in Economics 2301 will have ample opportunities to enhance their proficiency in the six intellectual skills specified in the TAMU-CC Undergraduate Catalog.

The last page of this syllabus contains the topical contents and reading assignments from the textbook. Moreover, the course project compels students to do significant reading from outside sources, including the Financial Times, Economist, Wall Street Journal, other periodicals and reports on economic
indicators published by government agencies such as the Department of Labor, the Department of Commerce, the Federal Reserve Board and others. These reports are widely accessible through the Internet. Exposure to economic and business terminology in these materials certainly provides students with an opportunity to further develop their reading and writing skills.

Although Economics 2301 is primarily a lecture oriented course, students do have opportunities to participate in class discussions, ask and answer questions in class and communicate with the instructor outside the classroom. Homework assignments offer another opportunity for students to exchange ideas verbally and to enhance their listening and speaking skills.

The study of economics is not possible without critical thinking and quantitative analysis. The fundamental economic concept of “opportunity cost” and its applications in decision-making process provide Economics 2301 students with a valuable critical thinking tool. The examination of alternative economic theories and policies encourages students to evaluate the merits and drawbacks of each of them and, in this process, to sharpen their critical thinking skills. Similarly, numerical problem-solving on topics such as converting nominal into real Gross Domestic Product, estimating the rate of inflation and the rate of economic growth, the lending capacity of a bank and many other quantitative topics covered in Economics 2301 constitute effective ways through which students can improve their mathematical competency and their critical thinking skills.

Relationship to Other Coursework:
An understanding of why and how the U.S. and other economies work is necessary for one to appreciate or participate in the current policy debates. Economic considerations are pervasive in public policy debates, analysis and decisions. Consequently, a basic knowledge of the macroeconomy and the use of economic reasoning are beneficial to every field of study, more especially business related studies.

PERFORMANCE EVALUATION AND GRADING

Student performance will be evaluated on the basis of 3 exams and assignments. The following is the distribution of coursework for determining the overall course average:

<table>
<thead>
<tr>
<th>Coursework</th>
<th>Points</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 Exams (equal weight)</td>
<td>600</td>
<td>60%</td>
</tr>
<tr>
<td>2 Written Assignments (equal weight)</td>
<td>200</td>
<td>20%</td>
</tr>
<tr>
<td>Junior Achievement Project</td>
<td>200</td>
<td>20%</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td>1,000</td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

The Official Course Grade is determined by a letter grade using the following scale: A: >90%; B: 80-89.99%; C: 70-79.99%; D: 60-69.99%; F: below 60%.

The student’s performance, not the instructor, determines the course grade. No additional work will be given after the final exam to supplement a course grade. Grades are given based solely on student performance, not needs or any personal reasons.
Exams:
No makeup will be given after a scheduled exam. Students with legitimate excuses (university functions or medical reasons) and documentation may arrange with the instructor for a makeup before a scheduled exam. The only exception is admittance to an Emergency Room, and a makeup exam can be taken only before the first class immediately after the scheduled exam.

It is the students’ own responsibility to ensure that all test scores are correct. Students cannot dispute any test score more than one month after the scantrons are returned or after the next test is taken, whichever comes first.

Written Assignments:
For details of the assignments, see instructions and guidelines at the end of this document. Those assignments are to be completed individually and are subject to the Student Code of Ethics below.

Junior Achievement Project:
See Introduction and Guidelines for the Junior Achievement project following this syllabus.

OTHER ASPECTS OF THE COURSE

Ethical Perspectives:
In this course, the approach to macroeconomic issues is positive (i.e., what is) rather than normative (i.e., what ought to be). As a result, there is minimal discussion of ethical issues.

Global Perspectives:
Global economic trends, the economic performance and trade policy impact macroeconomic analysis and policy decisions. As a result, the global and intergenerational perspectives are critical to macroeconomic study.

Demographic Diversity Perspectives:
Macroeconomic policy impacts various demographic groups differently, while these groups are also able to influence macroeconomic policy differently. Hence, the distributional effects of macroeconomic policy will be examined and discussed.

Political, Social, Legal, Regulatory, and Environmental Perspectives:
In discussing the role of the government in an economy, various political, social, legal, regulatory, and environment issues and questions arise. These questions and issues are examined in the macroeconomic context, and sometimes, from the microeconomic viewpoint.

Attendance Policy:
Students are held responsible for class attendance. Class attendance is a necessary but not sufficient condition for active class participation and satisfactory course performance. Students absent from classes are responsible for making arrangements to submit assignments due, material discussed, and announcements made in class. Assignments and exams missed due to absences cannot be made up except for illness or other emergencies, in which case a doctor’s note or other official documentation is required to accompany the assignment.

Classroom Etiquette:
Examples of classroom misconduct that may affect student evaluation include: habitually entering or leaving the classroom during class time without the consent of the instructor, using any telecommunication device, talking or chit-chatting with other students, and any other activities that are disruptive to the learning environment. Students caught engaging in such activities should expect class
or course dismissal along with a letter of reprimand placed in their academic files. According to the University policy, no cell phone is allowed in the classroom when a test/exam is taken.

**Academic Integrity/Plagiarism**

University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in course dismissal along with a letter of reprimand placed in their academic files.

**Dropping a Class**

I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. November 7th is the last day to drop a class with an automatic grade of “W” this term.

**Classroom/Professional Behavior**

Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

**Grade Appeals**

As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Dean’s office in the college in which the course is taught or the Office of the Provost.

**Disabilities Accommodations**

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall 116.
If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

Statement of Academic Continuity
In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

* Chapter numbers refer to chapters in the customized textbook bundle of “Principles of Economics.”
Description:

The JA project is a service-learning, community engagement activity that requires each student to teach a 5-unit curriculum in delivering basic economic or business concepts to local K-12 students. This project is motivated by the wisdom that the best way to learn a subject matter is to impart its material to the uninitiated. This learning by doing activity promotes a better understanding of some economics and business concepts, and it provides an opportunity to apply those concepts to the daily life for both the student “volunteers” and the grade school students. Student performance will be evaluated according to the students’ participation records, student presentation in class and the elementary school cooperating teacher's evaluation using the standard Junior Achievement evaluation form. See the JA Guidelines below.

This activity aims at developing students with leadership, teamwork, collaboration and interpersonal skills. The project also instills the Core Program “dispositions” of (1) remembering, (2) understanding, (2) applying, and (4) analyzing.

About Junior Achievement:

“JA Worldwide is a partnership between the business community, educators and volunteers — all working together to educate grade-school students about workforce readiness, entrepreneurship and financial literacy through experiential, hands-on programs.

Junior Achievement programs help prepare young people for the real world by showing them how to generate wealth and effectively manage it, how to create jobs which make their communities more robust, and how to apply entrepreneurial thinking to the workplace. Students put these lessons into action and learn the value of contributing to their communities.

JA’s unique approach allows volunteers from the community to deliver our curriculum while sharing their experiences with students. Embodying the heart of JA, our classroom volunteers transform the key concepts of our lessons into a message that inspires and empowers students to believe in themselves, showing them they can make a difference in the world.”

Source: http://www.ja.org/about/about.shtml

For more information about this program and lesson plans, visit http://www.jast.org/.

By the end of this project, the students will have an opportunity to:
1. appreciate the importance of economic and business concepts in everyday life;
2. interact and learn with a partner as a team;
3. apply the Core skills, particularly reading, writing, speaking and listening;
4. integrate the skills of communication into economic education;
5. appreciate the role of education in personal success and in community development;
6. serve as role models to the younger generation; and
7. be involved in the community by assuming the leadership role.
Project Requirements:

This JA Project requires each student to “teach” and then report to the class on a five-unit curriculum to an elementary school class. To accomplish this service learning activity, you must:

1. successfully complete the one-hour JA Orientation and training for volunteers on September 17 (Thursday) (a teaching curriculum packet materials will be handed out during the Orientation);
2. find one more JA volunteer as a partner in or out of this class and decide on the local school, grade level and teaching curriculum with consultation of the assigned JA Coordinator;
3. contact an elementary school teacher to set up a face-to-face appointment to discuss the curriculum (contact information will be provided during the Orientation);
4. meet with the teacher to discuss the curriculum, the teacher's role and expectations, set up time to observe the class, and schedule your teaching times/dates;
5. return the Teaching Confirmation Form to instructor by deadline indicated on the Form;
6. review the JA curriculum materials and deliver the Junior Achievement curriculum as assigned;
7. teach five 45-minute JA sessions at a local school
8. return your Verification Form to your professor within one week you complete all JA curriculum sessions; and

**NOTE:** You must wear appropriate attire. Please observe what teachers are wearing. You may wish to ask your cooperating teacher what is and is not appropriate attire.

ECON 2301
GENERAL GUIDELINES FOR WRITTEN ASSIGNMENTS

Objective
We let you ponder the economics of everyday life. The specific objective of each assignment is to relate one or more major economic concepts to your past experience or your future. The goal of this assignment is to evaluate your ability to: (1) be self-disciplined; (2) follow instructions; and (3) understand and interpret daily events and issues from the economic perspective. Keep in mind that this assignment focuses on how you apply (or relate) textbook concepts to real world events or issues, and not on how you critique a commenter/researcher/reporter’s opinions.

The format of the written assignment (checklist):

☐ Microsoft Word or save the file in Word format only. No other formats will be accepted as they don’t convert properly by Turnitin.
☐ between 500 and 700 words; write in your own words (no quotations in the main text)
☐ if you have references or data sources, insert the Internet address (URL) or hyperlink (if online) or source (if in print) of the article(s) between quotation marks (“xxx”) at the end of the assignment.

Common Point Deductions:
1. At least 10% deduction applies to each violation of the above format requirements.
2. Missing discussion of the specific topic assigned (30-80%)
3. Wrong topic – non-economics (90%); wrong topic but economics (30-50%)
4. Inappropriate materials cited – methodological or conceptual articles from academic journals and publications instead of news (50-90%); blogs or opinions (50-70%)
5. Quotations are not allowed (not necessary) and they will be included in the Matching Report: You are required to write a short essay in your OWN words.
6. Writing length too short (10-50%, 10% each 50 words below requirement) or too long (10%)
7. Late submissions receive deduction at 20% per day (the first second after the deadline at 11:59)
9. Two or more grammatical, typos or other writing errors, or illogical sentences (10-50%). You are recommended to seek tutorials before submitting your assignment.

Helpful Hints:
Writing in economics is commonly considered as TECHNICAL writing, meaning that you have to be accurate about the meaning of your writing in addition to grammar and contents.

Assignments only accepted through Turnitin (see next page).

First Article due: 10/12 Sunday, 11:59 PM   Topic: Microeconomic Topic announced in class
Third Article due: 12/7 Sunday, 11:59 PM    Topic: Macroeconomic Topic announced in class
Objective:
To ensure originality of student assignments. Students must follow the highest ethical standards, without committing plagiarism in coursework. Turnitin is an online plagiarism detecting system. Plagiarism is an “academic crime,” and one word is too many. The website also provides tools for improving your writing skills.

Procedure:
1. Login to turnitin.com. Register at least ONE WEEK before the first assignment due date.
2. For the first time, click “New Users” at the top right corner of the homepage.
3. On the menu, select “student” to create your own student account.
4. For the user profile, your class ID and password are:

<table>
<thead>
<tr>
<th>Triad A</th>
<th>Group: 21A</th>
<th>Class ID:</th>
<th>Password: freelunch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Triad A</td>
<td>Group: 22A</td>
<td>Class ID:</td>
<td>Password: freelunch</td>
</tr>
<tr>
<td>Triad A</td>
<td>Group: 23A</td>
<td>Class ID:</td>
<td>Password: freelunch</td>
</tr>
<tr>
<td>Triad A</td>
<td>Group: 24A</td>
<td>Class ID:</td>
<td>Password: freelunch</td>
</tr>
</tbody>
</table>

5. Enter your personal information, including your own email address and password.
6. The class ECON2301 should appear on the screen after you login. Click ECON2301 to enter your own class section. If you register in the wrong section, you must notify the instructor immediately, or you will receive no grades from your assignments.
7. The name of the first assignment is HW1, and the name of the second assignment is HW2, and so on. Click on the name to begin submission. You should upload a file that you have already made up with a word processor and save it in Word. Make sure you press the SUBMIT button after viewing your file in draft mode. This step confirms that you submit your own work.
8. Submit your assignment by the deadline. All student assignments must be submitted online through Turnitin. **NO EXCEPTION (no submission through email or in person will be considered).**
9. You can resubmit your assignment (which overwrites the existing one) before the deadline. Your assignment will not be graded until the deadline.
10. To review your graded assignment, click on the icon for GRADEMARK with comments and scores. The list of comments is also at the bottom of the screen.

1. **Submit a Paper**
   - Each submission generates an Originality Report. Click on “Report” to view the results. **Point deductions will be applied corresponding to the percentage of Plagiarism Matches between 10% and 34%.** A 35% or higher matching results in a zero score. A 65% or higher matching results in a failing grade for the course and a letter or reprimand placed in the student’s academic file at the TAMUCC. A 50% or higher matching for the second time results in a zero score for ALL assignments. The student is responsible for the matching results at the deadline. While it is normal to have a little matching (<5%), 1% is considered too much by the highest standard, meaning that we only consider the **total amount of matching instead of from different sources.**
   - You will be able to obtain a copy of the Originality Report for the assignment and make corrections before the deadline. You should allow a minimum of 4 hours for Turnitin to complete the Similarity Check. As grading will be based on the Originality Report after the deadline, your Similarity Points may be higher if your assignment matches another assignment submitted at the same time. In this case, you are subject to the HIGHER Similarity Points. Only one match is shown for multiple matches, so that you may get a matching with another student if both you and that student (whom you don’t know) have a matching with the news article.

2. **Evaluate Paper**
   - 100%
   - 50%
   - 5%

3. **View the Report**
