The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. XVI. Course Expectations

The Educational Administration Program encourages classroom discussion and academic debate as an essential intellectual activity. It is essential that students learn to express and defend their beliefs but it is also essential that they learn to listen and respond respectfully to others whose beliefs they may not share. The Program will always tolerate diverse, unorthodox, and unpopular points of view, but it will not tolerate condescending or insulting remarks. When students verbally abuse or ridicule
and intimidate others whose views they do not agree with, they subvert the free exchange of ideas that should characterize a university classroom. If their actions are deemed by the professor to be disruptive, they will be subject to appropriate disciplinary action, which may include being involuntarily withdrawn from the class.

1. Students are expected to engage as co-participants in this course working closely and consistently with professor and student colleagues.
2. Students are expected to show human concern for each of those with whom they work and study, while presenting a positive attitude and professional demeanor.
3. Students are expected to attend each class meeting and inform the instructor in advance if an emergency arises.
4. Just as students expect instructors to be prepared, students are expected to come to class prepared, having read assignments beforehand in order to contribute fully and thoughtfully to class discussions.
5. Students are expected to work with team members collaboratively and obtain their input when working on group exercises and projects.
6. Students are expected to engage respectfully in a dynamic classroom environment, creating and maintaining a safe place in which ideas can be explored, shared, and evaluated.
7. Students are expected to submit work that meets the academic honesty standards of Texas A&M Corpus Christi.
8. Students are expected to respect the rights and dignity of each member of the campus community.
9. Students are expected to contact the instructor with questions, concerns, or issues that need to be addressed.
