Office Hours

Office hours: M (1:55-3:25 PM and 6:50-8:20 PM) and by appointment. Try to use these hours for the betterment of both of us. My office door is always open whenever I am in office. You are welcome to walk-in. I will try to accommodate you as best as I can.

Text and Readings

Text, reading materials and videos mentioned in the syllabus. Videos supplement the concepts discussed in the class. You are required to watch the videos on your own. Use the online class-times for watching videos and/or working on other class materials. Test questions can also be asked from the videos. Articles for reading/discussion are in reserve in the Library. Alternatively, you can download them from our library databases.

Objective and Learning Goals

This is an advanced course in marketing designed for students who had previous formal academic training in marketing. The course aims at developing a managerial perspective in decision making. This is attained through case analysis/presentation and reading/discussion of articles in marketing and other functional areas of business. Cases provide real life exposure and readings impart theoretical foundation in the discipline. Specific learning objectives/goals to be accomplished are as follows.

- Understand the role of strategy in marketing management.
- Develop analytical skills to understand a marketing problem.
- Acquire basic skills to design appropriate marketing mix for a target market.
- Understand the implementation of a marketing program from a managerial perspective.
Course Policy and Method

Method of Instruction: This is a face to face (F2F) class. Discussion of cases and articles is the principal method of instruction. Guidelines for case analysis and article discussion are enclosed. Videos supplement the class discussion. Any change or update will be posted in Blackboard. We will follow Course Schedule enclosed. We may have to adjust face-to-face or online class meetings as the class progresses. Stay updated, check announcements and messages in Blackboard.

Office Hours: The designated office hours are mentioned in the course syllabus. Try to use those hours for the betterment of both of us. My office door is always open whenever I am in office. You are welcome to walk-in. I will try to accommodate you as best as I can.

Grading: You will be evaluated on the basis of three criteria: case analysis and presentation (65%), final examination (25%), and attendance and participation (10%). Actual grading will depend on the distribution of score of the class. A possible evaluation and distribution for grading would be as follows: A = 90%-100%, B = 80%-89%, C = 70%-79%, D = 60%-69% and F = below 60%. Grades will be posted in Blackboard.

Final: The final examination will be written short essay type. Questions will be asked from the articles discussed in class. Example of test questions is enclosed. No make up for the final will be given without valid reason. I will determine the validity in accordance with the university policy. Final Examination is 25% of the grade.

Attendance and Participation: You are expected to be present in class during the entire class period and sign attendance every day. You will miss the attendance credit if you leave the class after the break without notifying the instructor. You will be responsible for all class works whether you attend or not. In case of missed classes supporting documents (medical excuse etc.) must be provided to get credit. Do not sign attendance for others. This is forgery and will lead to penalty. Engage yourself in the class. Participate actively and meaningfully during case or article discussion. I will grade you based on the quality and the quantity of participation. Attendance and participation is 10% of the grade. I may give an extra credit of 1-5% to deserving students who attend class regularly, participate meaningfully in class discussion, and contribute positively to class quality. This is a business class, impression counts—avail the opportunity, make yourself visible in a positive way!

Messaging and Email Policy: If you have class related questions visit me in office, use the office hours. Face to face interaction is more useful in learning. In case you have to use electronic media, my preferred method of communication would be Blackboard messages. It is relatively easy keep track of messages in Blackboard. I will try to get in touch with you as soon as I can; hopefully, within 48 hours. Please that understand that we teach large classes and as such it becomes difficult for us to respond to messages on time. In extraneous circumstances, you may use email. Use your judgment in sending emails; do not abuse the free mode of communication.

Integrity and Conduct: You are expected to maintain highest standards of integrity and professionalism in your academic work and in in-class conduct. Zero tolerance for academic
dishonesty, plagiarism, cheating or misconduct (e.g., cross-talking, cell phones, online distractions in laptops etc.) will be upheld. Turn off cell phones or other electronic devices during class. Consult the University and College policy (e.g., College of Business Student Code of Ethics) on these issues. Deviation or misconduct will lead to penalty.

As an academic community, TAMUCC requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in Article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional situations.

Drop Policy: As an instructor I would like you to be in the class. Let me know if you are facing difficulty. I will try my best to accommodate you. However, for any reason if you need to drop the class please check the university calendar for the drop dates and refunds associated with it. The dates vary from semester to semester. Also, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation will not automatically result in your being dropped from the class.

Students with Disabilities: As a university, TAMUCC complies with The Americans with Disabilities Act (ADA), a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please visit the university Disability Services office for proper advice. Also, inform me in advance so that I can accommodate you in the class.

Grade Appeals: For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs. Usually, the process starts with discussing the matter with the instructor. I will try my best to see that fairness prevails.

Exam Proctoring Fee Disclaimer: Please be aware that courses may require the use of exam-proctoring involving third party charges. Exam-proctoring charges may range from $1-$50.00 per exam. Students may be required to schedule exams at least 24 hours in advance or incur late scheduling charges. All costs for exams are the responsibility of the student. Students may also be responsible for providing webcams to be used in test proctoring.

Syllabus Disclaimer: This syllabus has been created as a guide to the class and is as accurate as possible. However, all information is subject to change. Any changes will be posted on the Blackboard Announcements. The instructor reserves the right to modify/change course requirements as circumstances dictate. You will be notified about the change via email or Blackboard.
Statement of Academic Continuity: In the event of an unforeseen adverse event, and classes cannot be held on the campus of Texas A&M University–Corpus Christi; this course will continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

Article Discussion Guidelines

Reading, critiquing and discussing articles help the development of theoretical foundation in the discipline. All articles are available on Reserve in the Library. You can also download them from the library databases. All students MUST READ the articles before coming to class. I will discuss the articles with the help of power points. Articles will be the primary basis for the Final Examination. Actual test questions will be similar to the discussion questions given below.

   1. What is conjoint analysis? What are the common applications and limitations of conjoint analysis? How can we overcome its limitations?
   2. Why should marketers study multivariate analysis techniques? Define/elaborate various techniques we discussed in the class and explain how they help marketers make “informed decisions.”

   1. “IQ and technical skills are important, but emotional intelligence is the sine qua non of leadership.” Explain.
   2. What is emotional intelligence? Can emotional intelligence be learned? How?
   3. Rate your emotional intelligence on a four-point scale (4=excellent, 3=good, 2=fair, 1=poor) for each of the five components? How can you improve your rating or emotional intelligence? Explain.

   1. What is marketing productivity? What problems do we face in measuring productivity? How can we overcome them?
   2. What are the drawbacks/limitations of the Hawkins et al.’s (1987) marketing productivity score/index? Can we apply the index to measure productivity in other industries? How?
   3. Write a critique of the article.

Levitt, Theodore (1975), “Marketing Myopia,” Harvard Business Review, September-October, 26-44,173-183. (Originally this article was written in 1960, HBR reprinted it in 1975
with updated comments of Levitt, use the updated article).
1. “There is no such thing as growth industry, what we have is growth opportunities”---
   explain.
2. What is “creative destruction?” How does it relate to the Strategy of a company?
3. Ford created a car with no custom options that was only available in black, but sold for
   $500. Levitt calls him as “both the most brilliant and the most senseless marketer” in

63-78.
1. How does Internet influence the industry structure? Explain using Porter’s model on
   competition.
3. “The winners will be those that view the Internet as a complement to, not a cannibal of
   traditional ways of competing.” Explain.

1. What is a “core competence” of a corporation? Why core competencies do not diminish
   in an organization?
2. What do the authors mean by “the tyranny of the SBU?” In what ways the two concepts
   of the corporation, SBU and core competence, differ? Explain.
3. What would be your (individual) core competence? How would you relate that to your
   personal development and goals in life?

1. Discuss the models of consumption convergence presented in the study. Distinguish their
   similarities and differences.
2. Write a critique of the study.
3. How would you extend the study? Offer future directions for the study.

**Case Analysis Guidelines**

Case analysis is a critical component of the class. It helps you understand real life situations in
marketing. You should read the chapters in the text and be familiar with the concepts from your
principles of marketing class.

You will write and present the case analyses in groups. You will form groups on the first day of
the class. You cannot change the group membership without prior approval from me. I will let
you know how many members can be included in one group. Form groups at your own
discretion; get along and avoid group conflicts. You are advised to use class time and office
hours for the cases and class related issues.

I expect you to work in groups, as closely as possible. Team spirit and intra-group cooperation is
essential for success. Try to develop a favorable culture from the very beginning. Divide the work and work together. Elect a group leader. Leader of the group will be your primary liaison with me. S/he will submit the project electronically in Blackboard on behalf of the group.

All members in the group should contribute equally and will receive the same grade. No free ride should be allowed. If you opt for differential grading then use the peer evaluation form and attach it with the project. Peer evaluation form must be signed by all members of the group. Again, peer evaluation is OPTIONAL and should be used for differential grading only.

Groups will submit a written case analysis for each case. Only one submission from each group will be accepted. Group leader will submit all seven cases on behalf of the group. You can be penalized for multiple submissions.

A case analysis must not be more than 10 pages excluding Appendix for tables, charts etc. It can be single or double-spaced with no less than 12-point font. Evaluation matrices for grading of case analysis and presentation are enclosed.

All cases must be submitted in Blackboard by 2 PM on the day they are due using appropriate file name. Blackboard will not entertain late submissions. File names for cases are mentioned in the Course Schedule. Cases submitted electronically with inappropriate file names will be penalized. “X” in GroupX would be replaced by your group number. Your case submission will be preserved as reference. The submission must be a MS Word document so that I can check its originality/authenticity. I may check it through www.turnitin.com or similar websites.

Cases will be presented by the group on the assigned day. During the presentation all members should contribute equally. Group will use power points to present the case. Do not distribute your power points during the presentation. The presenting group MUST DISCUSS the case with me beforehand. All members of the group must be present.

A typical case analysis solution should have the following parts/components. All cases assigned may not exactly follow this format. Use your judgment. Use the information given in the case; do not bring outside information.

1. Define the Problem: Delineate the problem as succinctly as possible. Differentiate between a problem and a symptom.
2. Find the Alternatives: Identify the alternatives available to solve the problem. Select the ones that have the most potential. Combination of alternatives is also possible.
3. Evaluate the Alternatives: Evaluation of alternatives is a critical component in case analysis. Various marketing tools and techniques will be useful here.
4. Make a Choice: Decide the alternative that best solve the problem and why.
5. Implement the choice: Explain how you will implement the choice and overcome the obstacles. Very often students do good analysis and suggest poor implementation. This lowers the value of the analysis.

The following matrices will be used to evaluate your performance in case analysis and presentation. The rating descriptors are given below:
1. Very poor: has a very poor idea or no idea about the criteria in decision making and/or is not able to express that orally or in writing.
2. Poor: has a poor grasp of the criteria and is able to express that orally and/or in writing.
3. Satisfactory: has a satisfactory idea about the criteria and is able to express that orally and/or in writing.
4. Good: has a good grasp of the criteria and is able to express that orally and/or in writing.
5. Excellent: has an excellent (full) grasp of the criteria and is able to express that orally and/or in writing.

A Few Concepts-Refresher

Read the chapters presented before the cases. Appendix provides a helpful example of a written case analysis. The following tools and techniques may be useful to you.

1. SWOT Analysis
2. Generic strategies (Porter): Cost, Focus, Differentiation
4. Breakeven analysis
5. Sensitivity analysis
6. Expected value analysis
7. Sales and profitability analysis (use of various ratios)
8. Alternative strategy payoffs (brand switch or cannibalization)
9. Decision matrix using various criteria
10. Customer lifetime value analysis
11. (Sustainable) Competitive Strategy
12. Branding, product positioning, perceptual mapping

Multivariate Analysis for Decision Making (from my write up on Advance Research Methods)

1. Conjoint Analysis: Mostly used for attribute measurement/rating and understanding/designing the right product/marketing mix those consumers will buy.
2. Multidimensional Analysis/Perceptual Mapping: Used for understanding a product’s/company’s position on a multidimensional scale. Competitive positioning is determined.
3. Cluster Analysis: Used for segmenting a market, profiling the market segments and designing appropriate strategy to reach the segments.
5. Factor Analysis: It is a data reduction technique; it identifies the underlying Factors in a data set. Also, used for determining cause and effect relationship.
6. Discriminant Analysis: Classification technique used to identify groups, used for categorization.
7. Structural Equations Modeling: Multivariate technique used to determine relationship among variables with simultaneous path analysis estimation.

Know Your Instructor

My Statement
I am an academic. I enjoy reading, teaching, conducting research, consulting, writing and publishing. I believe every time I teach a student, publish a paper, make professional presentation, or consult a company, I am making a marginal contribution to the society.

Employment
Professor of Marketing and International Business in the College of Business, Texas A&M University-Corpus Christi since 2000. Previously taught at Salisbury State University (Maryland), University of New Haven (Connecticut), North South University (Bangladesh), and Institute of Business Administration (IBA), Dhaka University (Bangladesh).

Education
Ph.D. in Business Administration from Kent State University, Ohio. Have two MBAs, one in International Business from George Washington University, Washington, D.C. and the other in Marketing from Institute of Business Administration, Dhaka University, Bangladesh.

Research Interest
Marketing and International Business. Special topics of interest include international competitiveness, emerging markets, convergence and globalization.

Publications

Distinctions
Associate Editor: Journal of Competitiveness Studies. Senior Fellow, American Society for Competitiveness. Received University Excellence Award in Research at Texas A&M University-Corpus Christi. Excellence Award in Teaching at Texas A&M University-Corpus Christi and University of New Haven, Connecticut.

Honor Societies
Beta Gamma Sigma (George Washington University), Phi Beta Delta (Kent State University), Alpha Mu Alpha (American Marketing Association) and Sigma Beta Delta (University of New Haven).

Membership

Personal
Enjoy teaching, reading, writing, publishing and traveling. Traveled to over 20 countries of the world.

Good Luck! Have a Great Semester!
