This course will include preparation and communication of financial information as well as the uses of accounting data in planning and controlling activities of business firms and other types of organizations. Not open to students who have completed six semester hours of accounting. Special Note: Read the chapter, then do the chapter assignment on the Web. We will be doing the chapters in numerical order. If you do not understand a concept please check YouTube as I have found many good 10 minute explanations.

Relationship to Other Coursework: An MBA requires a basic understanding of the principles of accounting since accounting has been called the language of business. This is a course upon which other MBA courses will build and interrelate. It will be essential in understanding business transactions and how they are recorded. MBA's must be able to understand financial statements and therefore they will need to draw upon knowledge obtained in other business courses such as finance, economics, management, marketing, operations management, etc.

Instructional Methodology: Discussion, problems, and computer simulations.

A letter grade will be determined based on the percentage earned of total points possible, as follows: A: 90-100%, B: 80-89%; C: 70-79%; D: 60-69%; F:0-59%. In some instances, a curve may be applied in determining letter grades.

Accounting Topic Paper:
Student will write a research paper with the subject: “The Next Financial Crisis for the United States will be caused by …”. The paper will be a minimum of 5 double spaced pages (not 4.25 or 4.59 pages) not counting references or quotes, keep lengthy quotes to a minimum and paraphrase and give credit to a source. The paper will be a referenced work, with a minimum of 6 references (not all from the internet). Thought pieces or material that cannot be referenced will subtract materially from your grade for this part of the course. Grammar and spelling will be correct and the paper will be written using MLA Style (if you do not know what this is please google it. The paper in its final form (1” margins, Times Roman 12 font, double spaced) will be due at the end of the course (early papers are encouraged). Final paper will be sent to me in “Connect” only. The paper will be in word and the name of the file will be your name (steven-hall.doc) Failures to follow style, instructions, # of references will result in lower grades. If you are an international student PLEASE have someone else proof read your paper that is good in grammar and has English as their first language. Do not send multiple copies to me as it is confusing and will reduce your grade on the paper.

Chapter Assignments:
The assignments may be taken multiple times. The last time counts toward course grade.

Exams:
An exam will be placed on the website and taken there at the time you have reach that milestone. The student will take the exam prior to the last date to take the exam. The due date will be clearly posted, so please keep up your assignments. Assignments and papers will not be turned in late.

Ethical Perspectives:
Accountants must have a clear understanding of ethical requirements in business and in particular the ethical code for accountants as expressed by, for example, the AICPA and the IMA. Ethical considerations are discussed throughout the course with respect to accounting procedures.

Global Perspectives:
The increasing amount of international trade renders it necessary to have at least a minimal knowledge that not all countries conduct their accounting similarly to the United States. Examples will be given throughout the course.
