A. DRAWING II
Drawing II is an intermediate course for students well founded in the basics of drawing and is a further investigation of media techniques, including descriptive and expressive possibilities. Prerequisite: Arts 1316

B. FOCUS, PURPOSE AND GOALS OF COURSE:

1. COURSE PURPOSE:
The purpose of Drawing II is to provide each student with specific drawing media experiences, to improve perceptual skills in terms of drawing from studio set-ups, and/or to teach the student original problem-solving in terms of drawing media. Original, mature idea development and good composition will be stressed.

2. COURSE GOALS:
Drawing II is designed to continue building each students’ perceptual, compositional, expressive and media skills so that by the end of the semester he or she will be able:
a. to show an analytical understanding of the basic elements of art and how they interact within the picture plane. These elements are shape/plane/volume, value, line, texture, and color, that interact to affect space, design, and content in a drawing.
b. to demonstrate successful composition showing balance, unity and variety.
c. to demonstrate the use of a variety of materials through traditional means and by experimentation initiated by the student. Flexibility of approach (controlled and spontaneous) will be encouraged. Color media could be emphasized.
d. to verbalize compositional and spatial analyses of his/her drawings.
e. to use a variety of sources, including actual objects, printed matter or the imagination to serve as stimulus for drawn images.
f. to deliberately and independently solve assigned conceptual problems that cause the student to use critical thinking and consider interactions of media, image selection, composition, content, and spatial manipulation for successful solutions.
g. to verbalize a general knowledge of historical & contemporary trends in drawing.
h. to have executed drawings in class, as assigned by the instructor (six hours per week).
i. to have drawn or otherwise worked on drawing assignments outside of class (to take three or fours hours per week outside of class).
j. to have actively participated in individual and/or group critiques of class work.
k. to have demonstrated self-confidence in the ability to draw by producing drawings that confirm eagerness to try new methods and materials, boldness in execution, continuous production, and a concern for the presentation and protection of drawings.  
l. to have demonstrated knowledge of and performed safe and effective studio practices.  

C. PERFORMANCE OBJECTIVES - Expected student outcomes by domain:

1. COGNITIVE: (Development of critical thinking skills, conceptual constructs, specialized vocabulary and art history.)

Each student will demonstrate well developed skill in at least one drawing media, with introduction to at least one other drawing media and/or technique, with possible emphasis on color and/or mixed media. Introduction to non-traditional drawing processes may be a part of the curriculum, such as computer or photocopy methods of imaging.  
b. Each student will demonstrate understanding of the role of paper as drawing surface, with introduction to less traditional drawing surfaces.
