Marine Botany BIOL 4429
Department of Life Sciences
Fall 2016

A. COURSE INFORMATION

Course number/section: Biology 4429.001
Class meeting time: Lecture: Tuesday & Thursday 9:30-10:45
Laboratory: Monday 1-3:50
Laboratory: Thursday 1-3:50
Class location: Lecture: OCONN 130
Laboratories: CS 240
Course Website: Blackboard

B. INSTRUCTOR INFORMATION

Instructor: Mr. Lee R. Lehman
Office location: CS246
Office hours: Tuesday 830-930, Monday & Thursday 4-5
Telephone: 803.348.5537
e-mail: lee.lehman@tamucc.edu
Appointments: Additional hours by appointment, please call or email.

C. COURSE DESCRIPTION

Catalog Course Description

The ecology of marine plants with emphasis on identification, life histories, and environmental factors of distribution.

Extended Course Description

The course includes studies into the ecology, community structure and environmental characteristics of marine plants. The coastal waters of the Gulf of Mexico are a valuable national and regional resource. In order to safeguard that resource, we need to know and study the biological components of the marine and estuarine waters of that region. Marine plants form the base of the food chain within the environment and may be the first indicator of possible ecological problems. The emphasis in the class will be directed towards the identification of common marine plants, their habitat structure, the study of life histories and the environmental factors affecting the ecology of the marine plants.
D. PREREQUISITES AND COREQUISITES

Prerequisites
BIOL 1407
Corequisites
SMTE 0091

E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES

Required Textbook(s)

Optional Textbook(s) or Other References
None.

Supplies

Plant Press       Dissecting Kit       Pocket Knife
Nylon/Rayon Material Field Notebook Zip Loc Bags

F. STUDENT LEARNING OUTCOMES AND ASSESSMENT

Assessment is a process used by instructors to help improve learning. Assessment is essential for effective learning because it provides feedback to both students and instructors. A critical step in this process is making clear the course’s student learning outcomes that describe what students are expected to learn to be successful in the course. The student learning outcomes for this course are listed below. By collecting data and sharing it with students on how well they are accomplishing these learning outcomes students can more efficiently and effectively focus their learning efforts. This information can also help instructors identify challenging areas for students and adjust their teaching approach to facilitate learning.

By the end of this course, students should be able to:

1. describe the ecological and environmental properties which effect the growth, physiology and distribution of marine plants.

2. list the characteristics, environmental factors and composition of each of the major marine plant communities.

3. differentiate between the divisions of marine plants.

4. evaluate and describe human influences on marine plant environments.

5. discuss and explain methods of management of marine plant systems.
G. INSTRUCTIONAL METHODS AND ACTIVITIES

The class will be primarily lecture with support of activities in the laboratory and field. A collection and identification (project) of plants as pressed specimens and permanent microscope slides will provide the student with the materials and activities to identify and learn the coastal plants of Texas.

H. MAJOR COURSE REQUIREMENTS AND GRADING

LABORATORY REQUIREMENTS

<table>
<thead>
<tr>
<th>REQUIREMENT</th>
<th>VALUE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Students will collect and curate samples of algae/marine plants from various habitats each week. One-half of the project (slides and/or herbarium mounts) is due by the end of laboratory session on either October 17 or 20, 2016 depending upon your laboratory schedule. (All of A &amp; B are due on December 6, 2016 by 5 pm)</td>
<td></td>
</tr>
<tr>
<td>A. Students will prepare 20 microscope slides (mounts) showing different marine algal structures</td>
<td>200</td>
</tr>
<tr>
<td>B. Students will prepare 25 herbarium mounts of marine plants</td>
<td>200</td>
</tr>
<tr>
<td>Rhodophyta = 7; Phaeophyta = 4; Chlorophyta = 4; Halophytes (flowering = + points) = 6; Seagrasses = 4</td>
<td></td>
</tr>
<tr>
<td>2. Student quizzes</td>
<td>30</td>
</tr>
<tr>
<td>3. Students will complete two laboratory exams</td>
<td>200</td>
</tr>
<tr>
<td>(100 points each)</td>
<td></td>
</tr>
<tr>
<td>TOTAL:</td>
<td>630</td>
</tr>
</tbody>
</table>

VII. COMPONENTS OF COURSE GRADE:

<table>
<thead>
<tr>
<th>REQUIREMENT</th>
<th>VALUE</th>
<th>TOTAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Lecture Examinations (3) (includes the final)</td>
<td>200</td>
<td>600</td>
</tr>
<tr>
<td>(9/29; 11/3; 12/13)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Laboratory Exams (2)</td>
<td>100</td>
<td>200</td>
</tr>
<tr>
<td>3. Laboratory Quizzes</td>
<td>30</td>
<td>30</td>
</tr>
<tr>
<td>4. Laboratory Projects (2)</td>
<td>200</td>
<td>400</td>
</tr>
<tr>
<td>TOTAL:</td>
<td></td>
<td>1,230</td>
</tr>
</tbody>
</table>

FINAL GRADE: Total Number of points ÷ 1,230 = FG (%)

90-100% = A
80-89% = B
70-79% = C
60-69 = D
0-59 = F
FINAL EXAMINATION DATE: December 13, 2016 (8-10:30)

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>% of FINAL GRADE</th>

</table>

I. COURSE CONTENT/SCHEDULE

A. INTRODUCTION

   Week 1

   1. Marine Plants and their Environment
   2. History of Phycology in the Gulf of Mexico (Overview)

B. ECOLOGICAL AND ENVIRONMENTAL PROPERTIES

   Week 2

   1. Geological Factors and Descriptions
   2. Hydrological (Physical) Factors
   3. Chemical Factors
   4. Ecology and Geographic Distribution
   5. Marine Plant Physiology

C. THE ALGAE

   Week 3

   1. Cyanophyta
   2. Chlorophyta
   3. Phaeophyta
   4. Rhodophyta
   5. Chrysophyta
   6. Pyrrophyta
   7. Cryptophyta/Euglenophyta

   Week 4

   Week 5

   Week 6

   Week 7

   Week 8

   Week 8

D. MARINE PLANT COMMUNITIES

   Week 9

   1. Salt Marsh Communities
2. Seagrass Communities  Week 9
3. Lithophytic Communities  Week 10
4. Mangrove Communities  Week 11
5. Coral (Biotic) Reefs  Week 12
6. Phytoplankton Communities  Week 13
7. Marine Fungi and Bacteria  Week 13

E. HUMAN INFLUENCES ON MARINE PLANT ENVIRONMENTS
1. Marine Pollution  Week 14
2. Effects of Dredging  Week 14
3. Biocides and Heavy Metals  Week 15
4. Utilization of Marine Plants  Week 15

F. MANAGEMENT SUGGESTIONS AND DISCUSSIONS  Week 15

Note: Changes in this course schedule may be necessary and will be announced to the class by the Instructor. The assignments and exams are directly related to the Student Learning Outcomes described in Section F.

IX. LABORATORY/FIELD TRIP TOPIC OUTLINE: “TENTATIVE”

<table>
<thead>
<tr>
<th>Date</th>
<th>Lab #</th>
<th>Topic</th>

<td>Lab # 12</td>
<td>Final Project Due.</td>
</tr>
</tbody>
</table>
J. **COURSE POLICIES**

Follow College and University Policies.

K. **COLLEGE AND UNIVERSITY POLICIES**

- **Academic Integrity (University)**
  It is expected that university students will demonstrate a high level of maturity, self-direction, and ability to manage their own affairs. Students are viewed as individuals who possess the qualities of worth, dignity, and the capacity for self-direction in personal behavior. See Full University Policy at [http://catalog.tamucc.edu/content.php?catoid=10&navoid=313#Academic_Integrity](http://catalog.tamucc.edu/content.php?catoid=10&navoid=313#Academic_Integrity)

- **Classroom/Professional Behavior**
  Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

- **Deadline for Dropping a Course with a Grade of W (University)**
  The grade of W will be assigned to any student officially dropping a course. Please consult with the instructor before you decide to drop to be sure it is the best thing to do. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Should dropping the course be the best course of action, visit the Office of the University Registrar for the Course Drop Form that must be submitted. No student is eligible to receive a W without completing the official drop process by this deadline. Please consult the Academic Calendar ([http://www.tamucc.edu/academics/calendar/](http://www.tamucc.edu/academics/calendar/)) for the last day to drop a course.

- **Grade Appeals (College of Science and Engineering)**
  As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure
13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at [http://www.tamucc.edu/provost/university_rules/index.html](http://www.tamucc.edu/provost/university_rules/index.html), and the College of Science and Engineering Grade Appeals webpage at [http://sci.tamucc.edu/students/GradeAppeal.html](http://sci.tamucc.edu/students/GradeAppeal.html). For assistance and/or guidance in the grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.

- **Disability Services**
  The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116.

  If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

**GENERAL DISCLAIMER**

I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods.
