X. **GRADE APPEALS**

As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs.

**Academic Honesty**

*University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examinations materials, forgery, or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.)*
Disciplinary action for academic misconduct is the responsibility of the faculty member assigned to the course. The faculty member charged with assessing the gravity of any case of academic dishonesty, and with giving sanctions to any student involved. Penalties that may be applied to individual cases of academic dishonesty include one or more of the following: 1. Written reprimand, 2) Requirement to re-do work in question, 3) Requirement to submit additional work, 4) Lowering of grade on work in question, 5) Assigning grade of “F” to work in question, 6) Assigning grade of “F” for the course, and 7) Recommendation for more severe punishment.

If the faculty member determines that assigning a grade of “F” to the course is the appropriate penalty and this disciplinary action occurs prior to the deadline for dropping courses, the student forfeits his/her right to drop the course in question.

The faculty member may file a record of cases of academic dishonesty, including a description of the disciplinary action taken, along with any materials involved with his or her college dean and the Office of Student Affairs. The office of the academic dean of the college which the offense took place will maintain records of all cases of academic dishonesty reported for a period of not more than two years. Any student who has been penalized for academic dishonesty has the right to appeal the judgment or penalty assessed (See XII above.)
