I. COURSE DESCRIPTION

A course designed to direct kinesiology majors toward meeting the program needs of the exceptional individual in physical activity settings. Practical instructional application with exceptional individuals is stressed.

II. RATIONALE

Special Populations in Kinesiology is an introductory/survey course designed to provide the student with a basic knowledge of conditions which impede the psychomotor, cognitive, and /or affective domains and their implications for participation in physical activity and/or the professional work environment. Methods for effectively instructing physical activity to people with disabilities are taught. Classroom and practical experience opportunities will be provided to increase the student’s awareness about people with disabilities as well as to facilitate the application of knowledge to real life situations.

III. STATE ADOPTED PROFICIENCIES FOR TEACHERS AND/OR ADMINISTRATORS/COUNSELORS

A. LEARNER-CENTERED KNOWLEDGE: The teacher possesses and draws on a rich knowledge base of content, pedagogy, and technology to provide relevant and meaningful learning experiences for all students.

B. LEARNER-CENTERED INSTRUCTION: To create a learner-centered community, the teacher collaboratively identifies needs; and plans, implements, and assesses instruction using technology and other resources.

C. EQUITY IN EXCELLENCE FOR ALL LEARNERS: The teacher responds appropriately to diverse groups of learners.

D. LEARNER-CENTERED COMMUNICATION: While acting as an advocate for all students and the school, the teacher demonstrates effective professional and interpersonal communication skills.

E. LEARNER-CENTERED PROFESSIONAL DEVELOPMENT: The teacher, as a reflective practitioner dedicated to all students’ success, demonstrates a commitment to learn, to improve the profession, and to maintain ethics and personal integrity.

IV. TExES COMPETENCIES

Competency 001 – The teacher uses an understanding of human developmental processes to nurture student growth through developmentally appropriate instruction.

Competency 002 – The teacher considers environmental factors that may affect learning in designing a supportive and responsive classroom community that promotes all students’ learning and self-esteem.

Competency 003 – The teacher appreciates human diversity, recognizing how diversity in the
classroom environment in which both the diversity of groups and the uniqueness of individuals are recognized and celebrated.

Competency 005 – The teacher understands how motivation affects group and individual behavior and learning and can apply this understanding to promote student learning.

Competency 006 – The physical educator understands socialization processes related to physical activity and uses this understanding to foster learners’ social development.

Competency 008 – The physical educator knows how to develop and implement physical education programs that are responsive to learner needs and interests.

Competency 009 – The teacher uses a variety of instructional materials and resources to support individual and group learning.

Competency 010 – The teacher uses processes of informal and formal assessment to understand individual learners, monitor instructional effectiveness, and shape classroom climate that promotes the lifelong pursuit of learning and encourages cooperation, leadership, and mutual respect.

Competency 011 – The teacher structures and manages the learning environment to maintain a classroom climate that promotes the lifelong pursuit of learning and encourages cooperation, leadership, and mutual respect.

Competency 012 – The teacher is a reflective practitioner who knows how to promote his or her own professional growth.

V. COURSE OBJECTIVES/LEARNING OUTCOMES

Given lectures, discussions, films and field experiences the student will be able to:

A. Demonstrate knowledge of the current terminology and societal issues associated with individuals with disabilities.

B. Demonstrate a basic knowledge of the current federal laws that effect individuals with disabilities.

C. Demonstrate knowledge associated with individualized educational programming (IEP) for individuals with disabilities. This includes screening, assessment, IEP development, lesson plan development and activity selection.

D. Demonstrate an understanding of the affects of disabling conditions on emotional development.

E. Demonstrate a basic knowledge of characteristics associated with various physical, motor, metabolic, cognitive/learning and social/emotional disabilities.

F. Demonstrate skills for the successful integration/inclusion of individuals with disabilities into all environments (e.g. work, school, home, leisure).

G. Develop an appreciation for the abilities of individuals with disabilities in all environments (e.g. work, school, home, leisure).

VI. COURSE TOPICS

The major topics to be considered are:

A. Introduction to Adapted Physical Education and Sport

B. Program Organization and Management

C. Adapted Sport

D. Measurement, Assessment, and Program Evaluation

E. Individualized Education Programs

F. Behavior Management

G. Instructional Strategies for Adapted Physical Education

H. Intellectual Disabilities

I. Behavioral Disorders

J. Autism Spectrum Disorders

K. Specific Learning Disabilities

L. Visual Impairments
M. Hard of Hearing, Deaf or Deafblind
N. Cerebral Palsy, Traumatic Brain Injury, and Stroke
O. Spinal Cord Disabilities
P. Other Health-Impaired Conditions
Q. Motor Development
R. Perceptual Motor Development
S. Health-Related Physical Fitness and Physical Activity
T. Enhancing Wheelchair Sport Performance

VII. INSTRUCTIONAL METHODS AND ACTIVITIES

A. Course is completely on-line. All tests, quizzes, assignments, discussions and chats are detailed on the Blackboard calendar, assignment tool and test tool.

VIII. EVALUATION AND GRADE ASSIGNMENT

The methods of evaluation and the criteria for grade assignment are:
A. Requirements and point values. The total number of assignments in category 4 is tentative. Therefore, the point values listed below may vary.
   1. Online Chapter Quizzes 20 @ 10 points  200 points
   2. Online Chapter Assignments 20 @ 10 points  200 points
   3. Discussions 5 @ 20 points  100 points
   4. Professional Volunteer Activity  50 points
   5. Pop Quiz/Assignments 5 @ 10-20 points  200 points (tentative)
   6. Tests 4 @ 100 points  400 points

   **Total Points**  1150 points (tentative – minimum 900 pts)

B. Grading Scale:
   90-100%  = A
   80-89%  = B
   70-79%  = C
   60-69%  = D
   Below 60%  = F

IX. COURSE SCHEDULE AND POLICIES

Please find below the order for all chapter assignments, chapter quizzes and chapter tests. Some dates may change, so PLEASE use your Blackboard Calendar as it will be the most current. Also, additional pop quizzes are not listed, or additional assignments as they are dependent upon when all students complete specific chapters. However, you'll always have at least a two day notice, so it is imperative to continually check Blackboard.

**Chapter Assignments/Quizzes/Test**

July 3       Syllabus Assignment, Pre-Test Assignment, Profile Pic Assignment, Information Assignment.
July 5       Assignment 1
July 5       Quiz 1
July 9       Quizzes 2-5, Ch. Assignments 2-5

**On-Line Chapter Assignments**

You may open and work on them at your leisure as you have unlimited access until the due date.

A. All assignments should be completed on a Word document. All ‘on-line’ assignments should be uploaded as an attachment. Failure to comply will result in a zero.

B. On-line assignments should be formatted in a standard outline form. Since your questions range from 1-10 you should use those numbers.

C. Standard outline format includes consistent numbering, indentations. See sample Assignment Outline in the menu. Failure to comply will result in a zero.

D. It is expected that all papers be proof read, “spell checked” and “grammar checked” prior to submission and formatted in a neat, professional fashion (see examples in the menu bar). Be reminded, this is an example and may not have enough information. I am just showing you what is should look like.

E. Assignments that are not professionally completed may receive a zero or points will be deducted dependent upon the level of error. See the sample given after letter 'F’. Be reminded, this is an example and may not have enough information. I am just showing you what is should look like.

F. The paper will not be accepted if the minimum criteria are not met. Thus, for example incomplete assignments where all questions are not addressed or portions of questions are not answered will receive a zero. This includes the required formatting instructions on Blackboard.

G. Fully completed assignments will be graded in the following manner:
   1. Minimum requirements met – grade starts at 50%
   2. Quality/thoroughness of the content – 30%
   3. Professionally prepared – 20% (A paper is professionally prepared if it meets the requirements above, is neat, and organized in a consistent and logical pattern or as identified by the professor).

**Additional Assignments**

For each additional assignment, follow the given instructions as to how to submit and where. Pay very close attention to this, as it is likely different than the chapter assignments.

**On-line Chapter Quizzes**

You may take the quizzes twice. Blackboard will automatically use your 'best' score for grading purposes. There are 10 questions for each chapter taken at random from a larger bank of questions. Thus, no two students will get the same 10 questions, nor will an individual student get the exact 10 questions if they take the quiz a second time, but will likely get some of the original ones.

Questions will pop up individually and you will have 1 minute to answer each.
All questions are objective, thus either a 'True or False' or 'Multiple Choice'. No discussion questions are utilized on the quizzes.

You may take the quizzes twice. You are encouraged to do so even if you make 10/10, as the program will only count your best grade, and you'll be exposed to other questions from the quiz question bank. Thus, more rehearsal should translate into better test scores.

Finally, play close attention to the due date time (11pm) and be sure to start with plenty of time to finish. If you don’t, and during the quiz you get to 11pm or beyond, Blackboard will not kick you out, but your submission will be late and a zero no matter what question you are on, thus even the last question. Therefore, waiting until the last minute to take quizzes is not a good method.

Additional/Pop Quizzes
For additional quizzes, follow the given instructions as to how to submit and where. Pay very close attention to this, as it is likely different than the chapter quizzes.

Tests
Similarly to the quizzes each test utilizes random selections of the entire bank of questions from each chapter. Thus, no two students will get the same questions. There are 100 questions per test. You’ll be allotted 75 minutes to take the test, which gives you 45 seconds per question. The test is set on Auto-Submit, which means once the time expires the test will save and submit automatically. Thus, trying to look up answers could be a futile exercise.

Questions will pop up individually and students will have 1 minute to answer each.

The majority of the questions are objective, thus either a 'True or False' or 'Multiple Choice'. However, you'll occasionally use 2-5 discussion questions or other types of objectives questions. If so, I’ll reduce the number of objective questions so as to not create a time issue.

The test may be taken only once.

Finally, play close attention to the due date time (11pm) and be sure to start with plenty of time to finish. If you don’t, and during the test you get to 11pm or beyond, Blackboard will not kick you out, but your submission will be late and a zero no matter what question you are on, thus even if on the last question. Therefore, waiting until the last minute to take quizzes is not a good method.

Missed or Late Assignments
As a rule students are not allowed to complete or turn in assessments past the due date. The only exceptions that are allowed will only be allowed is if the absence is due to a religious holiday, or the student is on approved university business (e.g. athletic travel, student research conferences – See University Catalog). However, in such cases if the professor is not notified ahead of time students will not be allowed to make up missed work. This is also part of the university handbook rules.

Further, since this is an on-line class and students have an entire week to complete work thus such an excuse should rarely be an issue as the student knows in advance the when the religious holiday and university trip occurs, THUS should adjust accordingly.
If a situation arises for a student beyond what is identified above that causes them to miss class product they must the professor will decide if the situation warrants a make-up. However, as a matter of practice only tests and major assignments may be made up.

**Final Word**

No assessment (assignment, quiz or test) will be allowed after each due date. Once the due date/time has lapsed students will not be allowed access to any of them thus a grade of zero will be automatically submitted.

Therefore, plan accordingly. Students have one full week to get everything completed.

**X. TEXTBOOK**

**XI. BIBLIOGRAPHY**

**XII. GRADE APPEALS**

As stated in University Rule 13.02.99.C2, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Rule 13.02.99.C2, Student Grade Appeals, and University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Office of Student Affairs.

**Academic Honesty**

ACADEMIC HONESTY

University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.)

Disciplinary action for academic misconduct is the responsibility of the faculty member assigned to the course. The faculty member is charged with assessing the gravity of any case of academic dishonesty, and with giving sanction to any student involved. Penalties that may be applied to individual cases of academic dishonesty include one or more of the following:

1. Written reprimand;
2. Requirement to re-do work in question;
3. Requirement to submit additional work;
4. Lowering of grade on work in question;
5. Assigning grade of “F” to work in question;
6. Assigning grade of “F” for course;
7. Recommendation for more severe punishment.

If the faculty member determines that assigning a grade of “F” to the course is the appropriate penalty and this disciplinary action occurs prior to the deadline for dropping courses, the student forfeits his/her right to drop the course in question.

The faculty member may file a record of cases of academic dishonesty, including a description of the disciplinary action taken, along with any materials involved, with his or her college dean and the Office of Student Affairs. The office of the academic dean of the college in which the offense took place will maintain records of all cases of academic dishonesty reported for a period of not more than two years. Any student who has been penalized for academic dishonesty has the right to appeal the judgment or the penalty assessed (See XII above).

XIII. DISABILITIES ACCOMMODATIONS

Americans with Disabilities Act (ADA) - The ADA is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disability. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall. Room 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.
