Texas A&M University - Corpus Christi
College of Nursing and Health Sciences

NURS 5314-W03-RESEARCH METHODS IN ADVANCED NURSING PRACTICE

Syllabus

Fall 2016

FACULTY: Theresa J. Garcia, PhD, RN - Assistant Professor

OFFICE: Island Hall, 338

OFFICE HOURS: By appointment: Please e-mail through Blackboard (Bb) to set up a phone or in-person appointment.

TELEPHONE: (361) 825-3957

E-MAIL: Theresa.garcia@tamucc.edu

FAX: (361) 825-2484

CREDITS: 3 semester hours

COURSE DESCRIPTION:

Critical examination of research methods in order to advance and integrate evidence into nursing practice and improve patient population outcomes. Particular attention is given to research appraisal and application, and the ethical aspects of research translation. This course is delivered through online technology.

Prerequisites: Graduate standing; completion of an introductory Nursing Research course and introductory Statistics course.

Approach: This course will build on your previous research and statistics knowledge to provide a more in depth and hands-on perspective of the conduct of research in the clinical setting. Although it is not feasible to cover all areas concerning research methods and statistics, topics have been chosen to facilitate practical application and interactive learning.

Online presentation: This course is delivered exclusively through online technology and may be accessed at http://Bb9.tamucc.edu. You will need to provide PowerPoint, word processing, and other software as needed to complete some requirements of this course. You may need to download collaborative tools such as the WebEx application.
COURSE OBJECTIVES:

Upon completion of the course, you will be able to:

1. Critically appraise, integrate, and apply the best available research evidence from nursing and other sciences to advance nursing practice (AACN Essentials I, IV, VI, and IX).
2. Initiate a line of inquiry into comprehensive databases in order to generate meaningful evidence for nursing practice (AACN Essentials IV, V, VI, VIII, and IX).
3. Develop a plan to use new research knowledge to facilitate an evidenced-based practice for a specific target population (AACN Essentials, I, IV, VI, and IX).
4. Demonstrate an ability to translate theory and research into practice, while being mindful of ethical concerns for the protection of vulnerable groups.
5. Defend the concept of caring for populations, especially vulnerable populations, through the ethical conduct of research (AACN Essentials I, III, IV, VI, VIII, and IX).

REQUIRED TEXTS AND RESOURCES:

SUGGESTED TEXTS:

LEARNING EXPERIENCES:

You can meet course objectives through successful completion of all assignments and quizzes, thoughtful study of the textbook and other resources provided by me, your instructor, and earnest participation in discussions with peers throughout the course. While I will provide guidance and consultation, you are responsible for identification of individual learning needs, self-direction and motivation, seeking help when needed, and successful completion of the course requirements.

COURSE TIME EXPECTATIONS:

All assignments, quizzes, and discussions are due by 11:59 pm on the specified due date in the course schedule unless prior arrangements are made with me. Please note and remember that a 3 credit hour course requires a weekly time commitment of a 3-hour presence associated with 9
hours of preparation time. That expectation remains the same in an on-line course. The time spent in the course is set by your personal learning schedule. You should review Bb mail and announcements at least every 48 hours.

**COURSE REQUIREMENTS:**

1. You are expected to have access to a computer that can support Bb applications and all related course materials. A backup plan should be in place if normal computer access becomes unavailable, i.e. arrange use of a computer elsewhere.
2. Any problems with technology, computer, internet, Bb or other applications should be dealt with through the IT (information technology) helpline at (361) 825-2692 or computer.helpline@tamucc.edu
3. Any problems understanding the assignments or due dates should be brought to my attention, preferably within the first week of class.
4. You are expected to complete the course orientation and Academic Honesty Statement prior to beginning work on course content.
5. All e-mail communication with me should occur through Bb, unless otherwise noted. You should review Bb mail and announcements at least every 48 hours.
6. All assignments are due by 11:59 pm on the scheduled date unless other arrangements have been made with me before the due date. Late work will be penalized with a 10% grade deduction/day for up to 3 days. However exceptions will be considered for extreme emergencies where pre-planning was not possible.
7. Respectful and timely participation in discussion forums is required. Since it is assumed each of you will be prepared for discussions, all contributions will be considered knowledgeable contributions. Disrespect in any form will NOT be tolerated.
8. All information disclosed through course chats or discussions is confidential and should not be shared with others outside the context of this course.
9. You should notify the faculty if you withdraw from the course and should not attempt to access course materials once you have withdrawn.
10. You are expected to complete a course evaluation at the end of the course.
11. You can expect that I will respond to Bb e-mail messages within 48 hours.
12. You can expect that I will grade assignments within 2 weeks of submission unless you are otherwise informed.

**GUIDELINES FOR FORM AND STYLE OF WRITTEN ASSIGNMENTS:**

You are expected to follow instructions associated with the assignments for this course. If you are confused about an assignment, you should contact me in a timely manner to ensure satisfactory completion of the assignment by the due date. Unless otherwise instructed, each of
you must adhere to the APA Publication Manual, 6th or 7th Edition guidelines for formatting and organizing written assignments.

The campus Center for Academic Student Achievement (CASA) provides writing support both in person and in an online format. The contact at the Center is Noel Ballmer at 361-825-2254 and the web link is http://casa.tamucc.edu. Another writing resource is http://www.grammarly.com/edu. The College of Nursing & Health Sciences has purchased a license for students to use this website. Attached to an Item in the Resources section of your Blackboard course menu is a PDF instruction guide providing access information. Please do not hesitate to contact me to discuss your writing needs.

PASS/FAIL REQUIRED ASSIGNMENTS:

All of the Pass/Fail assignments and instructions can be found in the Introductory Unit. Look in the blue Course Menu on the left hand side of your Bb screen, click on the link labeled “Units/Lessons;” then click on “Introductory Unit.”

Academic Honesty Statement:
You are required to read the four sections of the Academic Honesty Statement document, complete the fifth section, and submit it through the Assignment link (in the Introductory Unit) certifying compliance with the Academic Honesty policy.

Student Introductions and Discussions:
Each of you enrolled in this course will become potential collaborators in professional ventures. The student introduction provides you with an opportunity to share your background, professional interests, and contact information to generate a peer network. Additionally, you will also be deciding who your group members should be based on individual interests, strengths, weaknesses, and schedules. This assignment is required.

Research Pre-Test:
Each of you is required to take an undergraduate level research Pre-test at the beginning of the course. Everyone is required to pass this test with an 80 or above before moving on with the rest of the course. The test is open-book and not timed. You may take it multiple times if necessary. This is done primarily for self-assessment purposes to help you see where your strengths and weaknesses lie. You will find the link that takes you to the Pre-Test within the Introductory Unit. No numerical grade will be recorded but the Pre-test is required to move on with the rest of the course.

Plagiarism for Students Course Certificate
The last required pass/fail assignment is an important one. Please go to http://research.tamucc.edu/compliance/citi-training.html and follow the instructions for the Plagiarism Course. Our advanced research course is writing intensive. It requires you to find, read, interpret, and cite the work of others in your own words. This is no small task. It is often difficult to know exactly what is considered plagiarism. This CITI online module defines and describes plagiarism and its penalties and teaches you how best to avoid it. The completion report should be saved in pdf format and submitted under the Assignment link in Bb. This online module is required to continue with the course.
GRADED ASSIGNMENTS:

Below is a general description of your major assignments. More detailed instructions may be found on the Course Schedule, the Assignments tab, and within each specific Bb Unit tab.

**Human Subjects Certification (CITI Training):**
Each of you is required to successfully complete **TWO online courses** concerning the ethical and responsible conduct of research on human subjects provided by CITI training, specifically:

1. **SOCIAL AND BEHAVIORAL RESEARCH BASIC COURSE/REFRESHER (16 modules);**
2. **RESPONSIBLE CONDUCT OF RESEARCH (8 modules).**

Specific instructions can be found at [http://research.tamucc.edu/compliance/citi-training.html](http://research.tamucc.edu/compliance/citi-training.html) A completion report will be generated by the CITI website when all modules have been successfully completed. **These 2 reports (one for each of the above courses) should be saved in pdf format and submitted under the Assignment link in Bb.**

*This assignment is time-consuming (at least 4 hours for most students). I recommend that you split these modules up and complete them in shorter intervals.

*This assignment counts toward 10% of your final grade.*

**Quizzes:**
It is important that you comprehend the content in the assigned book chapters, articles, PowerPoints, and interactive exercises in each unit in order to be able to understand and correctly complete the assigned components of your systematic review. To evaluate comprehension, 2 multiple choice quizzes will be given, online. They will cover selected chapters from your Grove textbook. Quizzes can be accessed within the Tests/Quizzes tab in Bb. All will be timed and can be taken a maximum of 2 times (only the highest grade will be recorded).

*Each quiz will count toward 10% of the final grade.*

**Assignments Building toward a Final Research Paper Product:**
The following 4 assignments are planned to build upon each other, culminating in a final product, the Systematic Review of the Literature Poster, which will be worthy of submission to a research conference as a poster presentation. A systematic review of the literature is the cornerstone of evidence-based practice and involves a systematic search for research evidence/literature (published reports) from studies investigating a certain clinical practice problem. You (and your self-assigned group) will undertake a systematic review on a clinical practice problem of your choice. Your overall goal will be to gather literature addressing your chosen clinical practice problem, appraise it for quality, summarize and synthesize the findings of the studies you choose, and finally, make clinical practice recommendations to your peers based on the evidence you have reviewed. Exciting, isn’t it? Through this series of assignments you will compile the major components (sections) of a research report/manuscript, and use them to produce a professional research poster, your final product in this course.
Assignment 1: Introduction & Problem Statement Outline
This assignment involves deciding on your clinical practice problem of interest with your group members through a scholarly discussion (using Bb group discussion tools so I can follow your work). Then in outline format, you will provide background and significance information for your problem and formulate a formal problem statement, research question, and purpose statement. This outline will serve as the basis for your final poster presentation. This is a major assignment as all others build on it. 
This portion of your systematic review will count toward 15% of your final grade.

Assignment 2: Methods Outline & Evidence Table:
This portion of your review is where the real work begins. In outline format, you will describe the methods or steps you plan to take to conduct this systematic review, then you will conduct it and gather your data. Conducting your review means “systematically” searching for articles that help to answer your research question (and meet grading criteria) and then organizing the data from each study into an “Evidence Table” that will store all the key facts about these studies in an organized and “systematic” manner. 
This portion of your systematic review will count toward 15% of your final grade.

Assignment 3: Results Outline & Alignment Paper:
This assignment will continue to build on what you have done in the first 2 assignments. You will provide a detailed outline of your results including: (1) a description of the characteristics of your studies as a whole, i.e. summarize your Evidence Table; (2) an interpretation of your overall findings across studies as they relate to your research question (synthesis/discussion); and (3) the implications/conclusions from your findings (practice recommendations you can make based on the evidence you have compiled). This outline will be added to your first and you may include any further revisions based on feedback from the above 2 assignments. You will also submit a 1-page alignment paper. The Alignment Paper connects your problem with your findings to make sure they are in alignment. 
This portion of your systematic review will count toward 15% of your final grade.

Integrative Systematic Review of the Literature Poster and Oral Presentation:
This final assignment combines all your previous work from the first 3 assignments into a professionally created poster which should flow directly from your detailed outlines on which you have received feedback. Your final project should include an Introduction, Methods, Results, Implications and Conclusions sections, as well as the Evidence Table, and Consort Table, and a separate Reference List. Detailed instructions and examples will be provided on how to format and construct the poster on a single PowerPoint slide. You will also provide a 10-minute oral presentation of your work (through PowerPoint). 
Your Integrative Systematic Review of the Literature Poster Presentation will count toward 25% of your final grade.
**POLICIES:**

**Evaluation Input From Students**
The faculty of the College of Nursing and Health Sciences places great value on evaluative input from students. Evaluation of courses, instructors and clinical facilities provides the College with important data which is used to strengthen the program. Data is analyzed as to trends and themes and is important to curriculum and sequencing decisions. All evaluations for courses posted are online. The online mechanism allows us the opportunity to tabulate and store information in order to analyze trends within the curriculum. Please be assured that this information is secured and not released until after grades are submitted. No names are available to faculty. In order to garner some reliability and validity, the College must have representative data from the student population. That representation, based on the literature, has been set at 70%. The College is anticipating that students will thoughtfully participate in the evaluation process which will assist the faculty with the growth of the program. A link to evaluations will be available on Blackboard toward the end of the semester. Thank you in advance for your assistance with the evaluation process.

**Academic Integrity and Honesty**
It is expected that University students will demonstrate a high level of maturity, self-direction, and ability to manage their own affairs. Students are viewed as individuals who possess the qualities of worth, dignity, and the capacity for self-direction in personal behavior. University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to a penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, forgery, or plagiarism. (Plagiarism is intentionally, knowingly, or carelessly presenting the work of another as one’s own). Please see the following sites for additional information:

- University Student Handbook and Code of Conduct: [http://www.tamucc.edu/~students](http://www.tamucc.edu/~students)
- University catalog related to academic integrity and honesty: [http://catalog.tamucc.edu/](http://catalog.tamucc.edu/)

**Students with Disabilities** The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Disability Services Office at 361.825.5816 or visit the office in CCH 116. If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disabilities Services office for assistance at (361) 825-5816.
Title IX
As part of the Texas A & M Corpus Christi University policy, pregnant students are urged to contact the Title IX office for facilitation of academic issues impacted by pregnancy, delivery and subsequent complications. Contact information: Mr. Samuel Ramirez, Title IX Coordinator or Ms. Rosie Ruiz, Deputy Title IX Coordinator (825-5826).

Grade Appeals Process
The College of Nursing and Health Sciences (CONHS) adheres to the University’s student grade appeal procedures described in Section 13.02.99.C2.01 (revised May, 2013) and follows those guidelines. See http://academicaffairs.tamucc.edu/Rules_Procedures/ for the University procedure and see http://conhs.tamucc.edu/shb/ for the CONHS process identified in the Student Handbook.

Support Services
Students are encouraged to seek faculty assistance in accessing University Services, including tutoring, health services, personal counseling, degree counseling, financial aid, learning resources, job/work placement, career guidance, and computer/technical support/instruction. If a student is interested in other support services provided by the University, the student is encouraged by the College of Nursing and Health Sciences and the University to seek these services.

MILITARY STUDENTS
Active duty military personnel, military spouses, and veterans with special circumstances (e.g. deployment, drill requirements, disabilities) are welcome and encouraged to communicate these circumstances, in advance if possible, to the course and clinical instructors.
