Objective:
The objective of this course is to familiarize students with the principles of theatrical design. This will be achieved through a mixture of lecture from the instructor, assigned readings, class participation and practical projects assigned over the course of the semester. Design projects will explore the areas of scenic, lighting and costume design. This course is meant to promote growth and understanding in the principles of theatrical design and is open to all students possessing an interest in design and willingness to collaborate. Collaboration is critical to the success of this class and a certain level of critique and response will be necessary and expected from each student in order to facilitate further development.

Student Learning Objectives:
1. The student will learn basic elements of design and understand how to apply them to practical projects related to the different areas of theatrical design.
2. The student will demonstrate the ability to apply skills learned over the course of the semester, through in class participation, assigned readings and personal research, to practical projects.
3. The student will learn to critique theatrical design elements in productions and class projects through critical analysis.

Course Requirements:
1. Principles of Design is a lecture and a studio course. Attendance is mandatory in order to ensure the successful completion of the course. Any missed class period will make it difficult to adequately complete projects.
2. The student will be assigned tasks from a drawing workbook that is to be completed for the end of each week. Workbooks will be checked periodically to evaluate progress.
3. The student will be assigned various art projects that will be the primary source of their grades throughout the semester.
4. Quizzes over the assigned reading will happen at the instructor’s discretion. Students are responsible for having completed the assigned readings as indicated in the course schedule.

Attendance:
Excused absences will only be granted at the discretion of the instructor, given proper accompanying paperwork is provided (doctor’s note, note from parent regarding death in the family) and signed. Excused absences will also be given for proper, documented religious holidays. Students are admitted 2 unexcused absences. After 2, each absence will result in a full letter grade drop. More that 4 unexcused or excused absences will result in a failure of the course. Extreme circumstances may come up and should be discussed with the instructor to resolve any foreseeable disputes.

Lateness:
Class will start promptly and in conjunction with the stated time listed at the top of this document. Arrival 10 minutes after this time will result in a loss of participation points for that day. Arrival fifteen minutes or later will result in an unexcused absence for that day. Time management is an important asset in this business and will not be taken lightly.

Cell Phones/iPhones/iPods/iPads/etc.:
The use of cell phones and all other personal electronic equipment not necessary for medical reasons is not permitted. The use of these items in class is a distraction. Checking of these items during class, even for the time, will result in a confiscation of the item for the duration of the class, a loss of participation points for the day. If there is to be music played during a work session, it will be under the instructor’s discretion.
Grading:
Grading for each student will be based upon their demonstrated abilities, growth, communication and commitment to class projects. Taken into consideration for each project will be completeness of work, originality, appropriateness of the design. Students will not be graded on their skills as a fine artist.
