Objective:
The objective of this course is to familiarize students with the theory and practice involved in scenic design for the theatre. This will be achieved through a mixture of lecture from the instructor, assigned readings, class participation and practical projects assigned over the course of the semester. Projects will focus on developing concepts and communicating the design through drafting, model building and additional methods. This course is meant to promote and encourage effective habits in scenic design and is open to all students possessing an interest in design and willingness to collaborate. Collaboration is critical to the success of this class and a certain level of critique and response will be necessary and expected from each student in order to facilitate further development.

Student Learning Objectives:
1. The student will learn basic tools of set design and understand how to apply them to practical projects.
2. The student will demonstrate the ability to apply skills learned over the course of the semester, through in class participation, assigned readings and personal research, to practical projects.
3. The student will learn to identify and critique theatrical design elements in research and class projects.

Course Requirements:
1. Set Design is a lecture and a studio course. Attendance is mandatory in order to ensure the successful completion of the course. Any missed class period will make it difficult to adequately complete projects.
2. Students are expected to come to class prepared. Each project will be unique to each student and will require different media and materials. Students should expect to spend money to acquire some of the materials required to complete projects.
3. The student will be assigned various artistic projects that will be the primary source of their grades throughout the semester.
Grading:

Grading for each student will be based upon their demonstrated abilities, growth, communication and commitment to class projects. Taken into consideration for each project will be completeness of work, originality, appropriateness of the design. Students will not be graded on their skills as a fine artist. Any plagiarized items will result in an F for the assignment.

Grading for this course will be as follows:

Excused absences will also be given for proper, documented religious holidays. Students are admitted 2 unexcused absences. After 2, each unexcused absence will result in a full letter grade drop. More that 3 unexcused or excused absences will result in a failure of the course. Extreme circumstances may come up and should be discussed with the instructor to resolve any foreseeable disputes.

Lateness:

Class will start promptly and in conjunction with the stated time listed at the top of this document. Arrival 10 minutes after this time will result in a loss of participation points for that day. Arrival fifteen minutes or later will result in an unexcused absence for that day. Time management is an important asset in this business and will not be taken lightly.
Cell Phones/iPhones/iPods/iPads/etc.
