This course addresses the structure and anatomy of the human figure. Students will render proportions, balance, form and mass of the figure. Drawing skills developed in Draw I and Draw II are further refined by using a variety of drawing media and surfaces.

Course Goals:
• Students will continue to develop drawing skills through direct study of the human figure.
• Students will use gesture, line and value to depict form and structure.
• Students will study the skeletal and muscular structure of the human figure.
• Students will refine sighting and measuring strategies to measure accurate proportions of the human figure.

Student Learning Outcomes:
• Students will identify, draw, and understand the structure of the skeleton and muscles.
• Students will use sighting and measuring to capture accurate proportions and foreshortenings.
• Students will render the figure to describe mass, volume, light, form and shadow.
• Students will use research tools such as gestural studies, anatomical studies, master drawings and vocabulary.

Dropping a Class
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. June 15 is the last day to drop a class with an automatic grade of “W” this term.
