PROFESSIONAL SKILLS  ESCI 3202.001
Cross-listed with BIMS/BIOL 2200 Professional Skills
DEPARTMENT OF PHYSICAL & ENVIRONMENTAL SCIENCES
Summer II 2018 v4

A. COURSE INFORMATION
Course number/section:  Professional Skills ESCI 3202.001
Class meeting time:  10:00-11:40 am TWR
Class location:  EN 108
Course Website:  https://bb9.tamucc.edu

B. INSTRUCTOR INFORMATION
Instructor:  Gregory W. Buck, Ph.D., Associate Professor
Office location:  Center for the Sciences 251
Office hours:  M 10:00-11:15 a.m.; TWR 1:00-2:15 p.m. or by appointment
Telephone:  (361) 825-3717
e-mail:  Gregory.Buck@tamucc.edu
Appointments:  Preferred method is by e-mail

C. COURSE DESCRIPTION
Catalog Course Description
Presentation and discussion of selected topics relating to the professional skills of practicing environmental scientists including literature searches, reviews, paper presentation, professional opportunities and job requirements. Satisfies computer literacy requirements.

Extended Course Description:
This course introduces students in learning to read, analyze, and critique scientific literature, and to distinguish between primary and secondary scientific literature. Students will also learn to devise a hypothesis, design experiments to test that hypothesis, and to present results that allow the hypothesis to be rejected or not rejected. The course also reviews library services pertinent to science, and gives an introduction to ethical issues in science.

D. PREREQUISITES AND COREQUISITES
Prerequisites
None for ESCI

Corequisites
None

E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES
Recommended Textbook(s)

Optional Textbook(s) or Other References - ESCI 3202 does not really need these texts.
Day, RA and Gastel, B. 2011. How to write and publish a scientific paper. 7th ed. Santa Barbara, CA: Greenwood Press. This text is preferred. The 5th edition is too dated for class use. You may use either the 6th or 7th editions.

Supplies
You must obtain at your own cost the following: textbooks, tri-fold poster for poster presentation, copies of papers required for your project (do off library databases).

F. STUDENT LEARNING OUTCOMES AND ASSESSMENT
By the end of this course, students should be able to perform these outcomes at a proficiency level of 70% or more:

1. Design and write professional scientific documents (resumes, personal statements) for use in employment searches or application to graduate and/or professional schools;
2. Distinguish between primary reports and reviews of scientific literature;
3. Describe and construct the components of primary scientific literature in the A-IMRAD format;
4. Design a hypothesis of a biological problem, based on extension of a problem from primary scientific literature;
5. Produce a poster and a Power Point presentation of the analysis of this biological problem;
6. Assess and critique the hypotheses, approach, and presentations of peers in a professional manner.
7. Assess and explain ethics in science, and classify examples of scientific misconduct.

G. INSTRUCTIONAL METHODS AND ACTIVITIES
1. Resume Career Developmt. 100 due R July 5
   cover letter is optional
2. Personal Statement (BIMS) Career Developmt. 100 due W July 11
If you are BIOL or ESCI, you can write a two minute elevator talk and a five minute introductory talk that you can do at a job interview. You must write it and do it orally on this day—the written version will be turned in.
3. Title & Abstract  
Instructor will give class a short paper missing the title and abstract ("decapitated paper"); they will write abstract and title of paper.

4. Bibliography 
Students will turn in a draft of their poster/power point bibliography. A minimum of eight (8) references is required, of which five (5) must be primary literature, and only two can be reviews. One source may be from the Internet; the entire URL must be given with the date accessed. **Student must format the bibliography in one specific journal style (Nature Climate Change, Environmental Research Letters, Current Opinion in Environmental Science, Wetlands, Atmosphere, Annals of Regional Science, European Journal of Remote Sensing, and GAIA), and state this format at the bottom of their first page. N.B: You will use the same topic to do the Bibliography, Poster and the Power Point presentation.**

5. Poster & Presentations 
--Students are required to make a poster of a research topic in their area of interest, and present this area as if they had done the research. You must also do a five (5) minute oral defense of this area, as if you were presenting this information at a meeting. Part of the evaluation in this area also includes peer and professor review (50% each). Some students may have to present a poster before they have received corrections on their bibliography.

6. Power Point Presentation 
Students must do a 10 to 15-slide Power Point presentation of their topic of interest (excluding the title slide). This presentation must run in length between 8 to 12 minutes for presentation, with 2 to 4 minutes for questions from their peers. The total time for presentation and questions should be 15 min, and MUST NOT exceed 20 minutes! Part of the evaluation also includes peer review (50%), as well as professor review (50%). **Note that the Power Point and the Poster will be on the same topic!!**

7. Final Exam 

8. Attendance 
You will get 10 points subtracted for the first unexcused absence (receive 40), 20 for the second (receive 30), and 50 pts for the third (receive zero). For the fourth absence, I subtract additional points, so you get 50 points taken away (-50).
H. MAJOR COURSE REQUIREMENTS AND GRADING

TOTAL POINTS: 1000  
A=900 pts  B=800-899  C=700-799  D=600-699  F<600  
Extra credit assignment may be given at the prerogative of the instructor, but are unlikely.  
Please see rubrics on Blackboard to see how assignments are graded.

F Aug 3 | Final Exam and/or Power Presentation make-up

Note: Changes in this course schedule may be necessary and will be announced to the class by the Instructor. The assignments and exams shown are directly related to the Student Learning Outcomes described in Section F.

J. COURSE POLICIES

Attendance/Tardiness
Students are expected to attend every scheduled class meeting and to be on-time. It is the responsibility of the student to obtain any material missed during an absence from his/her classmates. Power Points are not placed in the library and placement on Blackboard will be limited.

Late Work and Make-up Exams
Students will be given a Late Assignment Penalty for tardy work: 10% assignment grade deduction per class day late. However, after the 3rd day, late assignments will not be accepted. In-class late assignments are defined by being turned in after 10:05 am. Please note that class assignments may be sent to me by e-mail or slid under my office door; tardiness is determined by the time noted on the instructor’s Inbox, but allowances can be made for server problems. Files contaminated by viruses, spyware, and worms will not be accepted. DO NOT ASK THE CUSTODIANS to let you into my office to place an assignment on my desk.

Extra Credit
Probably none

Cell Phone Use
DO NOT USE CAMERA PHONES IN LECTURE. DO NOT SEND TEXT MESSAGES DURING CLASS. Please turn off all cell phones, beepers, Bluetooth devices, Black Berrys, etc., before entering the classroom, or at least place them on
silent mode. I would prefer that earpieces not be worn in lecture. DO NOT TAKE PHOTOS of Power Point slides or videos with your cell phone camera unless otherwise instructed. Recording of lectures with recorders can only be done with permission of instructor—please see me privately.

Laptop Use
I have no problems with any student using a laptop in class, as long as they are not looking at pornography, anime, videos, etc.

Food in Class
I prefer that you not eat or drink in class, but I will not throw you out or ask you to leave.

Missed Presentations/Exams
Missed presentations will have 10% deducted from the final grade, unless there is a valid excuse as defined by instructor. I define excused absences as emergency visits to the ER or physician or dentist; job, graduate and professional school interviews; death of close family members (siblings, in-laws, parents, aunts or uncles, step-parents, grandparents or great-grandparents, first cousins), or University-approved absences as described in the Catalogue and Student Handbook. I have also excused interviews for US Citizenship, student presentations at national scientific meetings, professional school interviews, but NOT weddings, engagement parties, baptisms, graduations, celebrations of your 21st birthday, etc. Note that make-ups for presentations may occur on the same day as the Final Exam. There is no make-up for the final exam; if you will be out of town on the day of the final, please make prior arrangements with instructor.

Participation
I expect that all members in the class will participate in the questioning, discussions, and interactions within the lecture. Formal assessment of class participation is not done as part of grade, but I do informally monitor it, and I will note it if you ask me for a letter of recommendation.

Others
Computer Literacy Requirement: ESCI 3202 includes use of various software programs (Word, Power Point, etc.) and students demonstrate computer competency within their assignments. All assignments must be typed on a computer using word processing programs—holographic assignments will not be accepted in most cases. "Successful completion of this class will satisfy the university computer literacy requirement."

K. COLLEGE AND UNIVERSITY POLICIES

Academic Integrity (University)
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is
the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a failing grade.

Classroom/Professional Behavior
Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

Statement of Civility
Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

Deadline for Dropping a Course with a Grade of W (University)
The grade of W will be assigned to any student officially dropping a course. Please consult with the instructor before you decide to drop to be sure it is the best thing to do. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Should dropping the course be the best course of action, visit the Office of the University Registrar for the Course Drop Form that must be submitted. You (the student) must initiate the paperwork in the Student Services Center (the “Round Building”). No student is eligible to receive a W without completing the official drop process by this deadline. Please consult the Academic Calendar (http://www.tamucc.edu/academics/calendar/) for the last day to drop a course.

Grade Appeals (College of Science and Engineering)
As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of
days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at http://www.tamucc.edu/provost/university_rules/index.html, and the College of Science and Engineering Grade Appeals webpage at http://sci.tamucc.edu/students/GradeAppeal.html. For assistance and/or guidance in the grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.

- **Disability Services**
  The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute (ADA of 1990, including the ADA Amendments from 2008 (PL 110-325), that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116.

  This act also includes **returning veterans** who may be experiencing cognitive and/or physical access issues in the classroom or on campus. If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

  http://disabilityservices.tamucc.edu/

  If you need disability accommodations in this class, please contact the instructor as soon as possible. If you have mobility problems, are pregnant, or you may have a history of seizures, please notify the instructor **PRIVATELY** so that assistance can be given in case of fire drills or emergencies. Dr. Buck should receive a Disabilities Accommodation Notice (hard copy or e-mail) from the Disabilities Office.

- **Statement of Academic Continuity**
  In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

  If class is cancelled due to a pending hurricane, that information is sent via your islander.tamucc.edu account. **It is strongly suggested that students have a functioning islander.tamucc.edu account!!** I will also try to send it within Blackboard
9.1, as stated above. **I will not send out personal information regarding grades through other types of e-mail servers, only through islander.tamucc.edu. Please make sure this account is working.**

*** Note that if class is cancelled, and a test, presentation or any other evaluation is postponed, that test, presentation or other evaluation will occur on the first day that faculty and students are allowed to return.

L. OTHER INFORMATION

**Opportunities List serve:** Please join and stay on this valuable source of information for jobs, summer programs and internships. If you have never joined the list serve, this is what you must do:

To subscribe, send a separate e-mail to opportunities-list-request@listserv.tamucc.edu. Make sure that your e-mail appears in the “From” heading. In the subject heading, type “subscribe,” then send the e-mail. Next, you will receive a second message with a long set of letters and numbers in the subject line. You **must also reply** to that message in order to be subscribed to the list-serve.

After the initial message to subscribe, to send items on the list-serve, just type opportunities-list@listserv.tamucc.edu (do NOT add –request after list). You may not receive the messages from the list-serve if your Internet service provider (Yahoo, Hotmail, Excite, Roadrunner, Grande, etc.) keep these messages from being placed in junk-mail.

**Academic Advising:**
The College of Science and Engineering requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. The College's Academic Advising Center is located in CI Suite 350, and can be reached at (361) 825-3928.

**GENERAL DISCLAIMER**
I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods.
