MATH 1316.001 Trigonometry
Department of Mathematics and Statistics
Summer I 2018 (05/29 ~ 6/29/2018)

A. COURSE INFORMATION
Course number/section: MATH 1316.001
Class meeting time: MTWR 12:00 – 1:53 pm
Class location: IH 157
Final Exam Dates: 6/29 Friday
Room & Time: during the class time (IH 157 at 12 pm)

B. INSTRUCTOR INFORMATION
Instructor: Haekyoung Choi
Office location: CI 351
Office hours: MTWR 2:00 – 3:15 pm
Email: haekyoung.choi@tamucc.edu
Appointments: Email for setting up an appointment

C. COURSE DESCRIPTION
This course covers trigonometric functions, identities, height and distance, equations involving Trigonometric functions, solutions of triangles, area, vectors and their basic applications, Inverse functions.

D. PREREQUISITES AND COREQUISITES
MATH 1314 or placement into MATH 1316.

E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES
Required Materials
- Person MyLabsPlus Student Access Code
  Access code for MyLabsPlus is required and can be purchased either in the university book store or online. Link for online homework is www.tamucc.mylabsplus.com

Optional
Trigonometry by Lial, Hornsby, Schneider, Daniels, 11th Ed. Publisher: Pearson.
(When you purchase the access code, it includes an electronic version of the textbook. So, it is not required to buy the hardcopy unless you prefer to do so. Also, Mary and Jeff Bell library reserve the required textbook for you to use it.)

F. STUDENT LEARNING OUTCOMES AND ASSESSMENT
Assessment is a process used by instructors to help improve learning. Assessment is essential for effective learning because it provides feedback to both students and instructors. A critical step in this process is making clear the course’s student learning outcomes that describe what students are expected to learn to be successful in the course. The student learning outcomes for this course are listed below. By collecting data and sharing it with students on how well they are accomplishing these learning outcomes students can more efficiently and effectively focus their learning efforts. This information can also help instructors identify challenging areas for students and adjust their teaching approach to facilitate learning.
Upon successful completion of this course, students will:

1. Compute the values of trigonometric functions for key angles in all quadrants of the unit circle measured in both degrees and radians.
2. Graph trigonometric functions and their transformations.
3. Prove trigonometric identities.
4. Solve trigonometric equations.
5. Solve right and oblique triangles.
6. Use concepts of trigonometry to solve applications.

G. INSTRUCTIONAL METHODS AND ACTIVITIES

Methods and activities for instruction include:

- Instructional presentation of new material and concepts,
- Class discussion and problem solving analysis using critical thinking techniques,
- Individual online assignments via MyLabPlus to enhance understanding of new concepts,
- Discovery method techniques supported by a graphing utility to view the effects of shifting and translation concepts on the functions,

H. MAJOR COURSE REQUIREMENTS AND GRADING

The student learning outcomes described in Section F will be measured via progress on homework, quizzes, tests and the final exam. Every problem in the homework can be worked multiple times until a correct answer is achieved. There is no reason not to obtain a 100 on every homework assignment. The final exam is comprehensive and is written by the Mathematics Department. All students will take a common final exam. I do expect you to remember all concepts that I teach as noted on this syllabus.

Final Exam on Friday (June 29th)

Attendance MANDATORY

Quiz (15%) The quizzes will be taken place in class. Any missed quizzes will receive a grade of zero (0), and there will be no makeups on missed quizzes without prior approval.

Homework (20%) There will be daily homework assignments given that you must do in order to truly understand the material. All homework assignments will be done online using MyLabPlus. www.tamu.mylabsplus.com

Exams (45%) There will be 3 exams during the semester, and the date of each will be announced at least one week advance. You will have reviews with solutions provided to study. The exams ARE NOT open note or book. Cheat-sheets will NOT be allowed during any exams. So, make
sure to memorize all the formulas. Makeup exams will not be given unless a student has to miss the exam for official university business or with valid written documents. If an exam is missed, the student’s final exam grade will replace the grade of the missed exam. If you do not miss an exam, your final exam grade will replace your lowest exam grade only if your final exam grade is higher than the other.

**Final Exam (20%)**
The departmental common final exam will be comprehensive and set for all students who are in Math1314 on the same day (Friday, June 29th). There will be NO MAKEUP for the final exam. You will need a pencil and a calculator. If your final exam is higher than one of your lowest test grades or a missed one, then the final exam will replace that test grade. The final exam can ONLY replace ONE TEST grade.

I. **COURE CONTENT/SCHEDULE (Tentative)**

### J. Coure Policies

#### Attendance/Tardiness
Attendance is mandatory by Texas A&M University. Everyday a new topic is covered, and any material that is missed could affect your progress. If you have to miss, please make sure that you get the notes from someone. Also, you are responsible for what is due that week when you are absent. Assignments are available 24 hours per day for the entire week it is due. There will be no excuses for missing assignments unless it is an absolute emergency with documentation.

#### Late arrival to exams
If you arrive at any exam after the first person has completed the exam and left the room, you will not be allowed to take the exam.

#### Missed Exam
Makeup exams will generally NOT be administered. Final exam can replace one missed exam. The exception can be made only with written evidence of an official University excused absence. For an absence to be considered excused, the student must notify his or her instructor in writing (acknowledged e-mail message is acceptable) prior to the date of absence if such notification is feasible. In cases where advance notification is not feasible (e.g. accident or emergency) the student must provide notification by the end of the second working day after the absence. In the case of illness or injury, students are required to obtain a confirmation note from a health care professional affirming date and time of a medical office visit regarding the illness or injury.

#### Make-up Quizzes
NO MAKEUPS will be given for quizzes. You will receive a zero for any missed quizzes.

#### Extra Credit
There is no extra credits in this course.

#### Use of electronic devices in class/during exams
Other than a calculator, any use of an electronic device that could disrupt the class must be TURNED OFF or SILENCED. Also, no sound or video recording may be used during lecture or lab without the instructor’s prior approval. These electronic devices include: cellphones, laptops, tablets, and WEB access devices, etc. Any use of such device during an exam will result in a ZERO on that exam.
K. COLLEGE AND UNIVERSITY POLICIES

- **Academic Integrity (University)**
  University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a failing grade.

- **Classroom/Professional Behavior**
  Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the student code of conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the student code of conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

- **Student of Civility**
  Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

- **Deadline for Dropping a Course with a Grade of W (University)**
  I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Please consult the Academic Calendar (http://www.tamucc.edu/academics/calendar/) for the last day to drop a course.

- **Grade Appeals (College of Science and Engineering)**
  As stated in university procedure 13.02.99.C2.01, Student grade appeal procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at
http://www.tamucc.edu/provost/university_rules/index.html, and the College of Science and Engineering Grade Appeals webpage at http://sci.tamucc.edu/students/GradeAppeal.html. For assistance and/or guidance in the grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.

- **Disability Services**
  The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116.

  If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816. [http://disabilityservices.tamucc.edu/](http://disabilityservices.tamucc.edu/)

- **Statement of Academic Continuity**
  In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University-Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

L. **OTHER INFORMATION**

- **Academic Advising**
  The College of Science & Engineering requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. Meetings are by appointment only; advisors do not take walk-ins. Please call or stop by the Advising Center to check availability and schedule and appointment. The College’s Academic Advising Center is located in Center for Instruction 350 or can be reached at (361) 825-3928.

- **CASA**
  The Center for Academic Student Achievement is your best free resource on campus. It provides free academic support through tutoring, counseling, and helps you navigate through higher education. The CASA website is: [http://casa.tamucc.edu/](http://casa.tamucc.edu/)

**GENERAL DISCLAIMER**
I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods.
