SMTE 1351 Fundamentals of Mathematics II
Department of Mathematics and Statistics
Fall 2017

A. COURSE INFORMATION

Course number/section: CRN 41053, SMTE 1351.001
Class meeting time: Monday, Wednesday & Friday 11:00AM-11:50AM
Class location: CS-107, and online components
                (unless specified otherwise by Course Schedule)
Course Website: TAMU-CC Blackboard https://bb9.tamucc.edu

B. INSTRUCTOR INFORMATION

Instructor: Celil Ekici
Office location: CI-358
Office hours: Monday, Wednesday & Friday 12:00PM-2:00PM
              Tuesday 5:00pm-6:00pm
              Wednesday online via WebEx, and by appointment
Telephone: (361) 825-2819 (office)
E-mail: celil.ekici@tamucc.edu
Appointments: Please email me, and include information about your availability during the
               week you would like to meet with me.

C. COURSE DESCRIPTION

Catalog Course Description
The conceptual framework for understanding and applying properties, models, and
operations related to various data systems in problem solving settings.

Extended Course Description
This is a required mathematics content course addressed to future teachers.

D. PREREQUISITES AND COREQUISITES

Prerequisites: SMTE 1350 Fundamentals of Math I.
Corequisites: None.
E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES

Required Textbooks

- MyLabsPlus Access is required for this class. The hard copy of the textbook is not required (MyLabsPlus will give you access to a digital copy of the textbook).

- We recommend the same textbook used for SMTE 1350 Mathematical Reasoning for Elementary Teachers by Long, De Temple, and Millman 7th edition with MyMathLab Access, Custom Package for Texas A&M University Corpus Christi, Pearson Custom Publishing. Students will be required to have an access code for MyLabsPlus (needs to be purchased from our campus bookstore only if it is the first time students use it, otherwise the old access credentials used for SMTE 1350 should work – if associated with Long’s 7th edition).

- The Website for MyLabsPlus is www.tamucc.mylabsplus.com. Students will use their Island ID as their username and either use a previous password or ask for a new one. The MyLabsPlus help line is 1 888-883-1299.

The course will cover chapters 7, 13, and 14 in the textbook.

Optional Textbooks or Other References

Texas Essential Knowledge and Skills for Mathematics
http://ritter.tea.state.tx.us/rules/tac/chapter111

Supplies

A graphic calculator TI 83, TI 84 or TI 84 Plus, regular access to high speed internet and MS Office applications (e.g., Word, Power Point, Excel). Softwares such as GeoGebra available from geogebra.org for experimentation.

F. STUDENT LEARNING OUTCOMES AND ASSESSMENT

Assessment is a process used by instructors to help improve learning. Assessment is essential for effective learning because it provides feedback to both students and instructors. A critical step in this process is making clear the course’s student learning outcomes that describe what students are expected to learn to be successful in the course. The student learning outcomes for this course are listed below. By collecting data and sharing it with students on how well they are accomplishing these learning outcomes students can more efficiently and effectively focus their learning efforts. This information can also help instructors identify challenging areas for students and adjust their teaching approach to facilitate learning.

By the end of this course, students should be able to:

1. Use, model, justify and explain relationships, operations and algorithms involving rational numbers, ratios, proportions and percent; as well as compare and contrast proportional and non-proportional relationships.

2. Create, use and explain a variety of appropriate data displays (tables, charts, graphs) and basic descriptive statistics that summarize data sets; compare and contrast the various representations.
3. Create, use and evaluate simulations and models that explore simple and compound experimental probability events. Use, justify and explain appropriate counting techniques, including permutations and combinations, to determine theoretical probabilities. Discuss the similarities and differences between experimental and theoretical probabilities.

4. Identify correct and incorrect mathematical reasoning, and analyze error patterns present in EC-6 student work, and suggest remediation for these errors.

5. Write, and solve mathematical problems that involve proportional, probabilistic, and statistical reasoning, as well as basic ideas of mathematical modeling, in a variety of mathematical or non-mathematical settings.

6. Communicate mathematical ideas appropriately through multiple representations, including oral and written words, concrete manipulative materials and pictures, graphs, tables, and symbols.

G. INSTRUCTIONAL METHODS AND ACTIVITIES

This is a course with up to 24 percent online components, recommended only for highly disciplined students who can commit to a rigorous schedule of individual study. The in-class instructional activities are designed under the assumption that students will have completed their online assignments before coming to class. Those in-class instructional activities will build upon the mathematical content of the online assignments. Students will be required to justify their solutions and critique their peers’ solutions to problems publicly (i.e., in class, in front of their peers), give individual or group presentations, and participate in whole-class discussions and activities.

H. MAJOR COURSE REQUIREMENTS AND GRADING

Grades will be based on the percentage of total points the student earns. There will be points given on the following:

<table>
<thead>
<tr>
<th>ACTIVITY/ASSIGNMENT</th>
<th>% of FINAL GRADE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Online Homework (MyLabsPlus 25% and Blackboard/Discussion Forum 25%)</td>
<td>50%</td>
</tr>
<tr>
<td>Quizzes (face-to-face, in class, unannounced)</td>
<td>10%</td>
</tr>
<tr>
<td>Midterm Exam (face-to-face)</td>
<td>10%</td>
</tr>
<tr>
<td>Class Participation</td>
<td>10%</td>
</tr>
<tr>
<td>Final Project (face-to-face)</td>
<td>20%</td>
</tr>
</tbody>
</table>

The Online Homework, Quizzes and the Exam will be graded based on the number of correct answers. Specific directions for course activities/assignments (e.g., content, format, submission, deadlines, feedback) will be announced in class and/or posted on TAMUCC-Blackboard, at https://bb9.tamucc.edu/. The Final Project and some of the classroom activities requiring a presentation will be graded using the following Grading Rubric:
### Category

<table>
<thead>
<tr>
<th></th>
<th>4 Exemplary</th>
<th>3 Good</th>
<th>2 Satisfactory</th>
<th>1 Unsatisfactory</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject knowledge</td>
<td>Demonstrates subject knowledge throughout the entire assignment.</td>
<td>Demonstrates subject knowledge most of the time.</td>
<td>Demonstrates some subject knowledge.</td>
<td>Subject knowledge is not demonstrated.</td>
</tr>
<tr>
<td>50%</td>
<td>All information is clear, appropriate, and accurate.</td>
<td>Most of the information is clear, appropriate, and accurate.</td>
<td>Some information is clear, appropriate, and accurate.</td>
<td>Information is confusing, insufficient, inappropriate, and inaccurate.</td>
</tr>
<tr>
<td></td>
<td>The solutions to all problems are correct.</td>
<td>Most of the solutions to problems are correct, some solutions have</td>
<td>Some solutions to problems are correct.</td>
<td>Most of the problems have incorrect solutions.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>minor errors.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Organization</td>
<td>The sequence of information/proof is logical and well organized.</td>
<td>The sequence of information/proof is well organized.</td>
<td>Some parts of the sequence of information/proof is organized.</td>
<td>The sequence of information/proof is disorganized.</td>
</tr>
<tr>
<td>30%</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Communication</td>
<td>Excellent written communication of ideas/ excellent integration of spoken</td>
<td>Good written communication of ideas, most of the time/good integration</td>
<td>Some parts are well written, and ideas are communicated effectively / some</td>
<td>The written paper is hard to follow, ideas are not communicated effectively / the</td>
</tr>
<tr>
<td>(written paper,</td>
<td>and visual presentation)</td>
<td>of spoken and visual presentation, most of the time.</td>
<td>parts of the presentation are coordinated orally and visually.</td>
<td>presentation is hard to follow, the spoken and visual presentation are not</td>
</tr>
<tr>
<td>and/or ppt and</td>
<td></td>
<td></td>
<td></td>
<td>integrated.</td>
</tr>
<tr>
<td>oral presentation)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>20%</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Final grades will be assigned according to the following table:

**Percentage Grade**

- ≥90.0%    A
- ≥80.0%    B
- ≥70.0%    C
- ≥60.0%    D
- Below 60% F

### I. COURSE CONTENT/SCHEDULE

<table>
<thead>
<tr>
<th>WEEK/DATE</th>
<th>TOPICS</th>
<th>CHAPTERS</th>
<th>ASSIGNMENTS</th>

<td>9/27, 9/29</td>
<td>7.4 Percent</td>
<td>Chapter 7</td>
</tr>
<tr>
<td>Week 7</td>
<td>10/2, 10/6 class</td>
<td>Midterm Exam</td>
<td>Chapter 7</td>
</tr>
<tr>
<td>Week 8</td>
<td>10/9, 10/11, 10/13</td>
<td>13.1 Organizing and Representing Data, 13.2 Measuring the Center and Variation of Data</td>
<td>Chapter 13</td>
</tr>
<tr>
<td>Week 9</td>
<td>10/16, 10/18, 10/20</td>
<td>13.3 Statistical Inference</td>
<td>Chapter 13</td>
</tr>
<tr>
<td>Week 10</td>
<td>10/23, 10/25, 10/27, 10/30</td>
<td>Starting Projects</td>
<td>Project Based Learning Overview</td>
</tr>
<tr>
<td>Week 12</td>
<td>11/13, 11/15, 11/17a</td>
<td>14.3 Permutations and Combinations</td>
<td>Chapter 14</td>
</tr>
<tr>
<td>Week 13</td>
<td>11/17b-11/20</td>
<td>14.4 Theoretical Probability</td>
<td>Chapter 14</td>
</tr>
<tr>
<td>Week 14</td>
<td>11/22*, 11/24</td>
<td>Thanksgiving- No classes</td>
<td>*Online review of 14.4</td>
</tr>
<tr>
<td>11/27, 11/29</td>
<td>Review Chapter 14 Project Presentations</td>
<td>Chapter 14</td>
<td>Online Review Chapter 14 (MyLabsPlus) Project Presentations</td>
</tr>
<tr>
<td>Week 15</td>
<td>12/4, 12/6</td>
<td>Final Review Presentations</td>
<td>Chapters 7, 13, 14</td>
</tr>
<tr>
<td>Week 16</td>
<td>12/8</td>
<td>Final Exam (Final Project)</td>
<td>Chapters 7, 13, 14</td>
</tr>
</tbody>
</table>

- Please note that up to 24 percent of the class will be online.

**Important Days from Academic Calendar**

- September 4, Monday Labor day Holiday
- September 5, Tuesday Last day to late register or add a class
- October 2, Monday Last day to apply for December graduation
- November 15, Wednesday Last day to drop a class
- November 22, Wednesday Reading Day-No Class
- November 23-24, Thursday-Friday Thanksgiving Holidays
- December 5, Tuesday Last day to withdraw from the University
- December 6, Wednesday Last day of classes and
- December 7, Thursday Reading Day

Note: Changes in this course schedule may be necessary and will be announced to the class by the instructor. The assignments and exams shown are directly related to the Student Learning Outcomes described in Section F.
J. COURSE POLICIES

Attendance/Tardiness
You are expected to attend every class session, and arrive on time. There is no make up for class activities, you need to be present to participate. All the absences will be considered “unexcused” unless you have an exceptional situation (e.g., documented illness, family situation), and you email the instructor about it.

Late Work and Make-up Exams
Late assignments will not be accepted, unless exceptional circumstances prevent you from completing them. Extension of deadlines will be at the instructor’s discretion. Late assignments may result in partial or total loss of credit. There are NO make-ups for quizzes, exams or in-class activities. Two of the lowest grades for quizzes will be dropped (i.e., will not count toward the overall grade).

Extra Credit
There will be no extra credit for this course.

Cell Phone Use
Please silence phones before coming to class. If you need to take a call, please go outside the classroom.

Laptop Use
In general, you cannot use your laptops during class activities or exams. For special circumstances (e.g., presentations), or special needs, please talk with the instructor.

Food in Class
Refrain from bringing food to class. For special needs or occasions, please talk with the instructor.

Missed Exam
Exceptional circumstances (e.g., documented illness, family situations) may be considered at the instructor’s discretion.

Participation
You are expected to come to class prepared every time, and participate in class activities.

K. COLLEGE AND UNIVERSITY POLICIES

- Academic Integrity (University)
  University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is
the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a failing grade.

- **Classroom/Professional Behavior**
  Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

- **Statement of Civility**
  Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

- **Deadline for Dropping a Course with a Grade of W (University)**
  I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. **Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course.** Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Please consult the Academic Calendar (http://www.tamucc.edu/academics/calendar/) for the last day to drop a course.

- **Grade Appeals (College of Science and Engineering)**
  As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at http://www.tamucc.edu/provost/university_rules/index.html, and the College of Science and Engineering Grade Appeals webpage at http://sci.tamucc.edu/students/GradeAppeal.html. For assistance and/or guidance in the
grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.

- **Disability Services**
  The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116.

  If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.
  
  http://disabilityservices.tamucc.edu/

- **Statement of Academic Continuity**
  In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

### L. OTHER INFORMATION

- **Academic Advising**
  The College of Science & Engineering requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. Meetings are by appointment only; advisors do not take walk-ins. Please call or stop by the Advising Center to check availability and schedule an appointment. The College’s Academic Advising Center is located in Center for Instruction 350 or can be reached at (361) 825-3928.

**GENERAL DISCLAIMER**

I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods.
