Required Text:
John Macionis. Sociology (current Edition)

Course Objective
Sociological inquiries operate at macro and micro levels. At the macro level sociologists study "institutions of advanced or industrialized societies and ... the conditions of transformation of these institutions" (Giddens, 1992:11). At the micro level, the focus is, primarily, with more immediate and intense levels of everyday interactions (Boden, 1986).

The principal objective of this course is to expose students to the theoretical, methodological and substantive issues that have engaged both levels of inquiry since the latter half of the 19th Century. Since this is an introductory course my approach will be panoramic: some depth will be sacrificed for comprehensiveness.

Student Learning Objectives
At the end of this course students are expected to:
1. describe the basic concepts, methods and theories in sociology;
2. understand the relationship between technology and social change;
3. recognize the reciprocal relationship between individual and society.
**Course Format**
The first 50 minutes of each class will be spent on straight lectures. The remaining 25 will be spent on questions and/or discussion. The reason for this format is to ensure that students are sufficiently exposed to the topic of day before they ask questions. When appropriate and possible, films and/or slides will be used to buttress class lectures. I will also invite some guest lecturers to share with us some of their expertise on specific social issues.

**Course Requirement**
Your final grade for this course will be based on the following.

First Examination.................................................................20%
Second Examination............................................................20%
Third Examination.............................................................20%
Final Examination.............................................................20%
Critique of “The promise.”...................................................5%
Civic participation/Report....................................................5%
Inequality Table Interpretation.............................................10%
Total....................................................................................100%

**Letter Equivalents**

90-100% = A  
80-89 = B  
70-79 = C  
60-69 = D  
<60 = F

All four exams will take the form a combination of essay and multiple choice questions. Exams must be taken at the scheduled times and place. Make-up exams are allowed only for validly supported medical and/or personal emergencies. The instructor reserves the right to determine the merits of each request for a make-up examination. Extra credit is not allowed.

**Class Attendance**
Class attendance is important and required. There is, however, a maximum of three penalty-free absences allowed for personal/family emergencies. Every other non-officially excused absence will be penalized with a three percentage-point deduction from final grade. Regardless of the reason(s) for one’s absence, students are personally responsible for recovering materials taught during their
absence from class. It is recommended, therefore that students develop responsible, professional relationships with two or more other students for class lecture notes taken on the day(s) that they are absent.

**Academic Advising**

The College of Liberal Arts requires that students meet with an Academic Advisor as soon as they are ready to declare a major. Degree plans are prepared in the CLA Academic Advising Center. The University uses an online Degree Audit system. Any amendment must be approved by the Department Chair and the Office of the Dean. All courses and requirements specified in the final degree plan audit must be completed before a degree will be granted. The CLA Academic Advising Office is located in Driftwood #203. For more information please call 361-825 3466.

**Disability Services**

The American with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe that you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall, Room #116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services Office for assistance at (361) 825-5816.

**Grade Appeals Process**

As stated in University Procedure 13.02.99.C2.03, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in this class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first
discuss the matter with the instructor. For complete
details, including the responsibilities of the parties
involved in the process and the number of days allowed for
completing the steps in the process, see University
Procedure 13.02.99.C2.03, Student Grade Appeals. These
