Texas A&M University – Corpus Christi  
College of Business  
Course Syllabus for Microeconomics Principles (ECON 2302), Section 01  
Summer 2019

Course number: ECON 2302.001  
Instructor: Ahmed H. Kamara

Semester: Summer 2019  
Office Location: OCNR 373

Classroom: OCNR-117  
Office Telephone: 361-825-5802

Class Time: MTWR, 2:00 pm - 3:55 pm  
Email: ahmed.kamara@tamucc.edu

**Course Description**

The main objective of this course is to teach you to think and approach economic problems “like an economist.” To achieve this, this course will endow you with the tools that will help you understand and analyze the economic issues. Demand and supply, consumer behavior, elasticity, production costs, perfect and imperfect market structures and models of the modern market price system are analyzed. Emphasis is on use of marginal analysis to determine prices, output, income and economic welfare in a market price system. Satisfies the social and behavioral sciences component of the University core curriculum.

**Course Prerequisites**

None. However, students taking remedial courses in Basic English (ENGL 0399) and/or Mathematics (MATH 0398 & 0399) are not recommended to take this course concurrently.

**Learning Objectives**

By the end of this course, students would be able to:

- Understand the structure of a market for a particular good or service and the efficiency to which economic resources can be allocated through the market system (BBA Goal 2, Objective 1)
• Understand the concept of elasticity and its applications in pricing decisions and in assessing the burden of a per unit tax (BBA Goal 2, Objective 1)

• Be cognizant of the factors that influence whether or not an individual’s purchases a good which leads to the goal of satisfaction (utility) maximization. (BBA Goal 3, Objective 1).

• Identify the four market structures that a firm could be part of and the differences between those market structures (BBA Goal 2, Objective 1 and 3).

• Understand the role of marginal analysis in determining the optimum level of production and prices (BBA Goal 2, Objective 1).

• Effectively review and prepare for the Major Field Test for business majors (BBA Goal 2, Objective 1)

**ECON2301 IN THE CORE CURRICULUM**

**Relationship to the University Core Curriculum Program:** As an integral part of TAMU-CC’s Core Curriculum Program within the framework of the various curriculum perspectives outlined in the Texas A&M University-Corpus Christi Undergraduate Catalog, through its extensive coverage of related topics and other course requirements, Economics 2302 seeks to enhance students’ intellectual skills in the areas of written and oral communications, mathematical competency and critical thinking.

**How Economics 2302 enhances the Texas Core Curriculum skills:**
Throughout the course, students in Economics 2302 will have ample opportunities to enhance their proficiency in the four intellectual skills specified in the TCC in relation to social and behavioral sciences:

**Communications Skills (COM)**
Students do have opportunities to participate in class discussions, ask and answer questions. Homework assignments offer another opportunity for students to exchange ideas in class and/or online and to enhance their listening skills. Students also submit written answers and/or written projects to improve written communication skills with regard to discussing economic issues.

**Critical Thinking Skills (CT)**
The study of economics is not possible without enhancing the critical thinking skills (CT) found within the TCC core curriculum objectives. The fundamental economic concept of “opportunity cost” and its applications in decision-making process provide Economics 2302 students with a valuable critical thinking tool. The opportunity to employ economic theories and policies to analyze current issues also encourages students to sharpen their critical thinking skills.

**Empirical and Quantitative Skills (EQS)**
The study of economics also requires a certain level of empirical and quantitative skills (EQS) found within the TCC core objectives. ECON 2302 requires data analysis and computation in a variety of economics topics.
Social Responsibility (SR)
In ECON 2302, Students are given the chance to study topics that may include economic growth, development, government policy, income distribution, incentives, and property rights. These topics introduce a variety of ethical and intercultural issues that address social responsibility.

Major Field Test (MFT)
This course has been identified as critical to student mastery of the content covered by the Major Field Test (MFT). The MFT is required for all students pursuing the Bachelor of Business Administration degree. Students register for the MFT in BUSI0088, Major Field Test in Business. To prepare for this test, business majors are advised to retain their class notes, textbooks, and other relevant materials from their business core courses in the areas referenced below. Completion of all College of Business core courses except MGMT 4388 is required. BUSI 0088 is CR/NC.

As an integral part of the College of Business’ Assurance of Learning program, the Major Field Test (MFT) is a nationally-normed, standardized multiple-choice test developed by the Educational Testing Service and administered to senior-level business students at many AACSB International accredited institutions in the United States. It is designed to measure students’ academic achievement through demonstration of their basic knowledge and understanding of key concepts, theories, and analytical methods in the functional areas of business. This test covers the areas of accounting, economics, finance, international issues, legal and social environment of business, management, marketing, quantitative business analysis, and information systems.

Performance Evaluation and Grading
Student performance will be evaluated on the basis of homework, quizzes and three exams. The material covered on exams may include scheduled material from the text, lectures and other activities such as homework assignments. There are also extra credit opportunities through class attendance and in-class activities.

Exams: 55%
There will be three (3) exams. Of the 3 exams, your highest-grade accounts for 25% of your overall grade, your middle grade accounts for 20%, whereas your lowest grade accounts for 10%. If you miss one of the exams, and you presented an official, acceptable, and verifiable excuse BEFORE the exam, you will be allowed to makeup the exam that you missed as soon as possible.

Homework and Quizzes: 45%
Homework and quizzes are an important part of the course and is worth 45% of the overall grade. These would be assigned and scored online in Blackboard.

Extra Credit: Up to 5%
Attendance is REQUIRED and would be MONITORED throughout the semester. Your record of attendance and other in-class activities would determine how much extra credit you are awarded. Generally, a 100% attendance would guarantee 5% extra credit.

The Official Course Grade is determined by the following scale:

A = 90% or above
B = 80% - 89.99%
C = 70% - 79.99%
D = 60% - 69.99%
F = below 60%
Example on how to calculate your final grade: A student scores 79%, 95%, and 88% on her three exams. She also scores a total of 96% on her homework and quizzes. Her final grade before any extra credit is obtained as follows:

\[79(0.1) + 88(0.2) + 95(0.25) + 96(0.45) = 92.45\% = A\]

The student’s performance, not the instructor, determines the course grade. No additional work will be given after the final exam to supplement a course grade. Grades are given based solely on student performance, not needs or any personal reasons. It is the students’ own responsibility to ensure that all scores are correct.

NOTE: Do NOT rely on the percentage reported to you by Blackboard. That score is based on what you have submitted, NOT on what has been assigned.

Exam Calendar (Tentative)
Exam 1: Wed, June 12
Exam 2: Fri, June 21
Exam 3: Wed., July 3 (Last day of class)

Important University Dates and Policies
For important university days please visit [http://www.tamucc.edu/academics/calendar/2018_fall.html](http://www.tamucc.edu/academics/calendar/2018_fall.html)
For academic policies please go to [http://catalog.tamucc.edu/content.php?catoid=6&navoid=177](http://catalog.tamucc.edu/content.php?catoid=6&navoid=177)

Other Aspects of the Course
Relationship to Other Coursework: The student will have an opportunity to apply quantitative skills introduced in other courses to solve economic problems. In addition, this course will emphasize the following specific skills: mathematical competency, critical thinking, writing, reading, listening and speaking. The emphasis on the development of these specific skills in this course should benefit the student in other courses undertaken regardless of major.

Ethical Perspectives: This course considers both the positive approach to macroeconomic issues (i.e., what is) and the normative approach (i.e., what ought to be). As a result, students can develop insight into ethical issues.

Global Perspectives: Global economic trends, the economic performance and trade policy impact macroeconomic analysis and policy decisions. As a result, the global and intergenerational perspectives are critical to macroeconomic study.

Demographic Diversity Perspectives: Macroeconomic policy impacts various demographic groups differently, while these groups are also able to influence macroeconomic policy differently. Hence, the distributional effects of macroeconomic policy will be examined and discussed.

Political, Social, Legal, Regulatory, and Environmental Perspectives: In discussing the role of the government in an economy, various political, social, legal, regulatory, and environment issues and questions arise. These questions and issues are examined in the macroeconomic context, and sometimes, from the macroeconomic viewpoint.
**Attendance Policy:** Students are held responsible for class attendance. Class attendance is a necessary but not sufficient condition for active class participation and satisfactory course performance. Students absent from classes are responsible for making arrangements to submit assignments due, material discussed, and announcements made in class. Assignments/quizzes and exams missed due to absences cannot be made up except for illness, official university travel or other emergencies, in which case a doctor’s note or other official documentation is required to accompany the assignment. Class attendance will be taken, and good attendance will be considered when assigning final letter grades if a student’s average is just below the borderline cutoff between letter grades.

*Extra Credit* will be made available from time to time, with each extra credit opportunity worth a maximum of 10%.

**Cell Phone/Electronic Device Usage:** Cell phones are not to be used during class. If your individual circumstances REQUIRE that you be available for an urgent phone call, you should turn your ringer on silent. You may not use a laptop for taking notes, unless preapproved by Dr. Kamara, and in such a case, you will be required to sit in the first or second row.

**Academic Integrity/Plagiarism**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a score of zero for the assignment or test, and possibly (1) the grade of “F” for the course, and/or a record of this offense in your permanent university file.

Turning in another student’s work (assignments, quizzes, exams, etc.) without the knowledge of the instructor constitutes forgery of both the student turning in another one’s work and the student who completes the work.

**Student Code of Ethics:** This course, and all other courses offered by the College of Business (COB), requires all of its students to abide by the COB Student Code of Ethics (available online at [www.cob.tamucc.edu](http://www.cob.tamucc.edu)). Provisions and stipulations in the code are applicable to all students taking College of Business courses regardless of whether or not they are pursuing a degree awarded by the COB.

**Dropping a Class**
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. **June 21** is the last day to drop a class with an automatic grade of “W” this term.

**Statement of Civility**
Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high-quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal
government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

**Grade Appeals***
As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at [http://www.tamucc.edu/provost/university_rules/index.html](http://www.tamucc.edu/provost/university_rules/index.html). For assistance and/or guidance in the grade appeal process, students may contact the Dean’s office in the college in which the course is taught or the Office of the Provost.

**Disabilities Accommodations***
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in Corpus Christi Hall 116.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

**Statement of Academic Continuity**
In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi: this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

**Last Day of Withdrawal:** Only students who complete the course withdrawal form to withdraw from all classes by the **June 21** deadline will receive an automatic grade of “W.”
**ECON 2302 TENTATIVE* COURSE OUTLINE**

- Trade-offs, Comparative Advantage, Market System / Comparative Advantage and Gains from International Trade.
- Supply and Demand.

**Test 1, June 12**

- Economic Efficiency, Government Price Setting, and Taxes.
- Elasticity: Responsiveness of Supply & Demand.
- Consumer Choice and Behavioral Economics.

**Test 2, June 21**

- Technology, Production, and Costs.
- Firms in Perfectly Competitive Markets.
- Monopoly.

- Monopolistic Competition (*Time permitting*).
- Oligopoly and Game Theory (*Time permitting*)

**Test 3, July 3 (Last day of class)**

* Schedule may change due to unexpected circumstances. Any such changes will be announced in class and on Bb.
