MATH-2413, CALCULUS I
DEPARTMENT OF MATHEMATICS & STATISTICS
FALL 2018

A. COURSE INFORMATION
   Course Number/Section: MATH 2413.006
   Class Meeting Time & Location: Section 006—MWF 12:00-12:50PM, OCNR-132
   Course Website: bb9.tamucc.edu

B. INSTRUCTOR INFORMATION
   Instructor: Dr. B. Veena S. N. Rao
   Office Location: CI-213A
   Office Hours: MW 11.00AM-12.00PM, TTH-10.00AM-11.30AM
   Telephone: 361-825-3613
   e-mail: bv.rao@tamucc.edu
   Appointments: Contact me by e-mail to set up an appointment

C. COURSE DESCRIPTION
   Catalog Course Description
   Limits, continuity, derivatives, applications of the derivative, and an introduction to integrals. Contains a laboratory component. Counts as the mathematics component of the University Core Curriculum.

D. PREREQUISITES FOR THE COURSE
   Prerequisites
   Prerequisites: Math 1314 (College Algebra) and Math 1316 (Trigonometry), or Math 2312 (Pre-calculus), or placement beyond Math 2312.

   Corequisites
   Enrollment in lab MATH 2413.

E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES
   Required Textbook(s)
   Calculus: Early Transcendentals, 8th edition by James Stewart, published by Cengage+
   Enhanced WebAssign Access Card for Calculus, Multi-Term Courses.

   Optional Textbook(s) or Other References
   None.

   Supplies
   A graphic calculator TI 83, TI 84 or TI 84 Plus, regular access to high speed internet and Microsoft Office applications (e.g., Word, Power Point).
F. STUDENT LEARNING OUTCOMES AND ASSESSMENT

Assessment is a process used by instructors to help improve learning. Assessment is essential for effective learning because it provides feedback to both students and instructors. A critical step in this process is making clear the course's student learning outcomes that describe what students are expected to learn to be successful in the course. The student learning outcomes for this course are listed below. By collecting data and sharing it with students on how well they are accomplishing these learning outcomes students can more efficiently and effectively focus their learning efforts. This information can also help instructors identify challenging areas for students and adjust their teaching approach to facilitate learning.

By the end of this course, students should be able to:

- Calculate and determine the existence of limits using the definition of limit, basic properties, and l'Hospital’s Rule. Use calculations of limits to determine local and end behavior of functions.
- Calculate derivatives of functions from the definition, by applying appropriate rules, and by using implicit and logarithmic differentiation.
- Interpret derivatives as slopes of tangent lines and instantaneous rates of change. Relate units of a derivative to the units of the dependent and independent variable.
- Apply derivatives of functions appropriately to: create linearization and differentials of functions; determine and apply related rates of change to solve problems; solve optimization problems; and determine geometric features of graphs of functions.
- Determine if functions meet hypotheses of theorems and draw appropriate conclusions. Give examples and counterexamples.
- Use Riemann sums to approximate areas and to estimate accumulations of rates.
- Use anti-derivatives, the Fundamental Theorem of Calculus, and appropriate u du substitutions to evaluate integrals. Then interpret the results of integration as either a signed area under a curve, or as a function.
- Recognize and determine the relationships between the graphs of a function, its derivatives and its integral.

G. INSTRUCTIONAL METHODS AND ACTIVITIES

A variety of instructional methods may be used depending on content area. These include but are not limited to: lecture, multimedia, cooperative/collaborative learning, labs and demonstrations, projects and presentations, performances, and learning experiences outside the classroom. Methodology will be selected to best meet student needs.

H. MAJOR COURSE REQUIREMENTS AND GRADING
The expected learning outcomes for the course will be assessed by Web Assign homework assignments, quizzes, two mid terms, and a comprehensive final exam.

**Quiz/Homework:** A short quiz will be given on every Friday. Online Webassign Homeworks will be assigned and due on every Wednesday.

**Final grade:** Homework, Quizzes and tests are counted towards the final grade with weights as follows:

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>% of FINAL GRADE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>10%</td>
</tr>
<tr>
<td>Quiz</td>
<td>15%</td>
</tr>
<tr>
<td>2 Midterms</td>
<td>40%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>35%</td>
</tr>
</tbody>
</table>

Based on the above, grades will be assigned according to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>60-69</td>
</tr>
<tr>
<td>F</td>
<td>0-59</td>
</tr>
</tbody>
</table>

### I. COURSE CONTENT/SCHEDULE

**Important Dates:**

- **Mid Term I:** Friday, October 5.
- **Mid Term II:** Friday, November 9.
- **November 22 – 23, Thanksgiving Holidays**
- **Final Exam,** Friday, December 7, 1:45-4:15 pm

**Course Outline:**

- Week 1 (Aug 27 - Aug 31): Review from Chapter 1
- Week 2 (Sep 3 - Sep 7): Sections 2.1-2.3
- Week 3 (Sep 10 - Sep 14): Sections 2.4-2.6
- Week 4 (Sep 17 - Sep 21): Sections 2.7, 2.8, 3.1
- Week 5 (Sep 24 - Sep 28): Sections 3.2, 3.3, 3.4
• Week 6 (Oct 1 - Oct 5): Review and Midterm exam-I
• Week 7 (Oct 8 - Oct 12): Sections 3.5-3.7
• Week 8 (Oct 15 - Oct 19): Sections 3.8, 3.9, 4.1
• Week 9 (Oct 22 - Oct 26): Sections 4.2-4.4
• Week 10 (Oct 29 - Nov 2): Sections 4.5 - 4.7
• Week 11 (Nov 5 - Nov 9): Section 4.8, Review and Midterm exam-II
• Week 12 (Nov 12 - Nov 16): Sections 4.9, 5.1, 5.2
• Week 13 (Nov 19 - Nov 23): Section 5.3
• Week 14 (Nov 26 - Nov 30): Sections 5.4, 5.5
• Week 15 (Dec 3 - Dec 5): Review for Final Exam

Note: Changes in this course schedule may be necessary and will be announced to the class by the instructor. The assignments and exams shown are directly related to the Student Learning Outcomes described in Section F.

J. COURSE POLICIES

This course moves very fast. If you fall behind, even by one section, you may not be able to catch up, since each section generally depends very heavily on the ones before. You must attend every class. If you miss a class, it is your responsibility to find out what you missed (announcements, assignments, notes, . . .).

Attendance:
Attendance is mandatory. Absences due to observation of religious holidays, officially approved trips and illness or death of close family will be handled separately in accordance with the university policies. If you leave before the class ends without providing prior justification to the instructor, you will be treated absent for that day.

Late Work and Multiple Submissions:
Homework is not accepted after the deadline. There are no make ups for the in-class examinations, except for reasons of illness, stated in writing by the medical doctor, or observance of a religious holiday. Usually, no other reasons are accepted (events, plane tickets, weddings, etc. . . .). If you have to miss an exam, it is your responsibility to contact me no later than the day of the exam. Failure to contact me on or before the exam day results in a grade of 0 points for the exam. This also applies to the final exam. For missed final exams due to an acceptable excuse, the university rules about “I” (Incomplete) grades apply and the make-up is at the instructors convenience early in the next long semester. Only extreme emergencies or official university business are acceptable reasons to miss exams and documentation will be required. Car trouble, routine doctors appointments, family reunions or graduations of siblings etc. are not valid reasons to miss exams. If your reason to miss the exam is not a valid one, your exam score is 0 points. Be sure to check before missing an exam whether your reason is acceptable.
Extra Credit: There is no extra credit in this class.

Calculator: Use of calculators and formula sheets in all the exams is not permitted. Electronic devices which can store formulas, including cell phones, should be turned off and stored during the exams.

Cell Phone Use: Cell phones and such must be turned off or kept in silent mode before class. If disturbance happens multiple times because of the same student, the student will be asked to leave the classroom.

Laptop Use: You may use a laptop to take notes during lecture. Distracting other students by surfing the web is not an acceptable behavior.

Food in Class: No food in class (except during the final).

Missed Exam: See Late Work and Make-up Exams above.

Grading: On mid terms and final, partial credit for correct steps will be awarded even if the final answer is wrong. Full credit will be given only if the final answer and all intermediate steps are correct. A correct final answer per se does not guarantee any credit.

Participation: Participation is not part of the grade, but you learn more by interacting, than by watching passively.

Incompletes A grade of I (Incomplete) will only be given in exceptional circumstances, such as a death in the family or personal injury that might prevent someone from taking the final test. In this case, it is the responsibility of the student to notify me as soon as possible, preferably by e-mail, and to complete the required Incomplete Form available from the University Registrar. If this is not done, a score of 0% will be assigned for any incomplete tests and a final grade will be computed using the criteria described above.

K. COLLEGE AND UNIVERSITY POLICIES

- Academic Integrity (University)
  University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a failing grade.

- Classroom/Professional Behavior
  Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior
that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

- **Statement of Civility**
  Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

- **Deadline for Dropping a Course with a Grade of W (University)**
  I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. **Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course.** Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Please consult the Academic Calendar ([http://www.tamucc.edu/academics/calendar/](http://www.tamucc.edu/academics/calendar/)) for the last day to drop a course.

- **Grade Appeals (College of Science and Engineering)**
  As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at [http://www.tamucc.edu/provost/university_rules/index.html](http://www.tamucc.edu/provost/university_rules/index.html), and the College of Science and Engineering Grade Appeals webpage at [http://sci.tamucc.edu/students/GradeAppeal.html](http://sci.tamucc.edu/students/GradeAppeal.html). For assistance and/or guidance in the grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.
• Disability Services
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116. If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816. [http://disabilityservices.tamucc.edu/](http://disabilityservices.tamucc.edu/)

• Statement of Academic Continuity
In the event of an unforeseen adverse event, such as a major hurricane, and classes could not be held on the campus of Texas A&M University-Corpus Christi, this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

L. OTHER INFORMATION

• Academic Advising
The College of Science & Engineering requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. Meetings are by appointment only; advisors do not take walk-ins. Please call or stop by the Advising Center to check availability and schedule an appointment. The College’s Academic Advising Center is located in Center for Instruction 350 or can be reached at (361) 825-3928.

GENERAL DISCLAIMER
I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods and also by e-mail to the class.
