Course Description

This course is designed to provide an overview of strategic planning in public and nonprofit organizations (and communities). Fundamental concepts and practices of strategic planning and management are introduced with special emphasis on local government strategic planning in the United States. A strategic plan is a road map to get to where an organization wants to go. Making strategic planning a disciplined effort to produce fundamental decisions and actions that shape and guide what an organization is, what it does, and why it does it. In fact, leaders and managers of public and nonprofit organizations are expected to be effective strategists if these organizations are to fulfill their missions, meet their mandates, satisfy their constituents, and create public values in the years ahead. In addition, public agents need to develop not only effective strategies to cope with changed and changing circumstances, but also a coherent and defensible basis for their decisions. Consider strategic planning as a process for implementing strategic management.

Student Learning Objectives

By the end of this course, the successful student will be able to:

1. Explain the reasons public and non-profit organizations should embrace strategic planning as way to improve performance, including determining the various ways in which strategic planning may be institutionalized so that strategic thinking, acting, and learning may be encouraged and embraced across an entire organization;
2. Evaluate a strategic planning and management process that has been used successfully or unsuccessfully by a public or nonprofit organization, including analyzing what successful and/or unsuccessful practices were involved;
3. Discuss application of the strategic planning process, including information on specific tools and techniques that might prove useful in various circumstances within or across public and nonprofit organizations;
4. Analyze the major roles that must be played by various individuals and groups for strategic planning to work and how to play the roles;
5. Produce a strategic plan for a public or nonprofit organization, including formulating the steps involved in implementing and revising that plan effectively.

Course Requirements

You are expected to complete the assigned readings before class. Grades will be based on your performance on a series of assignments and classroom participation with the following distribution:

- Attendance and Participation: 15%
- Article or Case Study Review and Presentation (Due as Assigned): 20%
- Evaluation of an Existing Public or Non Profit Strategic Plan: 20%
- Develop a Public or Non Profit Strategic Plan Outline & Draft: 15%
- Complete a Public or Non Profit Strategic Plan: 30%

100%

Case Study or Article Review and Presentation (20%) & Due as Assigned

You are expected to analytically review a journal article related to strategic planning, such as process models, tools, techniques, theory or case study experiences. The paper should be critical, analytical and concise, as well as demonstrate an ability to apply the major concepts, theories, and methods of strategic planning to the article you are reviewing. The paper
should be 4 pages long, double spaced and be submitted along with a copy of the article being reviewed. Additionally, properly cite your sources using the APA style for citations and referencing.

Also you are required to present your article or case study review in class using a PowerPoint presentation. Provide a class handout. Each student will sign up for a class date to give this 15 minute presentation with 5 - 10 minutes facilitated classroom discussion. You will sign up in class for your presentation date. Appendix K in your textbook offers some suggested articles, but you will need to sign up for your selected article to avoid multiple presentations on the same article.

Evaluation of an Existing Strategic Plan (20%)

Chose an existing Strategic Plan preferably from a public or non-profit entity and do a critical analysis of that plan, including organizational history and profile, expected strategic outcomes, your personal assessment of what successful and/or unsuccessful strategic planning practices were involved, and your suggestions for improving the development and implementation of that plan. The evaluation should be a double-spaced 6 - 8 page report that properly cites your sources and uses the APA style for citations and referencing.

Develop a Strategic Plan Outline & Draft (15%)

The development of a strategic plan based on an assigned mock organization is a group project. Your team will write a double-spaced, 4 - 6 page proposal for developing that strategic plan. In this assignment you will detail the organizational need for the strategic plan, do a preliminary analysis of the SWOT and strategic issues, and will present your methodology for developing the plan, as well as an outline of your proposed strategic plan. The strategic plan proposal should include organizational history and profile, mission and value statements, as well as strategic issues. A & K Appendix A can be a helpful guide for your outline and process proposal.

Complete a Strategic Plan (30%)

Your team will write a double-spaced, 10-12 page strategic plan for the mock agency you were assigned (12 font, one-inch margin, and Times New Roman). Your final plan should address the SWOT and strategic issues for your assigned mock organization. You will use the theoretical arguments, perspectives, analyses, methods, implications and suggestions found in the required readings. Try to be both realistic and constructive; go for the feasible, not merely the desirable. This requires tight, lean sentence construction; each sentence makes a point. There is no room for expansive narrative that goes on for pages. The format is as follows: a title page with your name, table of contents, text organized around steps in the strategic planning process as outlined in the required readings (use appropriate subtitles in the text), and references. The strategic plan should be spell-checked and free of grammatical errors. Also, the strategic plan should include mock interview material from the staff at and clients of your assigned agency.

No work is accepted past the class that follows the original assignment due date. Incompletes are given only when a student can not complete the course due to circumstances beyond her/his control (as determined by the instructor.)
Attendance and Participation (15%)

Students are expected to arrive for class on time, as a demonstration that they can function responsibly in this learning environment. Without exception, attending late or leaving early is calculated as a half attendance. The instructor will check attendance regularly.

➢ With active class participation, 1 absence or less earns a student the full 15% for attendance and participation.
➢ With active class participation, 3 absences or less earns a student 10% for attendance and participation
➢ Four absences earns a student a zero for attendance and participation
➢ Five absences will result in “F” for the entire course.

You are expected to have read the materials before class. Student questions and comments are both expected and welcomed. Students learn best by actively participating in the teaching-learning process. You can learn as much from your classmates as you can from me. You will be asked to participate in numerous discussion activities.

Class topics parallel the assigned reading(s) specified on this syllabus. Again, you are expected to have read the assignments before the topic is presented. The participation part of your grade is dependent upon how well you respond to the in-class discussion and questions. On a sliding scale:

➢ Active participation is when a student demonstrates an understanding of all assigned readings; is able to make connections among course topics; is able to add their own insights; and goes beyond assigned readings.

➢ Adequate participation is when a student demonstrates familiarity with all assigned readings through classroom discussion.

➢ Minimal participation is when a student demonstrates familiarity with some of the readings, but a lack of preparation or insufficient participation on other topics; and participates only when called upon or when assigned to a small group.

Cell Phone and Electronic Device Usage

Turn off your cellular phone and pager during class. Using a laptop computer for taking notes in class is fine, but internet surfing or online chatting is prohibited and will be detrimental to your attendance and participation grade.

Dropping a Class

I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. November 8, 2019 is the last day to drop a class with an automatic grade of “W” this term.

Grade Appeals

As stated in University Procedure 13.02.99.C2.03, Student Grade Appeals, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.03, Student Grade Appeals. These documents are accessible online at http://academicaffairs.tamucc.edu/rules_procedures/assets/13.02.99.C0.03_student_grade_appeals.pdf. For assistance and/or guidance in the grade appeal process, students may contact the Associate Dean’s office in the college in which the course is taught.
