Texas A&M University – Corpus Christi

Special Education Field Experience

SPED 4397 College of Education
INSTRUCTOR: Mrs. Kimberly Cook

M–W–F 1:00 – 1:50
Location: TBD
Spring 2020
OFFICE HOURS: by appointment
EMAIL: Kimberly.Cook@tamucc.edu

I. COURSE DESCRIPTION

Special Education Field Experience SPED 4397 - Provides the student with the opportunity to interact with students with disabilities in a variety of settings ranging from non-involved observer to active participant. Grade assigned will be “credit” (CR) or “no credit (NC).

II. RATIONALE

Provides undergraduate students opportunities to teach students with support needs in a variety of special education delivery systems.

III. STATE STANDARDS FOR TEACHERS

The state adopted proficiencies covered in this course include the following:

1. Learner Centered Instruction. To create a learner-centered community, the teacher collaboratively identifies needs; and plans, implements, and assesses instruction using technology and other resources.

2. Equity in Excellence for All Learners. The teacher responds appropriately to diverse groups of learners. The administrator promotes equity in excellence for all by acknowledging, respecting, and responding to diversity among students and staff while building on shared values and other similarities that bond all people.

IV. TExES CONTENT COMPETENCIES and CEC NATIONAL STANDARDS

Domain I, Competency 002: The special education teacher understands formal and informal assessment procedures and knows how to evaluate student competencies to make instructional decisions.
Domain II, Competency 003: The special education teacher understands and applies knowledge of procedures for planning instruction for individuals with disabilities.
Domain II, Competency 005: The special education teacher knows how to promote students' educational performance in all content areas by facilitating their achievement in a variety of settings and situations.

**Council for Exceptional Children Initial Level Content: Special educators demonstrate their mastery of the following standards:**

Initial Content Standard 1: Foundations
Special educators understand the field as an evolving and changing discipline based on:
- philosophies and evidence-based principles and theories
- relevant laws and policies
- diverse and historical points of view
- human issues that influence the field and professional practice
- issues of human diversity that can impact families, cultures, and schools
- relationships of organizations of special education to the organizations and functions of schools, school systems, and other agencies

Initial Content Standard 2: Development and Characteristics of Learners
Special educators:
- know and demonstrate respect for their students first as unique human beings
- understand the similarities and differences in human development
- understand how exceptional conditions can interact with the domains of human development
- use this knowledge to respond to the varying abilities and behaviors of individuals with exceptional learning needs

Initial Content Standard 3: Individual Learning Differences
Special educators:
- know and understand the effects that an exceptional condition can have on an individual’s learning in school and throughout life
- utilize active and resourceful means in seeking to understand how primary language, culture, and familial backgrounds interact with the individual’s exceptional condition
- understand learning differences provide the foundation upon which special educators individualize instruction

Initial Content Standard 4: Instructional Strategies
Special educators:
- possess a repertoire of evidence-based instructional strategies to individualize instruction for individuals with exceptional learning needs
- select, adapt, and use these instructional strategies to promote positive learning results in general and special curricula
• modify learning environments appropriately for individuals with exceptional learning needs
• enhance the learning of critical thinking, problem-solving, and performance skills of individuals with exceptional learning needs
• promote increased student’ self-awareness, self-management, self-control, self-reliance, and self-esteem
• emphasize the development, maintenance, and generalization of knowledge and skills across environments, settings, and the life span

Initial Content Standard 5: Learning Environments and Social Interactions
Special educators:
• create learning environments for individuals with exceptional learning needs
• foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement
• foster environments in which diversity is valued
• shape environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy
• help their general education colleagues integrate individuals with exceptional learning needs in general education environments and engage them in meaningful learning activities and interactions
• use direct motivational and instructional interventions
• teach students to respond effectively to current expectations
• intervene with individuals with exceptional learning needs in crisis
• coordinate all these efforts and provide guidance and direction to para-educators and others, such as classroom volunteers and tutors.

Initial Content Standard 6: Language
Special educators:
• understand typical and atypical language development
• use individualized strategies to enhance language development and teach communication skills
• are familiar with augmentative, alternative, and assistive technologies to support and enhance communication
• match communication methods to an individual’s language proficiency and cultural and linguistic differences
• provide effective language models and use communication strategies and resources to facilitate understanding of subject matter for individuals with exceptional learning needs whose primary language is not English.
Initial Content Standard 7: Instructional Planning
Individualized decision-making and instruction is at the center of special education practice.
Special educators:
• develop long-range individualized instructional plans anchored in both general and special education curricula
• systematically translate these individualized plans into carefully selected shorter-range goals and objectives taking into consideration an individual’s abilities and needs, the learning environment, and a myriad of cultural and linguistic factors
• emphasize explicit modeling and efficient guided practice to assure acquisition and fluency through maintenance and generalization
• modify instructional plans based on ongoing analysis of the individual’s learning progress
• facilitate instructional planning in a collaborative context
• develop a variety of individualized transition plans from preschool to a variety of postsecondary work and learning contexts
• use appropriate technologies to support instructional planning and individualized instruction

Initial Content Standard 8: Assessment
Assessment is integral to the decision-making and teaching of special educators and special educators use multiple types of assessment information for a variety of educational decisions.
Special educators use the results of assessments:
• to help identify exceptional learning needs and to develop and implement individualized instructional programs
• to adjust instruction in response to ongoing learning progress
Special educators understand:
• legal policies and ethical principles of measurement
• measurement theory and practices
• appropriate use and limitations of various types of assessments
Special educators collaborate with families and other colleagues to:
• assure nonbiased, meaningful assessments and decision-making
• conduct formal and informal assessments of behavior, learning, achievement and environments
• identify supports and adaptations required for individuals
• regularly monitor the progress of individuals
• use appropriate technologies to support their assessments

Initial Content Standard 9: Professional and Ethical Practice
Special educators are guided by the profession’s ethical and professional practice standards to:
• to practice ongoing attention to legal matters along with serious professional and ethical considerations
Special educators view themselves as lifelong learners and regularly reflect on and adjust their practice to reflect current evidence-based best practices.

Initial Content Standard 10: Collaboration
Special educators routinely and effectively collaborate with families, other educators, related service providers, and personnel from community agencies in culturally responsive ways and promote and advocate the learning and well-being of individuals with exceptional learning needs across a wide range of settings and a range of different learning experiences.

V. COURSE OBJECTIVES/LEARNING OUTCOMES

This course is designed to enable students to:

1. Gather practical information and experience in the design and organization of a classroom for students with special needs (III. 1; IV. 003).
2. Teach school-age children both on an individual and group basis under a teacher’s supervision (III. 1, 2; IV. 005).
3. Document, monitor and evaluate instruction on a daily basis (III. 1; IV. 005).
4. Administer assessments to evaluate short-term objectives (III. 1; IV. 002).
5. Conduct baseline/intervention studies (III. 1; IV. 002).

Students in the EC-12 Special Education program will:

• demonstrate a depth of knowledge of understanding individuals with disabilities and evaluating their needs; (SPED 4310, SPED 4320, SPED 4330, and SPED 4335 are linked to this student learning outcome).
• demonstrate a depth of knowledge of fostering learning and development for individuals with disabilities; (SPED 4320, SPED 4330, and SPED 4335 are linked to this student learning outcome).
• demonstrate a depth of knowledge of foundations of special education and professional roles and responsibilities of the special education teacher; (SPED 4310 and SPED 4330 are linked to this student learning outcome).
• effectively apply the competencies of a special education teacher in their student teaching experience (SPED 4310, SPED 4320, SPED 4325, SPED 4330, SPED 4335, SPED 4397 and SPED 4398 are linked to this student learning outcome).

VI. COURSE TOPICS
This is a field-experience course in which the student interacts and teaches children with support needs under the direct supervision of the classroom teacher.

VII. INSTRUCTIONAL METHODS AND ACTIVITIES

The methods and activities for instruction include the following:

1. Traditional Experiences (lecture/discussion)
2. Online interaction with the instructor and other students.
3. Field experiences will involve observation, reflection, and teaching and assessment of individuals/small groups of school-aged children.

VIII. EVALUATION AND GRADE ASSIGNMENT

Methods and Percentage of Final Course Grade

This a credit/no credit course. To receive credit ALL assignments must be turned in on or before the due date and be professional and complete. Passing this course will **not** be based on 70% completion of assignments. If extenuating circumstances prevent the submission of assignments, the student must contact the instructor for approval of an extension prior to due date.

The major components of this course include the following assignments:

1. Field based component (minimum 30 hours). You will spend three to four hours per week for a period of at least eight weeks in a school setting, serving students receiving special education services (inclusive, transition, pullout, self-contained, etc.). You will work under the direct supervision of a special educator to gain experience that promotes professional growth and development leading to certification as a special education teacher. Attendance and sign-in sheet are required. You will have the option of going to a CCISD campus or the TIDES program on the TAMUCC campus for your field experience.

2. Reflective Journal (**due each Sunday by 11:59 p.m during your placement**). You must submit at least one journal entry per week during your placement, minimum of eight entries. These entries must reflect on the previous week’s experience. These are private; only the instructor will review each journal. These entries should be about an issue or incident that “stayed with you.” Each journal entry must contain: name of school, supervising teacher, number of students, type of classroom, etc., and be several paragraphs long, with a minimum of 250 words. See the journal template for details.
3. Data Collection Project. Work with your cooperating teacher to identify one student who will be the focus of your data collection activities. Prepare a data collection tool (you may use one designed by your cooperating teacher or develop one yourself) that you will use to gather progress-monitoring data on either a daily or weekly basis (dependent upon the measure) to show student progress toward mastery of one goal or short-term objective. You will meet with Mrs. Cook to review your data collection tool on March 27. You will begin collecting data after Mrs. Cook has approved your goal and data collection tool. Data will then be gathered and graphed to show student progress toward mastery of the objective and submitted along with the Module Project.

4. Reading Responses. Reading Responses allow you to apply current learning theory to what you are experiencing in the classroom. You must actively participate in these activities. There are three Reading Response topics assigned— you are welcome to address them any time prior to the due date. Record your due dates!

5. Module Project. This project should be seen as several mini-assignments (approximately 300 – 500 words per section). You will submit your Module Project when all items are completed. The module project will be reviewed at the initial meeting with Mrs. Cook on January 22, 2020.

6. Final Reflection. At the end of your experience, you will review each of your journal entries and your module project. Develop an overall reflection of your experience—what you learned, what you will use, what you might do differently. This is not a negative reflection on your cooperating teacher/school. We all bring different gifts to the classroom— which makes teaching so unique! Be sure to discuss a few of the most valuable experiences that you’ve learned during this journey. Also, please share some areas in which you may do things differently. This must be professionally written, with an introduction and conclusion, and be a minimum of 500 words.

Grading Scale:
Grading is Credit (CR) or Non Credit (NCR). You must submit ALL work, ON TIME, to receive credit. Passing this course will not be based on 70% completion, but completion of all assignments.

Professionalism in Placement: Districts and TIDES
• Appropriate dress is required. Even with permission from the school/cooperating teacher, you are not to wear blue jeans, shorts, sneakers, or t-shirts to your field experience. Dress should be professional – you are not only representing yourself as a future educator, but also TAMUCC. Your TAMUCC instructor MUST approve any exception to the rule. This includes students participating in TIDES.
• Adhere to all school (and university) rules. During your first week, request a teacher handbook or list of rules from your teacher.
• Use person-first language in all your professional discussions and written work.
• Adhere to the Code of Ethics (we will review it in class).
• Respect confidentiality issues at all times. Do not use students’ names in written work or social conversations; always speak respectfully of students and school personnel. Do not engage in “negative talk.”
• Submit professional documents. All work must be typed, single or double spaced, and well organized (please edit all work prior to submission for misspellings, punctuation and grammar).
• If you have any difficulty or concerns, please contact your instructor immediately!

IX. TEXTBOOK

The textbook adopted for this course is:

Recommended but not required supplementary documents are:
A Guide to the Admission, Review, and Dismissal Process (March 2012) available for download at:

It’s A New IDEA: The Manual for Parents and Students About Special Education Services in Texas 2012. Free publication available for download at:
http://www.thearcoftexas.org/site/PageServer?pagename=ARC_Idea

Journal entries must be submitted by 11:59p.m. on the Sunday following the week discussed in the journal entry. You must submit a minimum of eight entries.
Field Experience Module Project

**Detailed Module Project**
Please address each module as a “mini-assignment.” All work should be well organized and completed in 12 pt. font. Each section should be between 300 – 500 words. Please refer to your text for background information in relation to this assignment.

1. **Classroom Structure**
   - Describe the overall classroom structure – observe, discuss/conduct interview(s) with teacher(s).
   - Describe the physical environment and the students, including organizational techniques.
   - Describe the lesson planning process.
   - Discuss how teachers document within on-going plans that IEP requirements are being met (e.g., how are student specific goals addressed?)
   - Discuss how accommodations/modifications are being incorporated into daily/ongoing written lesson plans.
   - Describe the textbooks and/or other instructional materials used in the classroom.
   - Describe how the school provides a “continuum” of special education services (it may be possible to observe in several settings over time to optimize your learning experience).

2. **Formal/Informal Assessments**
   - Review, then describe assessments used for educational and behavioral purposes.
   - Describe procedures used for the administration of various formal/informal assessments.
   - Discuss the use of CBAs/CBMs (curriculum based assessments/curriculum based measures).
   - Describe STAAR preparation and the role of the special educator in the process and administration of STAAR. Students participating in TIDES – describe post secondary preparation and the role of the special education teacher.

3. **Instruction/Administration**
   - Describe your participation in planning and delivering instruction (you will work directly with students).
   - Thoroughly review and describe the teacher’s lesson plans.
   - Discuss additional ideas you may have with the teacher.
• Teach mini-lessons (one-on one or in small groups under the direction of cooperating teacher(s) and seek feedback. Discuss your experience.

Scheduling
• Describe schedule of students, staff, and support personnel.
• Discuss utilization of resources (paraprofessionals, support staff, peer helpers, etc.).

Team Leadership
• Describe the special educator’s interactions with paraprofessionals (how often does the special educator meet with paraprofessionals? How is feedback provided to paraprofessionals).
• Describe the special educator’s role in providing professional development to staff.
• What suggestions would he/she provide for effectively and supportively supervising paraprofessionals?

Communication
• Describe the frequency and type of communication with parents.
• Describe the frequency and type of communication with colleagues.

4. IEP and Data Collection
Describe the process of IEP development (observe an IEP or other student planning meeting).
Describe the processes/procedures for monitoring goals/objectives (data collection).
Describe the processes/procedures you use to monitor the progress of one student toward mastery of a goal or short-term objective.
Develop a data collection tool (get approved by Mrs. Cook before Apri 1) designed to collect data on your student’s identified goal.
• Describe your role in the design and implementation of data collection.
• Discuss the student’s progress over time.
• Make recommendations for future instruction based upon what you learned.

5. Behavior Support
• Describe the behavior support procedures.
• Discuss the implementation of behavior intervention/change plans.
• Describe data collection procedures in the school setting to document and assess the effectiveness of behavior interventions.
6. **Classroom Management**
   - Describe the classroom management plan.
   - List the classroom rules and procedures, discuss ways in which the students learn those rules and procedures, and list the consequences for positive and negative behavior.

7. **Assistive Technology**
   - Describe the assistive technology used in the classroom (discuss low, mid, and high tech devices used in the classroom on a regular basis).
   - Interview a member of the school/district assistive technology team and describe where/how they are trained. Students participating in TIDES interview the assistive technology specialist at TAMUCC. (I will be looking at your perspective.)

8. **Inclusive Practices**
   - Describe the inclusive practices implemented at the school or TAMUCC/TIDES.
   - Discuss ways in which all students are included in the school community and identify opportunities for increasing inclusive practices.

9. **Specialization**
   - Describe the teacher(s) roles and responsibilities on campus.
   - Discuss ways in which the special educator acts as a resource to the school and community.
   - Describe the special educator’s participation in the RTI process (observe an RTI meeting). This may be information researched and not necessarily applicable to your field experience (TIDES).

10. **Culturally and Linguistically Relevant Teaching**
    - Describe the ways in which the special educator(s) address issues of language and culture in the classroom and in the curriculum.
    - Discuss ways in which students' linguistic and cultural backgrounds are valued in the classroom and identify opportunities for increasing these practices.

11. **Applying your Knowledge**
    - Connect your field experience to content learned in other courses.
    - Review content/material studied in your classes throughout teacher preparation; make connections – university coursework to actual classroom application.

12. **Other…**
Please feel free to share any other information that you felt was valuable during your experience.

- Students participating in TIDES may replace one of the areas above with a support (visual support, specially designed instruction, assistive technology, etc.) developed for a student under the direction of the TIDES teacher. A representation of this support must be included as part of the module with a short narrative describing process of implementation in the classroom or on campus.

**All areas of this project must be addressed. If you don’t observe a particular area, tell me what it should look like, based on readings, research, classroom discussion, and/or interviews.**

**XII. Course Policies**

**Attendance & Tardiness in Placement**
- 3-4 hours per week
- If you are absent, you must make up the time. If hours are not made up, you will receive a Non Credit (NCR) for the course. You must attend a minimum of 30 hours over 8 weeks or more.
- If you are going to be absent, leave a message in advance with the cooperating teacher and your university instructor.
- If you change days or times the cooperating teacher and the university instructor must approve it in advance.

**Attendance & Tardiness in Class**
You are expected to attend scheduled classes.

**Late work and Make-up Exams**
All written work turned in must be typewritten. Late work will not be accepted unless prior arrangements have been made in advance with the instructor or documentation is provided of a medical or family emergency. If there are extenuating circumstances email your instructor.

All online assignments must be submitted no later than 11:59 pm on the due date.

**Extra Credit**
There is no extra credit available for this course.

**Cell Phone/Electronic Device Usage**

Cell phone use is prohibited. Do not use/take out your cell phone while at your placement. No texting. Cell phone use should only reserved for
emergencies (or supervisor request) and you must report the incident to the instructor. Even during non-instructional times (i.e., recess), cell phones are not to be used.

**Academic Integrity/Plagiarism**
University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one's own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in failure. See website [http://judicialaffairs.tamucc.edu/](http://judicialaffairs.tamucc.edu/).

**Dropping a Class**
I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with me before you decide to drop to be sure it is the best thing to do. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Check the university academic calendar website for dates related to dropping a class with an automatic grade of "W" this term. See website [http://www.tamucc.edu/academics/academic_cal.html](http://www.tamucc.edu/academics/academic_cal.html) to confirm April 6 as the last day to drop this course with an automatic grade of "W" this term.

**Preferred methods of scholarly citations**
Publication Manual of the American Psychological Association, Sixth Edition is the preferred method for citations within papers.

**Classroom/professional behavior**
Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums,
including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

**Grade Appeals***
As stated in University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C2.01, Student Grade Appeal Procedures. These documents are accessible through the University Rules Web site at http://www.tamucc.edu/provost/university_rules/index.html. For assistance and/or guidance in the grade appeal process, students may contact the Dean’s office in the college in which the course is taught or the Office of the Provost.

**Disabilities Accommodations***
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call or visit Disability Services at (361) 825-5816 in CCH 116. See website http://disabilityservices.tamucc.edu/.

If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

**Statement of Academic Continuity**
In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain
that the course instructor has a primary and a secondary means of contacting each student.

**Blackboard Learning Systems Support**
URL: http://iol.tamucc.edu
URL: Island Online Student Resources Webpage: https://distance-education.tamucc.edu/student_resources.html
“Help” At the bottom of the Course Management Control Panel in the course menu on the left-hand column of the course interface.
Phone: Help Desk (361) 825-2825

**Technology Requirements**
To prepare your computer for using Blackboard 9.1, go to https://iol.tamucc.edu/techreq.php for computer requirements.

To view .pdf files you will need the Adobe Reader. Download it at: http://get.adobe.com/reader/.

To view flash (.flv) files from sites such as You Tube, download the Flash player at http://get.adobe.com/flashplayer/.

**Navigating Blackboard 9.1**
Once you are in the course, read the “Announcements” on the home page. Check this each time you enter your course. You will see a Course Menu on the left of the page. The menu is a list of links that connect to materials and tools associated with the course. Blackboard has several features and tools for communicating content delivery that you should use almost daily. Links to information about how to use these tools include: Bb Help, which contains a complete guide to learning how to use the many tools and features in Blackboard, and Bb Video Tutorials, which links to a page with videos to show you how to do tasks such as submitting an assignment.

**Library resources** (including print, electronic, and human) can be accessed through the Mary and Jeff Bell Library website that supports electronic searches of articles, books, journals, course reserves, and databases. It includes information such as Ask a Librarian, research tools, remote access information and tutorials, information about plagiarism and copyright, and interlibrary loan (http://rattler.tamucc.edu/distlearn/). The library is a member of TexShare which provides you with a card that allows you to checkout materials from libraries across Texas. Librarians’ contact information is also on the website and you are encouraged to contact librarians for assistance.
In the event of a campus evacuation I will make every effort to continue teaching your course. Should such an event occur, I will continue to interact with you by using the Blackboard Announcement, Messages, Collaboration, Discussions, Blogs, Journals, and/or Wikis tools. If you have access to the Internet, you will be able to continue your coursework by posting assignments and interacting with me as well as each other online. You will also be able see your grades on assignments, quizzes, and tests using the My Grades tool.

Blended Course Guidelines

Students will practice respect and responsibility as a part of this learning community. Here are some things you can do to exhibit an attitude of respect and responsibility:

- Post assignments on time. Early is even better.
- Work extra hard to get to know other classmates.
- Success in group activities will require strong collaborative skills, excellent time management, and flexibility.
- Reach out using our course tools to support each other. If you have good info/tips on what is working for you/resource ideas, please share with the group so we can help each other out.
- Respect other classmates by watching what you say.
- Add your opinions to/participate in the discussions.
- Be helpful to other students.
- Don't get behind. If you get behind in an blended course it is harder to get back on track than it is in a traditional course.
- Stay focused and stay connected.
- Keep up with your assignments and your grades. It is not the teacher's responsibility to tell you what you have or haven't turned in. Your grades will be available in Blackboard so all you have to do is regularly check to make sure you have grades posted for all work.
- In general terms, students are expected to "demonstrate a high level of maturity, self-direction and ability to manage their own affairs" and to "conduct themselves in accordance with the highest standards of academic honesty." Instances of plagiarism will be handled in accordance with Texas A&M University-Corpus Christi General Academic Policies and Regulations as listed in the current catalog.

Student login expectations—Students are required to login often – once every three days at a minimum. It is recommended that students check daily for updates. (Specific login instructions are available at Blackboard Login https://bb9.tamucc.edu)
Instructor Feedback—During the week (exclude weekends), I will generally respond to online requests within 24 hours. If you have not received a response to a question within 48 hours, please resubmit your inquiry.

Instructor availability to support students—I maintain a consistent web presence and am available to meet in my office, online or via phone. I want to you to do well and develop critical knowledge and skills. Please contact me with questions, comments or concerns.

Syllabus Disclaimer
This syllabus should serve as your guide to this course and is as accurate as possible. However, all information is subject to change; changes will be posted via Blackboard announcements. Additional class meetings may be called if needed.
