Statistics for Life MATH 1442.341/342/700
Department of Mathematics and Statistics
FALL 2020

A. COURSE INFORMATION

Course number/section: MATH 1442.341/342/700
Class meeting time: TR 9:30 – 10:45 am
Class location: CI - 138
Course Website: https://bb9.tamucc.edu/webapps/login/

B. INSTRUCTOR INFORMATION

Instructor: Ms. Haekyoung Choi
Office location: CI-351
Office hours: M & W 12:30 – 1:30 pm / F 11 am – 2 pm
e-mail: haekyoung.choi@tamucc.edu
Appointments: Email for setting up an appointment

C. COURSE DESCRIPTION

An introduction to statistical concepts and methods used in all disciplines to enhance decision making based on data analysis, including: basic experimental design models, measurement and data collection through sampling; display and summary of information, and assessment of relationship through descriptive techniques; probability concepts leading to estimation and hypothesis testing of means, variance and proportions, regression analysis, one-factor ANOVA and chi-square test of independence; and applications through case studies. The laboratory component of the course offers applications of the theory presented during the classroom sessions. Counts as the mathematics component of the University Core Curriculum.

This course prepares students for taking higher level courses in statistics and research and to understand the scientific literature in their field.

D. PREREQUISITES AND COREQUISITES

Prerequisites: MATH 0310, MATH 0320 or placement beyond MATH 0310 or MATH 0320; also non-remedial status in Reading and Writing as determined by placement testing or TSI. Fall, Spring, Summer.

Corequisites: none

E. REQUIRED TEXTBOOK(S), READINGS AND SUPPLIES

Required textbook:
Electronic version of the textbook, Elementary Statistics by Mario F. Triola, 13th edition, it is included in the MyLabsPlus system. For buying access to MyLabsPlus, please see the
Optional Textbook(s) or Other References

Earlier editions of Triola, Elementary Statistics will probably be just as helpful and hopefully cheaper as well for the textbook part only, but you still need to buy the standalone access code as described above.

Supplies

MyLabsPlus access kit is required for homework and quizzes. You can purchase an access code, either one of bundled versions mentioned above, or the standalone access code for MyLabsPlus with ISBN: 9780321847997 through the campus bookstore or directly from the publisher at the website https://tamucc-mlpi.openclass.com. I recommend checking both sources before buying. I will discuss how you access and use MyLabsPlus during our first-class meeting.

A TI-83/84 plus graphing calculator is recommended for this course. TI-NSpire is **NOT allowed to be used during the exams**.

**JMP software** (JMP Pro®, Version 13, Copyright © 2013 SAS Institute Inc., Cary, NC) will be provided in the Lab and does not need be purchased. (This software is **NOT** compatible with Chromebook or any other devices using Chrome OS.)

F. STUDENT LEARNING OUTCOMES AND ASSESSMENT

Assessment is a process used by instructors to help improve learning. Assessment is essential for effective learning because it provides feedback to both students and instructors. A critical step in this process is making clear the course’s student learning outcomes that describe what students are expected to learn to be successful in the course. The student learning outcomes for this course are listed below. By collecting data and sharing it with students on how well they are accomplishing these learning outcomes students can more efficiently and effectively focus their learning efforts. This information can also help instructors identify challenging areas for students and adjust their teaching approach to facilitate learning.

By the end of this course, students should be able to:

1. Students will be able to use descriptive statistics and graphical exploration to summarize key features of data.
2. Students will be able to perform elementary probability calculations, primarily with the normal distribution and including applications of the Central Limit Theorem.
3. Students will be able to calculate confidence intervals and perform hypothesis tests of the following forms: one and two sample t-tests, Chi-square test, ANOVA, and linear regression.
4. Students will be able to determine an appropriate statistical analysis, given data and a research question.
5. Students will be able to interpret the results of all calculations and statistical tests in the context of the processes that generate that data, and will be able to express these interpretations clearly in writing.
6. Students will be able to use appropriate technology tools to perform needed calculations and tests.

G. INSTRUCTIONAL METHODS AND ACTIVITIES

Methods for instruction include the following:
• Lecture.
• Demonstrations.
• Use of computer resources, including statistical software, spreadsheets, and the Internet for data location, data organization, and data analysis.

H. MAJOR COURSE REQUIREMENTS AND GRADING

Final course standing will be based upon homework, quizzes, three semester tests, lab section grade, and a final test each weighted as follows

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>% of FINAL GRADE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three semester exams</td>
<td>15 % each</td>
</tr>
<tr>
<td>MyLabsPlus - Quizzes</td>
<td>10%</td>
</tr>
<tr>
<td>MyLabsPlus - Homework</td>
<td>15%</td>
</tr>
<tr>
<td>Lab Section</td>
<td>15%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>15%</td>
</tr>
</tbody>
</table>

Grades will be assigned according to the following scale.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90%-100%</td>
</tr>
<tr>
<td>B</td>
<td>80%-89.99%</td>
</tr>
<tr>
<td>C</td>
<td>70%-79.99%</td>
</tr>
<tr>
<td>D</td>
<td>60%-69.99%</td>
</tr>
<tr>
<td>F</td>
<td>below 60%</td>
</tr>
</tbody>
</table>
I. COURSE CONTENT/SCHEDULE

<table>
<thead>
<tr>
<th>DATE (BY WEEK)</th>
<th>TOPIC</th>
<th>CHAPTER(S)</th>
<th>ASSIGNMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Syllabus, MLP, and Introduction And Basic concepts</td>

FINAL EXAM – THURSDAY – DECEMBER 3RD @ 8:00 AM

Important Dates

LABOR DAY HOLIDAY, MONDAY SEPTEMBER 7th – NO CLASS
DEADLINE FOR DROPPING A COURSE IS THURSDAY – NOVEMBER 5th
LAST DAY OF CLASS, TUESDAY NOVEMBER 24th
THANKSGIVING HOLIDAY, NOVEMBER 25 – 27 – NO CLASS

* Exam 1 – Thursday, September 10th
** Exam 2 – Thursday, October 8th
*** Exam 3 – Thursday, November 5th
****Final Exam – Thursday, December 3rd

Note: Changes in this course schedule may be necessary and will be announced to the class by the Instructor. The assignments and exams shown are directly related to the Student Learning Outcomes described in Section F.
J. COURSE POLICIES

COVID-19
Face Coverings—Face coverings (cloth face covering, surgical mask, etc.) must be properly worn in all non-private spaces including classrooms, teaching laboratories, common spaces such as lobbies and hallways, public study spaces, libraries, academic resource and support offices, and outdoor spaces where 6 feet of physical distancing is difficult to reliably maintain. Extra masks will be made available if needed.

Attendance
Participation in assignments and labs will be considered as equivalent to attendance in an online environment.

Late Work and Make-up Exams
MyLabsPlus homework and quizzes will have a 10% penalty after the due date during the regular period of classes, and for the last deadline by the end of the course they will be closed with no possibility of an extension. (Final submission is due on November 30th by Midnight.) Please note that this is a strict deadline. There will be no makeup for a missed exam. Please see section below regarding the exams policy.

Exams Policy
The lowest score of one of the three tests administered during the semester will be replaced by the score on the final test, provided that the final test score is better than one of the semester test scores. A missed test score will be replaced following the policy described above. The final test score will not be replaced by the semester test scores. You are allowed to bring in one page of notes for the semester tests and two pages of notes for the final exam, written or typed on both sides on a sheet not larger than 8.5”x11”. Your name should be written at the top of the page in large and clear letters. Pages of notes and/or calculators cannot be shared. Cell phones cannot be used as calculators. No music devices are allowed during the examinations. Scratch paper and formula sheets will be provided during the examination and should be returned to the instructor. No other webpages should be opened during a computer administered exam. If extra points are given, the total score should not exceed 100%. No points will be “saved” toward the next examination.

IMPORTANT MESSAGE: Courses may require additional fees for students to take tests and exams online, and those tests/exams might be monitored by third-party online exam-proctoring services.
1. All costs for exams are the responsibility of the student and typically involve third party charges ranging from $1 - $50.00 per exam. Students may be required to schedule exams at least 24 hours in advance or incur late scheduling charges.
2. Students may be responsible for providing webcams to be used in test proctoring.
3. Students may be required to show to an online proctor via webcam 1) photo ID and 2) the interior of the room where the student is taking the test/exam.
K. COLLEGE AND UNIVERSITY POLICIES

- **Academic Integrity (University)**
  University students are expected to conduct themselves in accordance with the highest standards of academic honesty. Academic misconduct for which a student is subject to penalty includes all forms of cheating, such as illicit possession of examinations or examination materials, falsification, forgery, complicity or plagiarism. (Plagiarism is the presentation of the work of another as one’s own work.) In this class, academic misconduct or complicity in an act of academic misconduct on an assignment or test will result in a failing grade.

- **Classroom/Professional Behavior**
  Texas A&M University-Corpus Christi, as an academic community, requires that each individual respect the needs of others to study and learn in a peaceful atmosphere. Under Article III of the Student Code of Conduct, classroom behavior that interferes with either (a) the instructor’s ability to conduct the class or (b) the ability of other students to profit from the instructional program may be considered a breach of the peace and is subject to disciplinary sanction outlined in article VII of the Student Code of Conduct. Students engaging in unacceptable behavior may be instructed to leave the classroom. This prohibition applies to all instructional forums, including classrooms, electronic classrooms, labs, discussion groups, field trips, etc.

- **Statement of Civility**
  Texas A&M University-Corpus Christi has a diverse student population that represents the population of the state. Our goal is to provide you with a high-quality educational experience that is free from repression. You are responsible for following the rules of the University, city, state and federal government. We expect that you will behave in a manner that is dignified, respectful and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation or disability. Behaviors that infringe on the rights of another individual will not be tolerated.

- **Deadline for Dropping a Course with a Grade of W (University)**
  I hope that you never find it necessary to drop this or any other class. However, events can sometimes occur that make dropping a course necessary or wise. Please consult with your academic advisor, the Financial Aid Office, and me, before you decide to drop this course. Should dropping the course be the best course of action, you must initiate the process to drop the course by going to the Student Services Center and filling out a course drop form. Just stopping attendance and participation WILL NOT automatically result in your being dropped from the class. Please consult the Academic Calendar (http://www.tamucc.edu/academics/calendar/) for the last day to drop a course.

- **Grade Appeals (College of Science and Engineering)**
  As stated in University Procedure 13.02.99.C0.03, Student Grade Appeal
Procedures, a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, equitable evaluation procedures, or appropriate grading, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is required to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the process and the number of days allowed for completing the steps in the process, see University Procedure 13.02.99.C0.03, Student Grade Appeal Procedures. These documents are accessible through the University Rules website at http://academicaffairs.tamucc.edu/rules_procedures/assets/13.02.99.c0.03_student_grade_appeals.pdf. For assistance and/or guidance in the grade appeal process, students may contact the chair or director of the appropriate department or school, the Office of the College of Science and Engineering Dean, or the Office of the Provost.

- **Disability Services**
  The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please call (361) 825-5816 or visit Disability Services in Corpus Christi Hall 116.

  If you are a returning veteran and are experiencing cognitive and/or physical access issues in the classroom or on campus, please contact the Disability Services office for assistance at (361) 825-5816.

  [http://disabilityservices.tamucc.edu/](http://disabilityservices.tamucc.edu/)

- **Civil Rights Complaints**
  Texas A&M University-Corpus Christi is committed to fostering a culture of caring and respect that is free from discrimination, relationship violence and sexual misconduct, and ensuring that all affected students have access to services. For information on reporting Civil Rights complaints, options and support resources (including pregnancy support accommodations) or university policies and procedures, please contact the University Title IX Coordinator, Sam Ramirez (Samuel.ramirez@tamucc.edu) or Deputy Title IX Coordinator, Rosie Ruiz (Rosie.Ruiz@tamucc.edu) x5826, or visit website at Title IX/Sexual Assault/Pregnancy.

  **Limits to confidentiality**. Essays, journals, and other materials submitted for this class are generally considered confidential pursuant to the University's student record policies. However, students should be aware that University employees, including instructors, are not able to maintain confidentiality when it conflicts with their responsibility to report alleged or suspected civil rights discrimination that is observed by or made known to an employee in the course and scope of their employment. As the instructor, I must report
allegations of civil rights discrimination, including sexual assault, relationship violence, stalking, or sexual harassment to the Title IX Coordinator if you share it with me.

These reports will trigger contact with you from the Civil Rights/Title IX Compliance office who will inform you of your options and resources regarding the incident that you have shared. If you would like to talk about these incidents in a confidential setting, you are encouraged to make an appointment with counselors in the University Counseling Center.

- **Statement of Academic Continuity**
  In the event of an unforeseen adverse event, such as a major hurricane and classes could not be held on the campus of Texas A&M University–Corpus Christi; this course would continue through the use of Blackboard and/or email. In addition, the syllabus and class activities may be modified to allow continuation of the course. Ideally, University facilities (i.e., emails, web sites, and Blackboard) will be operational within two days of the closing of the physical campus. However, students need to make certain that the course instructor has a primary and a secondary means of contacting each student.

L. **OTHER INFORMATION**

- **Academic Advising**
  The College of Science & Engineering requires that students meet with an Academic Advisor as soon as they are ready to declare a major. The Academic Advisor will set up a degree plan, which must be signed by the student, a faculty mentor, and the department chair. Meetings are by appointment only; advisors do not take walk-ins. Please call or stop by the Advising Center to check availability and schedule an appointment. The College’s Academic Advising Center is located in Center for Instruction 350 or can be reached at (361) 825-3928.

- **CASA**
  The Center for Academic Student Achievement is your best free resource on campus. It provides free academic support through tutoring, counseling, and helps you navigated through higher education. The CASA website is: http://casa.tamucc.edu/

**GENERAL DISCLAIMER**

I reserve the right to modify the information, schedule, assignments, deadlines, and course policies in this syllabus if and when necessary. I will announce such changes in a timely manner during regularly scheduled lecture periods.
